BORANA CONSERVANCY MANAGEMENT PLAN, 2023-2032

IN EXERCISE of the powers conferred by section 44 (3) of the Wildlife Conservation and Management Act, 2013, the Cabinet Secretary for Tourism, Wildlife and Heritage gazettes the plan in the Schedule hereto:

SCHEDULE

The Borana Conservancy Management Plan 2023-2032 (hereinafter referred to as “the Plan”) defines the goals, objectives and actions that Borana Conservancy (hereinafter referred to as “the Conservancy”) has designed to address conservation, sustainability and operation issues in the Conservancy and strengthening conservancy-community relations.

The Conservancy's vision, guiding principles, management programmes and plan implementation strategy are summarized in the following sections.

Vision

A Conservancy dedicated to the sustainable conservation of land and wildlife. Its holistic approach commits tourism, ranching and other enterprises to building local livelihoods and enhancing ecosystem integrity.

Guiding Principles

- (a) **Conservation:** Addressing issues related to biodiversity and ecosystem services as well as management of energy, water, waste, land planning and carbon impact reduction, amongst others.
- (b) **Community:** Recognizing its responsibility, as a pioneering nature-based business, in contributing to lifting communities out of poverty and empowering local people to drive their own sustainable development.
- (c) **Culture:** The Conservancy's activities strive to strengthen intercultural relationships and understanding and safeguarding cultural heritage while raising awareness of cultural diversity.
- (d) **Commerce:** The Conservancy's commercial activities address profitability to ensure a reasonable return for the owners to stay invested in the conservation business and serve as a source of reliable business and income for the dependent communities.

MANAGEMENT PROGRAMMES

The plan has three management programmes: Conservation Management Programme, Community Development Programme and Conservancy Sustainability and Operations Programme.

Conservation Management Programme

The purpose of the Conservation Management Programme is to ensure that "wildlife and its habitats are sustainably conserved and managed and their understanding is enhanced through management-oriented research and monitoring". To achieve this purpose, the programme has four management objectives that focus on managing and maintaining key habitats; conserving and managing key large mammal species; conducting management-oriented research and ecological monitoring; and enhancing the security of natural resources, conservancy assets and visitors.

Community Development Programme

The Community Development Programme's purpose is to increase "support and participation of BC's neighbouring communities in wildlife conservation and sustainable use of natural resources." Key to achieving this aim is ensuring that community well-being is improved which is the focus of the programme's first objective. The programme's second objective focuses on improving community livelihoods through the establishment of viable community enterprises, while the third objective focuses on promoting conservation-compatible community initiatives. The fourth objective aims to improve formal education and conservation awareness in BC's neighbouring communities. The programme's fifth objective seeks to reduce human-wildlife conflict incidences, while the last objective focuses on establishing and strengthening community communication and collaboration mechanisms.

Conservancy Sustainability and Operations Programme

The Conservancy Sustainability and Operations Programme aims "to ensure that the conservancy is financially sustainable and its operations effectively support the delivery of its management programmes". To achieve this aim, four management objectives have been developed. The first objective focuses on offering memorable visitor experiences based on natural and cultural resources, while the second objective seeks to maintain livestock production to provide income for supporting conservancy operations and maintaining healthy pastures. The third objective focuses on ensuring that staff and administrative systems are effective and efficient and that the conservancy is financially sustainable; finally, the fourth objective seeks to improve infrastructure and transport to support conservancy operations.

PLAN IMPLEMENTATION, MONITORING AND EVALUATION

A 10-year implementation plan has been developed to facilitate the implementation of the Conservancy's Management Plan. The plan outlines the management actions under each of the three management programmes and prioritizes them according to the urgency of their implementation. The management plan will be implemented through the Conservancy's annual work plans, which will be prepared and executed by the Conservancy management. In addition, the plan provides a monitoring framework for assessing the potential impacts of implementing each management programme. The Conservancy's Managing Director will produce and provide KWS with an annual compliance/progress report on plan implementation, while the Conservancy Board will oversee the production of a third-party management report every five (5) years.

The Plan is deposited at the offices of the Director-General, Kenya Wildlife Service along Langata Road and the Managing Director, Borana Conservancy whose addresses are provided below:

THE CONSTITUTION OF KENYA, 2010
THE COUNTY GOVERNMENTS ACT
(No. 17 of 2012)

ESTABLISHMENT OF MACHAKOS COUNTY GOVERNMENT WATER AND
SANITATION SECTOR REFORMS TASKFORCE

PURSUANT to article 43 of the Constitution of Kenya, 2010 and section 30 (2) (l) as read together with section 31 of the County Governments Act, 2012, it is notified for general public information that the Governor of the Machakos County has established a Machakos County Government Water and Sanitation Restructuring Taskforce. The purpose of the Taskforce is to undertake comprehensive review of all the six public water service providers, to assess, develop and implement strategies to improve water management and ensure sustainable water supply and sanitation services within Machakos County while overseeing the restructuring and reorganization of the six water service providers within Machakos County so as to fully be owned by the County Government as at the date of the establishment of the Taskforce.

The Taskforce shall consist of —

Name	Title
Francis Maliti (Eng.)	Chairperson
Paul Museku	Member
Prof. Charles Kaloki	Member
Itwiki Mbai	Member
Erick Wamiti	Member
Peter Otheng'o	Member
Shadrack Muya	Member
Rita Kaloki	Member
Tabitha Ngutu	Member
Maureen Bosibori	Member

The Taskforce shall, prior to embarking on its duties, subscribe to such oath of confidentiality and such other oaths, as may be prescribed.

The Terms of Reference of the Taskforce are to:

- (a) Review and restructure all the six public water service providers in the County.
 - (b) Identify and document the current state of the water service providers including governance structures, commercial viability, operational challenges, risk management strategies and compliance with relevant policy, legal and regulatory provisions.
 - (c) Develop a comprehensive roadmap for the review and restructuring of the Water and sanitation companies incorporating timelines, responsibilities and deliverables.
 - (d) Identify specific services or functions to be focused on during the restructuring, such as water supply, sanitation management and infrastructure development.
 - (e) Identify and address potential risks, challenges, or obstacles that may arise during the restructuring process.
 - (f) Engage with relevant stakeholders, including government agencies, regulatory bodies, water service providers, consumer groups and industry experts.
 - (g) Co-ordinate and facilitate regular meetings, workshops and consultations with stakeholders including public participation to gather input and ensure effective communication.
 - (h) Establish working groups or subcommittees to address specific aspects of the restructuring process, such as legal and regulatory, human resource, financial and operational matters.
 - (i) Assess and map out all the current assets and liabilities of the water service providers.
 - (j) Supervise the Transfer of all the assets from Tanathi Water Works Development Agency to the County Government of Machakos.
 - (k) Continuously monitor and evaluate the implementation key activities.
 - (l) Draft the Machakos County Water and Sanitation Bill.
 - (m) Develop Machakos County Water and Sanitation Master Plan; and
 - (n) Recommend strategies to ensure sustainable water and sanitation management within the County.
- In the performance of its functions, the Taskforce—
- (a) shall be properly constituted for purpose of transacting its business with five members present to form the quorum;
 - (b) shall be required to maintain strict confidentiality and shall execute a confidentiality Agreement;
 - (c) shall disclose any potential conflicts of interest that could compromise the integrity of the restructuring process;
 - (d) shall hold such number of meetings at such places and such times as the Taskforce shall consider necessary for the proper discharge of its mandate;
 - (e) may request for documentation and any other material or information required in the discharge of its mandate, from any officer or official in the county government of Machakos and the water service providers;
 - (f) shall have access to all reports relevant to its mandate;
 - (g) shall, as it considers appropriate, carry out or cause to be carried out such studies or research as may inform the Taskforce on its mandate;
 - (h) shall undertake field assessments and investigations;
 - (i) shall conduct public hearings and receive representations, memoranda and petition from the public;

- (j) shall submit reports to the Governor upon request;
- (k) shall have adequate resources including funding, staff, technical expertise and administrative support; and
- (l) subject to the foregoing, the Taskforce and the secretariat that shall be established by the task force shall have all the independence necessary for carrying out its functions and for the proper execution of its mandate, including the power to regulate its own procedure without being the subject of control by any other authority.

The Taskforce shall—

- (a) within (6) six months (or such longer period that the Governor may authorize) submit to the Governor a report with appropriate recommendations;
- (b) address all its communication through the Chairperson of the Taskforce;
- (c) submit as appropriate, interim reports to the Governor as the Taskforce may deem fit and necessary or as the need arises;
- (d) in consultation with the Governor, have the power to co-opt other technical expertise, as it deems fit only for specialized aspects of its terms of reference; and
- (e) amend or revise the Terms of Reference if deemed necessary with the approval of the Governor.

The Secretariat of the Taskforce

The Secretariat of the Taskforce, once established, shall be responsible to the Taskforce for—

- (a) providing appropriate background briefing to the Taskforce;
- (b) preparing the Taskforce's reports and disseminating any information deemed relevant to the Taskforce;
- (c) undertaking research and liaising with the relevant Machakos County Government Departments and any other institution in order to gather relevant information necessary for informing the Taskforce; and
- (d) policy interpretation, developing and implementing the programs and activities of the Taskforce;

These appointments take effect from the date of this notice.

Remuneration

The remuneration of members of the Taskforce and Secretariat shall be as the applicable Salaries and Remuneration Commission's guidelines contained in the relevant Circulars.

Plan No.: KJD/Kajiado South/34/1—Mbrikani Group Ranch Land Use Plan and Subdivision Scheme Plan.

Plan No.: KJD/Kajiado South/034/2—Eselenkei Group Ranch Land Use Plan and Subdivision Scheme Plan

PURSUANT to the provisions of section 49 (1) of the Physical and Land Use Planning Act, 2019, notice is given that preparation of the above-mentioned plans was on 18th May, 2021, completed

The development plans relate to the land situated in Kajiado South within Kajiado County.

Copies of the plans, panning briefs and EIA /ESEA reports have been deposited for public inspection at the office of Kajiado County Director of Physical Planning located in Kajiado Town, Loitotok Sub-County Headquarters and the County Commissioner's office Kajiado.

The copies so deposited are available for inspection free of charge (by all the interested persons) at the above-mentioned address between the hours of 0800 and 1700.

Any interested person(s) who wishes to make any representation in connection with or objection to the above development plans may send such representations in writing to be received by the County Director, Physical Planning, P.O. Box 11-01100, Kajiado, within thirty (30) days of this notice and any such representation or objection shall state the ground on which it is made.

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

THE DRAFT STRATEGIC ENVIRONMENTAL IMPACT
ASSESSMENT STUDY REPORT FOR THE AMBOSELI
ECOSYSTEM MANAGEMENT PLAN (AEMP) KAJIADO
COUNTY

INVITATION OF PUBLIC COMMENTS

IN light of the provisions of section 57 A of the Environmental Management and Co-ordination Act (EMCA), 1999, Regulations 42 and 43 of Environmental (Impact Assessment and Audit) Regulations Legal Notice No. 101 of 2003, the National Environment Management Authority (NEMA) has received a Draft Strategic Environmental and Social Assessment report for the Amboseli Ecosystem Management plan in Kajiado County. The SESA findings are expected to integrate the existing sectoral plans and programs to establish sustainable development mechanisms.

The Amboseli Ecosystem Management Trust is the Plan owner located in Loitotok Sub-County, Kajiado County. The Management plan is a blue print for environment and natural resources management within a specific period of time. The Plan is being subjected to Strategic Environmental and Social Assessment (SESA). The SESA will reinforce the implementation of the Amboseli Ecosystem Management Plan by integrating the agreed land use restrictions to address the potential negative environmental and social impacts. The integration will be undertaken through the gazettment of the Amboseli Ecosystem Management plan SEA and annexation of its recommendation in the umbrella Amboseli Ecosystem SEA controlled by the Amboseli Ecosystem Trust (AET).

A summary of the proposed environmental management and monitoring plan for the Amboseli Ecosystem Management plan is highlighted below. The proposed mitigation strategies are aimed at minimizing the negative impacts while enhancing the positive ones as highlighted below.

Key Environmental and Social Impacts and Mitigation Measures;

Activities and Potential Impact	Nature of Impact	Proposed Mitigation
Impact of establishing grass banks (Olopololi).	Overharvesting and degradation in harvesting areas (-)	Ensure controlled harvesting and carrying out EIA and follow up EA on potential Impacts.
Impact of developing and implementing traditional grazing plans.	Disagreements(-)	Proper engagement of the community for ownership of the program. Carry out an EIA prior to implementation.
Impact of rehabilitating degraded grazing areas.	Lack of grazing plans Potential conflict with community on restricted grazing during rehabilitation.	Develop grazing plans and adhere to them Carry out an EIA prior implementation Enlighten community on potential benefits of rehabilitation.
Impact of increasing water supply for livestock.	Soil erosion and removal of vegetation while laying pipes, potential increase in animal population due to increased water Availability.	Carry out EIAs before laying water pipes and comply with the recommendations, Assign quotas to water use among the community.
Impact of establishing a livestock Disease Free Zone.	Community Disagreements.	Ensure community meetings under competent leadership. Put in place proper dispute resolution.
Impact of securing wildlife dispersal areas and corridors.	Restriction of fencing by land owners and possibility of HWC. Increased loss of pasture for livestock and animals from Predators.	Proper engagement of community for ownership of the process and adequate compensation in cases of injury and loss.
Impact of ban on charcoal trade on poverty reduction.	Loss of livelihood for traders, potential increase in insecurity due to loss of income stream.	Establishment of alternative sources of livelihood by the project.
Impact of restriction of quarrying activities.	Loss of livelihood income by employees and revenue by quarry owners, Loss of supporting businesses due to loss of market.	Training on environmental friendly quarrying and proposal for alternative sources of income for the employees.
Impact of off road driving in the conservancies.	Degradation of the ecosystem, Increased dust and noise pollution and animal disturbance.	Restriction of off road driving to specified areas. Establishment of rotational off road driving to allow for healing.
Impact of development of pasture management and livestock grazing plans.	Restriction of community activities and movement within the AE, potential for increased conflicts due to restricted animal Movement.	Community sensitization on the importance of the proposed program for ownership and reducing conflicts with the project.
Impact of promotion of alternative cooking methods and materials.	Improved ecosystem due to reduced use of wood and charcoal, Loss of revenue stream among charcoal and firewood merchants.	Provision of alternative sources of energy to community through subsidized purchase and alternative sources of revenue for affected traders.
Impact of the establishment of an ecosystem wide consolation fund.	Improved source of livelihood among the local community.	Sourcing of resources from donors and other stakeholders for sustainability of the fund.
Impact of creating awareness on HWC	Reduced HWC	Continued community engagement for

<i>Activities and Potential Impact</i>	<i>Nature of Impact</i>	<i>Proposed Mitigation</i>
mitigation strategies among the community		sustainable reduction in HWC.
Impact of strengthening community wildlife scouts.	Probability of harassment of the local community.	Proper training of the scouts on civil engagement with the community and proper handling of those in the wrong.
Impact of water allocation enforcement.	Reduced availability of water for farming and likely water conflicts among users.	Proper engagement and sensitization of the affected users prior to enforcement.
Impact of establishment of a ground water monitoring network.	better management of the ground water and reduced depletion rate.	Education on sustainable ground water harvesting and storage.
Impact of training on rainwater harvesting technologies.	Increased availability of water for domestic use and reduced pressure on existing sources.	Sustainable rain water harvesting and safe storage measures.
Impact of securing critical water sources.	Better management of the sources and reduced accidents.	Establishment of Proper guidelines on management of critical water sources.
Impact of implementation of water pollution control.	Conflict with the farmers.	Sensitization of the farmers and community in general on the advantages of reduced water pollution.

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has

received an Environmental Impact Assessment Study Report for the above-proposed project.

The proponent, Wema Magharibi Limited proposes to develop a residential apartments consisting of 5 blocks (block 01, 02, 03, 04, 05), with a total of 120 No. Units. Block 01 will have 5 floors (2 No. units 1-bedroom, 10 No. units 2-bedroom and 8 No. units 3-bedroom) totaling to 20 units. Block 02 will consists of 5 floors (10 No. units 2-bedroom, 10 No. units 3-bedroom) totaling to 20 units. Block 03 will have 5 floors (10 No. units 2-bedroom, 10 No. units 3-bedroom) totaling to 20 units, Block 04 will have 5 floors (10 No. units 2-bedroom, 10 No. units 3-bedroom) totaling to 20 units, Block 05 will have 5 floors (5 No. units 1-bedroom, 10 No. units 2-bedroom, 5 No. units 3-bedroom) totaling to 20 units, Block 06 will have 5 floors (15 No. units 2-bedroom, 5 No. units 3-bedroom) totaling to 20 units, club house, bio-digester sewer treatment and recycling, machine and generator house, associated facilities and amenities on plot No. Kisumu/Dago /5400, West Kisumu Ward, Kisumu West Sub-County, Kisumu County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Mitigation Measures

Impacts

- | | |
|--|---|
| Noise and excessive vibration | <ul style="list-style-type: none"> Use modern equipment, which produces the least noise. Any unavoidably noisy equipment should be identified and located in an area where it has least impact. Notify the public of construction activities that may be perceived as noisy and intrusive prior to starting construction. Ensure that noise and excessive vibration from construction activities are within permissible levels as per the provision of the Environmental Management and Co-ordination (Noise and Excessive Vibration Pollution) (Control) Regulations, 2009. This includes among others adhering to permissible noise and vibration level. |
| Air pollution | <ul style="list-style-type: none"> Construction equipment will be maintained in good operating condition to reduce exhaust emissions. Construction sites, transportation routes, diversions and materials handling sites to be water-sprayed. All diesel fuel in use should be ultra-low sulphur diesel. |
| Soil and water pollution | <ul style="list-style-type: none"> Prevent the washing away of construction materials, soil, silt or debris into any drainage system. Oil products and materials should be stored in site stores or in the contractor's yard. Channel all the waste water into the onsite Waste Water Treatment plant for treatment. |
| Increased solid waste. | <ul style="list-style-type: none"> Segregate waste onsite. Ensure that waste is disposed of according to EMCA (Waste Management) Regulations, 2006. Contracted waste handlers should be licensed to transport and dispose waste. |
| Traffic snarl up along adjoining roads | <ul style="list-style-type: none"> Warning signs should be used as appropriate to provide notice of road hazards. Temporary manual traffic control should be used when construction vehicles are entering and leaving the site. |
| Increased safety and health risks | <ul style="list-style-type: none"> Supervision of works shall be done regularly to ensure that safety conditions are met while any deviation from safety regulations is immediately reclaimed following the best practices regarding safety at work. |

*Environmental Mitigation Measures
Impacts*

- Provide full first aid kits at the construction yard.
- Containment of hazardous materials.
- Waste water generation
 - The effluent being discharged to the sewer line should conform to the limits as provided for under Environmental Management Co-ordination (Water Quality) Regulations, 2006; Standards for effluent discharge into public sewers-Schedule five.
 - Ensure that sewerage discharge pipes are not blocked or damaged.
- Increased surface/ storm runoff generation
 - Ensure that no surface wastewater is directed into the sewer system to avoid overloading the sewerage system.
- Increased water demand
 - Any water abstractions in future should be as per the Water Resources Management Authority (WRMA) permit.
 - Conduct an EIA for the proposed borehole and acquire a WRMA permit to abstract water.
 - Maintenance of proper pressure within fire water systems to limit water use.

THE DRAFT STRATEGIC ENVIRONMENTAL AND SOCIAL
ASSESSMENT (SESA) REPORT FOR THE OLGULULUI
OLOLORASHI GROUP RANCH (OGR) LAND USE AND SUB-
DIVISION PLAN, KAJIADO SOUTH SUB-COUNTY, KAJIADO
COUNTY

INVITATION OF PUBLIC COMMENTS

IN light of the provisions of section 57 A of the Environmental Management and Co-ordination Act (EMCA), 1999, Regulations 42 and 43 of Environmental (Impact Assessment and Audit) Regulations Legal Notice No. 101 of 2003, the National Environment Management Authority (NEMA) has received a Draft Strategic Environmental and Social Assessment report for the Olgulului Olorashi Group Ranch (OGR) land use and sub-division plan in Kajiado County. The SESA findings are expected to integrate the existing sectoral plans and programs to establish sustainable development mechanisms.

The Olgulului Olorashi Group Ranch is the Plan owner, intends to undertake land use and land subdivision within the group ranch located in Loitokitok Sub-County and adjacent to Amboseli National Park towards the Kenya Tanzania Border, Kajiado County. The land

use and subdivision master plan has three broad programs namely livelihood, settlement and conservation and it aims at reducing the human-wildlife conflicts through active interventions that maintain and protect the ecosystem. The following land use zones have been proposed within the OGR:

- (a) Conservation and Tourism use zone;
- (b) Pastoralism and wildlife use zone;
- (c) Cultivation and development use zone;

The SESA will reinforce the implementation of the Olgulului Olorashi Group ranch land use and subdivision Plan by integrating the agreed land use restrictions to address the potential negative environmental and social impacts of land subdivision within the group ranch.

A summary of the proposed environmental management and monitoring plan for the Olgulului Olorashi Group ranch land use and subdivision Master Plan is highlighted below. The proposed mitigation strategies are aimed at minimizing the negative impacts while enhancing the positive ones.

Key Environmental and Social Impacts and Mitigation Measures:

Issues	Anticipated impact	Recommended Mitigation Measures.
Overstocking	Overgrazing.	Promote and enforce grazing plans.
Human wildlife conflict	Grazing in conservation areas.	Enforce provision of subdivision schemes on land allocation.
Establishment of manyattas	Illegal settlements.	No permanent manyattas in grazing areas.
Fencing	Creating barriers for animals and wildlife.	No fencing in grazing areas and settlements
Blocking of wildlife corridors	Human wildlife conflicts.	Provide for connectivity and free movement of animals and wildlife.
Grazing in conservation areas	Transmission of diseases from wildlife to animals.	Ensure livestock are kept in designated areas out of conservation areas. Provide signage for grazers to understand.
Non adherence to settlement plans	Mushrooming of unplanned houses and tented camps.	Stick to settlement scheme plan and develop standard for the same.
Selling of land	Disenfranchisement of locals.	No land subdivision
Population growth	Congestion, proliferation of wildlife and social crimes.	Establishment of police posts in centers and security committees.
Clearing of trees	Wind and soil erosion flush floods and flooding of conservation areas.	Practice agroforestry Creation of gully's.
Non maintenance of fence	Human wildlife conflict.	Training of community scouts to take over the fence. Enhance community ownership of the fence to ensure sustainability.
Proliferation of roads non designated areas	Off road driving soil erosion.	Ensure only designated roads are used.

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above-proposed project.

The proponent, Ministry of Water, Sanitation and Irrigation is proposing to expand the Anyiko Ujwanga Kathieno Irrigation Project. The proposed project will comprise of irrigation area covering 934 ha, 5No. irrigation blocks, 1No. headworks (40m wide, 2.5m high), 1No. sedimentation basin (13m long, 2m wide and 1.5m high), 1No. main canal (14.5km), 1No. secondary canal (7.1km), 6No. tertiary canals (6.6km), 28No. field canals (23km), 13No. field drains (11km), 23.6km of service and access roads. The project straddles 19 villages, 3 Sub-Locations (Kathieno C, Kathieno B and Sihayi) and will be implemented in Sihayi Location, Ugenya Sub-County, Siaya County.

The following are the anticipated impacts and proposed mitigation measures:

*Environmental Mitigation Measures
Impacts*

Land degradation/ soil erosion	<ul style="list-style-type: none"> • Compaction of soil to minimise erosion from wind and water. • Planting of grass and trees and allowing natural vegetation to grow. • Rehabilitation of burrow pits used to obtain construction materials.
Water pollution	<ul style="list-style-type: none"> • Train farmers on proper agrochemical use, handling and disposal. • Encourage farmers to use manure instead of fertilizer. • Each farmer should leave 30m buffer to the river as required by NEMA, WRA and they should plant trees in addition to crops for daily consumption. • Water quality monitoring should be carried out on quarterly basis.
Air pollution	<ul style="list-style-type: none"> • Vehicles transporting the building materials should be covered. • Vehicles and machineries used should be regularly maintained and serviced to prevent exhaust emissions. • Provision of dust masks to workers. • Dropping heights of materials to be minimized. • Maximize the use of manual labour and hand tools.

*Environmental Mitigation Measures
Impacts*

	<ul style="list-style-type: none"> • Avoid spillage of loose soil to the road where it will be disturbed and blown away by traffic. • Sensitize drivers to avoid off road driving.
Biodiversity loss	<ul style="list-style-type: none"> • Vegetate the area after construction. • The contractor should concentrate only on the area they are constructing the canals the rest of vegetation should not be cleared. • Vegetation can be trimmed instead of removing them completely.
Noise pollution	<ul style="list-style-type: none"> • Workers should be given noise protection equipment. • Guarding of machinery to minimize noise. • Working will be restricted to day time only. • Observe and practice the recommended noise regulations.
Occupational health and safety	<ul style="list-style-type: none"> • There should be a comprehensive Health and safety policy to safeguard the health of the workers. • There should be compliance with all health and safety standards in place. • All workers should be provided with full protective gear and there should be a proper use of PPEs. • There should be proper hoarding of the site to control the movement of the public into the area. • Establish an assembly area for all workers in case of an accident and maintain a record of all works at the site at each particular time. • Fully equipped first aid kits handled by a qualified supervisor should be provided at the site. • The contractor should have insurance cover for the workers. • Clean sanitary facilities and clean drinking water should be provided at the site. • Lunch breaks will be provided; food is set to be served at the site. • Warning signs should be strategically erected. • Risky areas such as deep pits should be covered or fenced off to avoid accidents.
Sedimentation of the river beds	<ul style="list-style-type: none"> • Frequent de-silting the intake and irrigation canals during operation. • Filling up excavated trenches and burrow pits after contraction works. • Have an embankment upstream of the intake weir.
Solid waste	<ul style="list-style-type: none"> • Inspection during loading and unloading procedures to avoid waste loss. • A concrete washing area will be set aside for concrete trucks, to avoid the build-up of waste concrete in site areas. • All waste will be sorted and managed as appropriate, either for reuse, recycling or disposal.

The full report of the proposed project is available for inspection during working hours at:

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above-proposed project.

The proponent, Sintoil Limited intends to install a used oil recycling plant within an existing Go Down No. A14, this will involve installations of used oil storage tanks and the used oil recycling plant, finished products storage area, offices, washrooms and other auxiliary installations. The project will be located Siana Go Down Complex on plot L.R. No. 1713/244 Ruiru Sub-county, Kiambu County.

The following are the anticipated impacts and proposed mitigation measures:

Environmental Mitigation Measures Impacts

Solid waste generation	<ul style="list-style-type: none"> A NEMA licensed handler shall be contracted to handle solid waste that will be generated by office workers as well as the material remains. Provision of adequate collection bins on site should be properly labelled. Sensitize workers on proper waste management.
Noise impacts	<ul style="list-style-type: none"> Delivery of materials be done during the day when noise levels are acceptably high. Provision of personal protective equipment such as earmuffs for workers in noisy conditions or those handling noisy equipment. Set up suitable barriers that control and reduce the noise levels. Sensitize the workers to avoid hooting unnecessarily especially near sensitive areas such as churches, hospitals and schools.
Water use and management	<ul style="list-style-type: none"> Recycle and repurpose used water as frequent as possible. Use of roof catchments to collect rain water for general purposes. Repair tank leaks and damaged water pipes timely. Incorporate water conservation techniques and use only required amounts to minimize wastage.
Effluent generation	<ul style="list-style-type: none"> Ensure the sewer system is properly functional and malfunctions are adequately addressed.

Environmental Mitigation Measures Impacts

	<ul style="list-style-type: none"> Regular monitoring of sewage discharge. Plumbing and fittings should be done properly in order to operate adequately with no spillages and blockages. Conduct regular inspections. Contract a NEMA licensed waste handler to handle effluent discharge.
Occupational health and safety hazards	<ul style="list-style-type: none"> Provide appropriate PPEs for facility workers especially those handling hazardous materials and promptly replace or repair worn-out equipment. Install Precautionary signage to guide workers and visitors around the facility to prevent accidents. Workers are to be trained in first aid and a kit should be provided at the facility. Provision of firefighting equipment as well as training and regular fire drills to be conducted frequently. Service equipment regularly. Provide adequate storage of hazardous materials and ensure restricted access to these areas. Delineate fire and emergency assembly points and create awareness on the same. Secure moving parts and sharp surfaces of machines to prevent injuries. Regularly perform maintenance and servicing of machines and equipment.
Air emissions/pollution	<ul style="list-style-type: none"> Secure the site with dust screens. Sprinkle water on dusty surfaces. Conduct air quality monitoring regularly and keep meticulous records. Installation of air emissions extractors and scrubbers in the exhaust of motor vehicles and generators to filter out toxic fumes. The production area should be ventilated adequately. Avoid burning of waste that can release harmful pollutants on site. Use efficient machines and equipment that emit less pollutants. Comply with the set regulations and standards. Install gas detectors to timely be aware of gas leaks.
Emergence of environmental concerns	<ul style="list-style-type: none"> Annual environmental audits to be undertaken after commencement of operation as required by law. Proper handling of oil to prevent spills.
Traffic management measures	<ul style="list-style-type: none"> Employ traffic management measures such as enforcing set speed limits. Comply with the policy regulations. Ensure adequate parking spaces for delivery vehicles.
Social-cultural impacts	<ul style="list-style-type: none"> Promote equal opportunities for the general public. Raise awareness on the importance of social responsibility on environmental management. Raise awareness on diversity of cultures and economic backgrounds of the people involved in

*Environmental Mitigation Measures

- the project through sensitization efforts.
- Develop and implement a corporate social responsibility plan that includes community projects.
- Scraps and other debris
- Donate viable machines and equipment to schools or institutions for use.
 - Use of an integrated solid waste management system i.e. through a hierarchy of options.
 - Wastes generated as a result of facility decommissioning activities will be characterized in compliance with standard waste management procedures. Disposal locations will be selected by the contractor based on the properties of the particular waste stream.
 - All buildings, machinery, equipment, structures and tools that will not be used for other purposes should be removed and recycled/ reused say in other projects.
 - Where recycling/reuse of the machinery, equipment, implements, structures, tools and other waste is not possible, then proper disposal should be ensured.
- Occupational hazards
- Ensure safety measures have been integrated effectively to prevent the occurrence of fire outbreaks.
 - Protect hazardous areas and only allow handling of such areas by licensed and competent individuals.
 - Appropriate storage of contaminated material.
 - Characterization of waste generated as a result of the decommissioning process and proper disposal should be ensured.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED INSTALLATION OF AFRICA 1
SUBMARINE FIBRE OPTIC CABLE IN KENYA TERRITORIAL
WATERS UP TO THE KENYA BEACH MANHOLE IN NYALI,
MOMBASA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Telkom Kenya Limited intends to install a submarine cable in the Indian Ocean waters within the Kenyan territorial waters which will entail installation of submarine cable totaling to 475.363kms in Kenyan waters and 501.694kms in Yemen EEZ waters. The 35.99mm diameter cable will be installed from the Kenyan Exclusive Economic Zone (EEZ) to Nyali Beach and expected to traverse along the Mombasa Marine Reserve. The terrestrial component will consist of the portion of stretch of land approximately 70m from the intertidal zone to the beach manhole (BMH) which will be accessible via Nyali Link Road–Oleander Drive–Moyné Drive, Nyali, Mombasa County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation/Management Measures</i>
Aquatic habitat alteration	<ul style="list-style-type: none"> • Locating and siting cable routes and shore access, to avoid critical marine habitats, such as coral reefs and breeding grounds. • Monitoring cable laying path for presence of marine mammals. • Avoiding laying of submarine cable during fish and marine mammals breeding periods, calving periods and spawning seasons. • Marine vessels will be required to adhere to International Maritime Organization (IMO) regulations on bilge and ballast water discharge to avoid tentional introduction of non-native species to the marine environment. • Ensure requisite measures are adopted to avoid incursion into areas adjacent to the work site or any secondary effects from pollution, sedimentation, or accidental spills. • Select suitable burial techniques to minimise disturbance effects of benthic species and habitats and the release of contaminants.
Hazardous materials and waste	<ul style="list-style-type: none"> • Hazardous waste should be stored on board the vessel until it can be disposed at a suitably equipped port and through a NEMA licensed waste handler, respecting the requirements of the Basel Convention on Transboundary Shipment of Hazardous Wastes. • Ensure new support equipment does not contain polychlorinated biphenyls (PCBs) or Ozone Depleting Substances (ODSs). Polychlorinated biphenyls (PCBs) from old equipment should be managed as a hazardous waste. • Purchasing electronic equipment that meets international phase out requirements for hazardous materials contents and implementing procedures for the management of waste.
Air pollution	<ul style="list-style-type: none"> • Project's cable laying vessels to operate in line with MARPOL 73/78 requirements. Annex VI on Prevention of air pollution from ships. • Contractors to operate only well-maintained engines. • Routine wetting program of all unpaved surfaces including roads and construction areas to suppress dust generation.
Noise pollution	<ul style="list-style-type: none"> • Use of equipment and vehicles that are in good working order, well maintained and have noise suppression.

<i>Impact</i>	<i>Mitigation/Management Measures</i>
	<ul style="list-style-type: none"> Implementation of best driving practices when approaching and leaving the site to minimize noise emissions.
Occupational and health and safety (OHS) – optical fiber safety	<ul style="list-style-type: none"> Restrict access to the work area, placing warning signs and labelling of areas with potential for exposure to laser radiation and providing adequate background lighting to account for loss of visibility with the use of protective eyewear. NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED GREATWALL II GARDEN 6 RESIDENTIAL DEVELOPMENT ON PLOT L.R. NOS. 12581/7 AND 12581/8 ATHI RIVER, MACHAKOS COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Erdemann Property Limited proposes to develop residential apartments consisting of 25 blocks each fifteen storey with a total of 3,000 three bedroom units, 108 No. of shops, 1725 parking spaces, transformer house, boundary wall, children play area, associated facilities and amenities on plot L.R. Nos. 12581/7 and 12581/8 Athi River, Machakos County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impact</i>	<i>Mitigation Measures</i>
Air pollution	<ul style="list-style-type: none"> Use of dust screens to minimize air pollution to adjacent users. All personnel working on the project will be trained prior to starting construction on methods of minimizing air pollution. Workers shall be provided with proper PPE, such as dust masks. All machinery and equipment shall be maintained in good working condition in order to minimize emissions to acceptable standards. No burning of materials shall be permitted at the project site. Frequent watering of the access road to minimize dust.
Noise pollution	<ul style="list-style-type: none"> Use quiet equipment (i.e., equipment designed with noise control elements). Sensitize construction drivers to avoid hooting, especially when passing through sensitive areas such as churches, offices, hospitals, residential houses and schools. Conduct periodic noise measuring and monitoring to determine levels and to persons operating within or visiting identified high noise areas. Restrict noisy construction activities to the NCA/NEMA recommended working hours.
Health and safety	<ul style="list-style-type: none"> Employ skilled and trained workers. Have adequate worker insurance cover. Provide sanitation facilities and clean drinking water on site. Enforce occupational health and safety standards.
Generation of solid waste	<ul style="list-style-type: none"> There will be adequate collection and storage of waste on-site, safe transportation to and disposal methods at designated areas by a licensed contractor. The contractor shall prepare a site waste management plan prior to the commencement of construction activities. All persons involved in refuse collection shall be in appropriate protective gear. Use of an integrated solid waste management system, i.e., through a hierarchy of options 1) Reduction 2) Recycling 3) Re-use 4) Land filling. Ensure no littering of the open spaces. Waste to be collected regularly to control air pollution and vermin/insects etc. Encourage waste separation at the generation points. Provide a garbage chute protected from rain and animals.
Generation of liquid waste	<ul style="list-style-type: none"> Ensure Regular checks of the waste water treatment reticulation system to ensure it's in proper working condition.

<i>Impact</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> • Provide a site toilet during construction. • Conduct regular inspection of the waste water pipes and repair blockages or damages appropriately • Ensure regular monitoring of the waste water reticulation system. • All waste pipes should be accessible from outside and free at every part of the system for inspection, cleaning and repair. • Discharge waste water to the Mavoko water and Sewerage treatment system.
Traffic congestion	<ul style="list-style-type: none"> • Provide adequate on-site parking dedicated for construction site personnel and heavy vehicles. • All deliveries and collections to and from the site shall be staggered and restricted to off-peak traffic hours to prevent obstruction of other road users. • Traffic speeds for construction and other vehicles coming to and from the project site shall be restricted to 20 mph to ensure pedestrian safety. • Signage to identify the construction site shall be erected at the site's entry point. • Repair any roads damaged during the construction phase. • Provision of designated entry and exit points. • Carry out a Traffic Impact Assessment.
Increased demand on water and energy	<ul style="list-style-type: none"> • Management and monitoring of water usage. • Explore renewable sources of energy such as solar energy. • Repair all leaking taps and valves. • Maximize on natural lighting to reduce the use of artificial lighting. • Install energy-saving bulbs at all lighting points. • Provide an automatic generator to cushion against power outages. • Explore alternative sources of water such as harvesting storm water and recycling. • The proposed borehole shall be constructed according to the approved specifications and standards.
Increased surface runoff water	<ul style="list-style-type: none"> • Planting of trees and grass on site after completion of construction activities to reduce the speed of runoff and increase water retention capacity of the soil. • Regular maintenance of the storm water drains to ensure they are in good working condition.
Fire risk	<ul style="list-style-type: none"> • Adhere to the provisions of the building code regarding fire safety. • Ensure all fire-fighting equipment is in proper working condition and conduct regular audits. • Ensure all fire exits have clear and visible signage. • Display Emergency Response Procedures at visible areas within the development. • Conduct regular fire drills.
Oil leaks and spills	<ul style="list-style-type: none"> • Ensure no spillage occurs by servicing machinery and construction vehicles regularly. • Prepare and display spill response procedures at the site.

<i>Impact</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> • Training of workers on spill response procedures and management. • In case of spillage the contractor shall isolate the source of oil spill and contain the spillage using sandbags, sawdust, absorbent material and/or other materials approved by the Project Manager. • Fats and oil interceptors must be installed along the drainage channels leading from the kitchen and car parks.

The full report of the proposed project is available for inspection during working hours at:

- (a) Principal Secretary, Ministry of Environment and Forestry, NHIF Building, 12th Floor, Ragati Road, Upper Hill, P.O. Box 30126-00100, Nairobi.

THE ENVIRONMENTAL MANAGEMENT AND CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED WASTE TYRE PYROLYSIS PLANT ON PLOT L.R. NO. KWALE /SAMBURU/SOUTH SAMBURU – GORA, KWALE COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Masani Eco Green Limited proposes to install, construct and operate a 30-tonne per day waste tyre pyrolysis plant consisting of reactor still container, separation system, condensation unit, air compression unit, gear pumping, turbo pumping, oil filtration device and control, other associated facilities and amenities. The project is located along the Nairobi – Mombasa Highway on Plot L.R. No. Kwale /Samburu/South Samburu –Gora, Kwale County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Possible Impacts</i>	<i>Possible Mitigation Measures</i>
Extraction of raw material	<ul style="list-style-type: none"> • Ensure that damage or loss of material at construction site is kept minimal through proper storage. • All construction materials should be from approved sources; for example, hard stone for building should be obtained from NEMA licensed sites.
Removal/ clearing of vegetation	<ul style="list-style-type: none"> • Proper demarcation and delineation of the project site to be affected by construction work.

<i>Possible Impacts</i>	<i>Possible Mitigation Measures</i>
	<ul style="list-style-type: none"> Designate access route within the site. Design and implement an appropriate landscaping program to help in re-vegetation of part of the project site after construction.
Sewage and effluent	<ul style="list-style-type: none"> Provide adequate sanitary facilities for workers. Provide solid waste receptacles and storage containers, particularly for the disposal of plastic bags boxes, so as not to block drainage system and to prevent littering of the site.
Dust emission from movement of transportation vehicles at the site and on the road	<ul style="list-style-type: none"> Sprinkle water on graded access routes each day to reduce dust generation by construction vehicles. Controlling the speed of vehicles on the site. Spiro metric examination on exposed workers at prescribed interval of time.
Utilization of fossil fuel by fuel consuming machineries.	<ul style="list-style-type: none"> Ensure proper planning of transportation of materials to ensure that vehicle fills are increased in order to reduce the number of trips done per vehicle or the number of vehicles on the road. Prompt servicing of vehicles engines. Use of unleaded and low sulphur fuel. Monitor energy use during construction and set target for reduction of energy use.
Noise and vibration	<ul style="list-style-type: none"> Ensure that all heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. Measure to ensure that noise levels does not exceed 75dB(A).
Water consumption	<ul style="list-style-type: none"> Prompt reuse and recycling of water as much as possible where necessary. Monitor water consumption and utilization. Sensitize construction workers on the importance of proper water management.
Incident, accidents, and dangerous occurrences	<ul style="list-style-type: none"> Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place.
Personal protective gears	<ul style="list-style-type: none"> Suitable overalls, safety footwear, dust masks, gas masks, respirators, gloves, ear protection equipment etc. should be made available and construction personnel must be trained on their use.
Storage of materials	<ul style="list-style-type: none"> Ensure that materials are stored or stacked in such manner as to ensure their stability and prevent any fall or collapse.
Safety and security	<ul style="list-style-type: none"> Develop a site safety action plan detailing safety equipment to be used, emergency procedures, restrictions on site, frequency and personnel responsible for safety inspections and controls. All workmen should be provided with personal protective equipment (e.g. nose masks, ear muffs, helmets, overalls, industrial boots, etc.).
Fire hazards	<ul style="list-style-type: none"> Provide adequate number of appropriate fire fighting equipment as well as fire exit options. Ensure inspection and maintenance of fire equipment. A fire escape route and an emergency assembly point should be clearly indicated.

<i>Possible Impacts</i>	<i>Possible Mitigation Measures</i>
Waste generation	<ul style="list-style-type: none"> Carbon black and steel wire by products will be sold as raw materials in other industries. Process water will be recycled back to the process. The domestic wastewater will be channeled to the septic tank and soak pit. General waste must be removed from site by a licensed contractor.
Air pollution	<ul style="list-style-type: none"> The equipment and machines will be installed by professional engineers and will be fitted with a complete antipollution system. This will include a wet scrubber to remove particulates and system sprinkled with calcium hydroxide to remove Sulphur Oxides. The system will be fitted with deodorization machine to extract sulphur hydroxide that cause bad odour.
Accidents and injuries	<ul style="list-style-type: none"> All plant, machinery and equipment should only be used for work which they are designed for and be operated by a competent person. Insist on regular servicing of electrical fittings and appliances by qualified personnel. Every machine intended to be driven by mechanical or any other type of power should be provided with safeguards and an efficient starting and stopping appliance, the control of which should be in such a position as to be readily and conveniently operated by the person operating the machine.
Demolition activity	<ul style="list-style-type: none"> Develop a decommissioning EIA plan.

The full report of the proposed project is available for inspection during working hours at:

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE HUMAN RESOURCE POLICIES AND PROCEDURES MANUAL FOR THE PUBLIC SERVICE —

Kenya Gazette

A.30 (1) All communication for publication in the *Kenya Gazette* should reach the Government Printer not later than Friday of the week before publication is desired.

(2) A State Department will be required to meet the cost of advertising in the *Kenya Gazette*.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
