Reuter's Telegrams.

MARCH 2ND.—The Sultan has informed the Ambassadors that arrangements have already been made to give effect to the proposals of the powers and that the Council of State are drafting Ordinances. Meanwhile a general feeling of disappointment is felt in Bulgaria, Servia and Macedonia where the reforms are regarded as illusory.

Two serious encounters between Turkish and Bulgarian bands have taken place in the Uskub District. One killed wore the uniform of a Bulgarian Officer and others were dressed as Bulgarian privates.

MARCH 3RD.—Hilmi Pascha has been appointed Inspector General in Macedonia to supervise the reforms. He is an energetic man of blameless character and of large experience.

Some anxiety is being shown in connection with the health of His Holiness the Pope who at the present moment is receiving deputations to celebrate his Jubilee with manifest difficulty.

Mr. Brodrick stated in the House of Commons that 44 Batteries of Volunteer Artillery had been or were being re-armed with modern 4-7 guns, that 66 Horse and Field Batteries of the Regulars had been created since January 1899.

MARCH 4TH.—The House of Commons in supply have voted £69,600 in aid of the East Africa Protectorate. Lord Cranborne replying to criticism stated that there had been great progress in trade in East Africa, that the resources of the country were great, and that the Foreign Office were vigorously pursuing a policy of development.

A gale of great violence particularly in the Channel is blowing, numerous disasters have been caused and loss of life.

Mr. Roosevelt has summoned the Senate to sit in special session on the 5th instant to secure their sanction to the Panama Canal and Cuban Reciprocity Treaties which hitherto have been obstructed by private interests.

In a debate in the House of Lords on the Venezuelan question. Lord Lansdowne explained that the American Government had been fully acquainted with the British action from the very commencement of proceedings, and that America had been perfectly friendly throughout.

The British Troops have occupied a position commanding Dhala, the Turks have withdrawn from all the places claimed by Britain.

The Principal celebration of His Holiness the Pope's Jubilee took place yesterday. His Holiness was borne to St. Peter's amidst an immense throng and was manifestly moved at the enthusiastic acclamations of the crowd. He stood up in the Sedia Gestatoria and blessed the kneeling crowd consisting of fully fifty thousand individuals.

MARCH 5TH.—Mr. Brodrick replying in the House of Commons to Mr. Hobhouse, stated that large operations in Somaliland where never contemplated, that there was never the smallest intention of proceeding further into the country than was necessary to check the advance of the Mad Mullah into our own territory and that there was every reason to believe that the present force was in every way sufficient.

Mr. Balfour, replying to Mr. Bowles in the House of Commons, stated that the great expense entailed for the construction of a harbour on the east side of Gibraltar was not justified by the requirements of Imperial defence.

At a banquet in London given by the Association of the Chamber of Commerce, the French Ambassador M. Cambon emphasized the strong ties that unite France with Great Britain, that the annual trade between the two nations amounted to eighty millions sterling and that it was impossible to find any question that could seriously divide the two nations.

MARCH 6TH.—The Somaliland Column is advancing on Galkayu and has arrived, unopposed, at Debit where the lines of communication end.

His Holiness the Pope is suffering from cold and had been ordered a few days complete rest.

The American Congress has been adjourned after passing the Naval votes which amount to dollars: \$1,877,000 and provide for a grant towards the construction of five battleships but no Cruisers as mentioned in Renter's of the 19th January.

The main Column leaves Obbia to-day. General Manning has obtained information that the Mad Mullah has returned to Mudug with the bulk of his force and he hopes that the flying columns may come in contact with him.

M. Lagarde, who has lately been on indifferent terms with the Emperor Menelik is quitting Abyssinia and is not expected to return.

Mr. Brodrick, in the House of Commons, announced that a Royal Commission would be appointed to enquire into the condition of the Volunteer Forces.

Mr. Balfour moved in the House of Commons that the growing needs of the Empire require the establishment of a permanent Defence Committee to consist of the names mentioned in Renter's of the 16th February and that their work would be handed on from Government to Government thus securing continuity of policy, a state of affairs which hitherto has not been possible. The motion was received with enthusiasm and adopted.

MARCH 12TH.—His Holiness the Pope has recovered.

Mr. Balfour announced in the House of Commons that a Naval port and base will be established at St. Margarets Hope on the north side of the Fort near Queensferry.

A Russian Naval Officer has been arrested spying the British fortifications at Aden near the key defences where concealed batteries are worked. Two British Officers escorted the prisoner on board the Russian Warship where he was released. The Garrison at Aden are intensely irritated as the Russian Officers have been treated as distinguished visitors.

At a Railway Conference at Johannesburg presided over by Lord Milner, the construction of an alternative line between Natal and Johannesburg via Wilgeriver was approved.

Col. Plunkett and several Companies of 2nd King's African Rifles have proceeded from Garrero to Bohotle preparatory to an advance on Damot 40 miles south, thus opening an advance from the North. Large numbers of the Mullah's followers are at Damot though the main body is still at Mudug.

It is understood that the preliminary expenditure on forming a base at Queensferry will be 2½ millions sterling, including a large store of war material. This step has created a disagreeable impression in Germany, where they look upon it as a counter move against German Naval activity.

The promulgation of various Ordinances connected with the Macedonian Reform Schemes is expected shortly. The Schemes have been approved by the Council of Ministers and now only await the sanction of the Sultan. A general amnesty has been promulgated on account of the Bairam festival.

The movements of the British Columns on both sides of the Hand Desert have compelled the Mullah to divide his forces. Prior to the occupation of Damot, the Somalis were allowed to take a large share in the operations. The result was unsatisfactory, and there were numerous desertions.

In an Official despatch from Capt. Swann at Bohotle, dated the 3rd instant, he states that two Companies Pioneers, 100 Somali Mounted Infantry, 50 Camel Corps and the Marconi section, have occupied Damot. The force arrived there on the 4th and came in contact with a small body of Mullah's Horse which retreated rapidly south.

In an official despatch, General Manning reports that his mounted troops occupied Galkayu on the 3rd and the rest of the column on the 5th. An helio message from Debit to Obbia adds that the occupation was apparently unopposed. Renter's correspondent states that the casualties were entirely confined to the Mad Mullah's followers.

Mr. Gerald Balfour, speaking in the House of Commons, stated that Australia had advised the Government that they did not desire to adhere to the Sugar Convention. . Owe other Colonies including India have not yet signified their wishes.

The Naval Estimates amount to £35,836,841, being a net increase on last years of £3,202,000 which is mainly for ship building, repairs and maintenance of the Naval programme. The commencement of 3 new Battleships, 4 First Class Cruisers, 3 Protected Cruisers, 4 Scouts, 15 Destroyers and 10 Submarine boats are included, the number of officers and men is fixed at 127,100 being an increase of 4,600.

The Mad Mullah has fled to Galadi 50 miles from Galkayu. Our scouts were only engaged as the enemy retired before our advance. The Boers are reported to have done good work.

The heavy increase of the Naval Estimates is the universal topic of conversation and there is a disposition shown to acquiesce in the inevitable, combined with forebodings concerning the instability of the present armed peace which necessitates such sacrifices.

OBITUARY.

It is with extreme regret that we have to announce the death of Mr. E. E. Walker, Geologist of the East Africa Protectorate.

Mr. Walker died of Erysipelas on Sunday, the 1st inst., at Kisumu.

Mr. Walker was appointed Geologist on the 10th March 1902. Since then he visited many parts of the East Africa Protectorate and worked conscientiously and indefatigably in the exercise of his duties.

His untimely death is a loss to his profession and to the Government he was serving.
