Anderson W. Kariuki, Director of Audit, KENAO, Nominated by the Kenya National Audit Office—(*Ex officio member*)
Violet Oyangi (Ms.)—(*Secretary*)

The Chairman and other members of the committee shall, prior to embarking on their duties, subscribe to the declaration prescribed in the Schedule.

The terms of reference of the committee shall be to.

- (a) Scrutinize and analyze all existing stock of Nairobi City county government pending bills, as of the 31st June, 2013, with a view to making appropriate recommendations to the county treasury for payment or otherwise.
- (b) Develop a clear procedure and criteria for dealing with existing county government pending bills.
- (c) Identify cases where there may have been corrupt, fraudulent and false claims against the county government and make appropriate recommendation to the relevant government/State departments.
- (d) Prepare a payment priority list of all cleared payments taking into account the need for equitable treatment of the creditors and of the cash-flow realities of the county government.
- (e) Develop a system to ensure that future escalation of pending bills within the county government is avoided.
- (f) Identify cases where Government officials may have facilitated or abetted unjustified claims against the Government and make appropriate recommendations for action by the relevant Government departments, and
- (g) Perform any other function incidental to the foregoing.

In the performance of its functions the committee—

- (a) shall hold such number of meetings at such places and such times as the committee shall consider necessary for the proper discharge of its mandate;
- (b) may consult with the Governor on any matter within its mandate;
- (c) shall have access to reports of any previous investigations relevant to its mandate;
- (d) shall, as it considers appropriate, carry out or cause to be carried out such studies or research as may inform the committee on its mandate;
- (e) may submit monthly progress reports to the Governor; and
- (f) subject to the foregoing, the shall have all the independence necessary for carrying out its function or expedient for the proper execution of its mandate, including the power to regulate its own procedure without being the subject of control by any other authority.

The Committee shall—

- (a) within three (3) months, after scrutiny and analysis of the county government's stock of pending bills, (or such longer

period that the Governor may authorize) submit to the Governor a report recommending to the Treasury settlement or otherwise of the pending bills.

- (b) within six (6) months submit to the Governor a final report detailing a system geared towards ensuring that future escalation of pending bills within the county government is avoided and on the streamlining of the procurement processes within the county government;
- (c) in the report referred to in paragraph (b) identify cases where public officials may have facilitated or abetted unjustified claims against the Nairobi City Council/ Nairobi City County and make appropriate recommendations for action by the relevant Government/State Departments.
- (d) submit as appropriate, interim reports to the Governor as the committee may find fit and necessary or as the need arises and
- (e) in consultation with the Governor, have the power to co-opt or to appoint committees as it deems fit only for specialized aspects of its terms of reference.

The Secretariat of the Committee—

The Secretariat of the Committee shall be based at the County Treasury, City Hall Building, Nairobi and shall be responsible to the committee for—

- (a) providing appropriate background briefing to the Committee;
- (b) preparing the Committee's reports and disseminating any information deemed relevant to the Committee, and
- (c) undertaking research and liaising with the relevant national and Nairobi City County government departments and any other institution in order to gather relevant information necessary for informing the Committee.

(Cap. 299)

KENYA LAND SURVEYORS' BOARD EXAMINATIONS

FINAL PART II (B)—LAND LAW EXAMINATIONS, 2013

THE ABOVE-mentioned examination will be held at Kenya Institute of Surveying and Mapping (KISM) within Survey Field Headquarters, Ruaraka, in Nairobi on Monday, 2nd December, 2013.

All eligible candidates who wish to take the examination are asked to apply to the Secretary, Land Surveyors' Board, P.O. Box 30046-00100-Nairobi, so as to reach him not later than Thursday, 15th November, 2013.

Eligibility in this case applies to candidates in accordance with section 11 of the Survey Act (Cap. 299), together with those who have passed the Final Part I of the East African Land Survey Examination (CLS) or would be exempted therefrom (proof of pass or exemption is required).

The examination fee of KSh. 5,000 payable by either depositing cash into Land Surveyors Board Account No 01001032446400, National Bank of Kenya, Hill Branch, Nairobi or Bankers Cheque, drawn in favour of the Land Surveyors' Board, must accompany each application:

Please note that the above fee is payable for all categories of candidates, whether a first attempt or a re-sit.

Form 'A' of the Third Schedule of the Survey Act shall not be necessary.

Candidates are advised to purchase bound copies of past land law examination papers with respective model answers from the secretary.

Dated the 30th October, 2013.

PETER K. WANYOIKE,

Secretary, Land Surveyors' Board.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED KINGS PETROLEUM PETROL STATION ON RAILWAYS LAND PLOT NO. 697 IN JOMVU, MIKINDANI AREA, MOMBASA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kings Petroleum Filling Station) is proposing to construct a petrol Service Station and associated facilities. The petrol station will consist of, 2 pumps, 2 Underground petroleum storage tanks (USTs), Oil Interceptor, Office and Store, Changing and Wash Rooms, Associated piping work.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
Changes in hydrology/impended drainage	<ul style="list-style-type: none"> • Proper Installation of drainage structures. • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • Regular checks on any sludge along drainage channels. • Visual checks of oil interceptor and drainage channels for any leakage.
Soil erosion	<ul style="list-style-type: none"> • Control any earthworks. • Rehabilitate degraded environment to avoid siltation and wash offs.

	<ul style="list-style-type: none"> • Compact loose soils. • Landscaping. • Ensure management of excavation activities. • Control activities especially during rainy conditions. • Provide soil erosion control and conservation structures where necessary. • Proper disposal of excavated soil. • Prohibit idling of vehicles. • Water should be sprayed during the construction phase of excavated areas. • Regular maintenance of machinery and equipment. • Engage sensitive construction workers. • Proper use of PPE.
Air pollution through dust and gaseous emissions	
Noise pollution	<ul style="list-style-type: none"> • Maintain machines and other equipment • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high-level noise to wear safety gear • Appropriate selection of machinery.
Oil pollution	<ul style="list-style-type: none"> • Proper storage, handling and disposal of new oil and used oil and related wastes. • Maintain machines and equipment to avoid leaks. • Provide oil interceptors along the drains leading from forecourt area.
Water resource	<ul style="list-style-type: none"> • Management of water usage. • Recycling of water at the construction phase where possible • Use of water conservation signs at the wash rooms and install water conserving taps.
Road safety	<ul style="list-style-type: none"> • Enforce speed limits for construction vehicles • Provide bill boards at the site/entrance to notify motorists about the development.
Occupational, public safety and health	<ul style="list-style-type: none"> • Ensure proper solid waste disposal and collection facilities. • Ensure effective waste water management. • Proper design of sewerage system. • Provide First Aid kits on the site. • Sensitize residents/workers on environmental management. • Ensure there is no ponding to eliminate breeding of mosquitoes • Train workers on occupational health & safety and first Aid administration. • Train staff on petroleum handling. • Sensitize workers on HIV and AIDS.
Vegetation	<ul style="list-style-type: none"> • Landscaping and planting all unpaved areas. • Planting flowers / grassing should be done just before the rains or irrigated on dry spells.
Fire outbreak	<ul style="list-style-type: none"> • Install fire-fighting equipment as provided by OSH Act. • Sensitize the residents on fire risks i.e. conduct regular fire drills. • Adapt effective emergency response plans

Water/waste management	<ul style="list-style-type: none"> • Provide emergency numbers at strategic points. • Follow NEMA regulations. • Ensure registration of contracted garbage handlers with NEMA for compliance.
Security	<ul style="list-style-type: none"> • Provide security guards and facilities • Security guards should always be available to alleviate cases of robbery.

The full report of the proposed project is available for inspection during working hours at:

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED PETROL SERVICE STATION ON PLOT L.R. NO. KJD/KAPUTIEI NORTH/57039, AT ISINYA, KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Joseph Ngotiek) is proposing to construct a petrol service Station with four pump isles, two underground petroleum storage tanks (UPSTs), a heavy duty covered man hole for each of the UPSTs, a Mini market, a Fast food restaurant, a Car wash open to sky, an Oil Interceptor, an acceleration section on Namanga Road, air and water point, an office section, sanitary facilities, a septic tank, a soak pit, associated piping work and a Compressor Generator Room.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

<i>Impact</i>	<i>Proposed Mitigation Measures</i>
Soil erosion	<ul style="list-style-type: none"> • Extent of vegetation removal shall be minimized to prevent extent of soil erosion. • Soil erosion management measures will be put in place.
Noise generation	<ul style="list-style-type: none"> • Enforcing use of PPEs • Use of noise abatements and appropriate advanced silencers and acoustic barriers. • Limiting speed on site.
Waste water management	<ul style="list-style-type: none"> • Use of Riflo treatment system to manage sewerage wastes. • Installing of waste oil/grease interceptors. • Channeling storm water to existing waterways.

- Air pollution
 - Sprinkling water to settle dust particles
 - Enforcing use of PPEs.
 - Limiting on-site speed limits.
- Occupational health and safety
 - Train workers on personal safety and disaster preparedness/fire safety .
 - Maintain a first aid kit.
 - Report any incidences and treat.
 - Provide suitable sanitary.
 - Conduct Annual Health and Safety audits.
- Solid waste management
 - Disposal of excavated material and other wastes by licensed waste handlers/ appropriately according to applicable by-laws.
 - Adopting recycling and re-use mechanism.
 - Ensuring proper solid waste management mechanisms.

The full report of the proposed project is available for inspection during working hours at:

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Moses Parantai Shukuru) is proposing to construct a petrol service Station with three pumps, 4 underground tanks (2 petrol with 20,000 Litres capacity, 1 diesel with 10,000 Litres capacity and 1 kerosene with 5,000 Litres capacity). There is also going to be a car washing machine and a convenient store at the filling station.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

- | <i>Impact</i> | <i>Proposed Mitigation Measures</i> |
|--------------------------------|--|
| Removal of vegetation cover | <ul style="list-style-type: none"> • Restriction of de-vegetation to project site only. • Use of defined driving tracks. • Planting of trees and landscaping. |

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED BUSIA SUGAR FACTORY COMPLEX IN BUSIBWABO LOCATION, MATAYOS SUB-COUNTY, IN BUSIA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Africa Polysack Limited) is proposing to develop a sugar milling factory complex and is expected to engage in the activities of sugarcane procurement, milling of sugarcane, production of mill white sugar, ethanol and power co-generation and marketing of the finished products. The factory complex will process approximately 900,000 tons of sugarcane per annum and produce approximately 94,380 tons of mill white sugar.

The proposed sugar factory will include the Mill house, Process house, Boiler house, Spray pond, Bagasse house, Distillery, Bagasse co-production, Effluent treatment and Staff residence units. The factory complex will require substantial quantities of water for smooth operation. The project intends to abstract about 5000m³ of water from River Sio.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

Impact	Proposed Mitigation Measures
Demand for raw material	<ul style="list-style-type: none"> • Source building materials from local suppliers who use environmentally friendly processes in their operations. • Ensure accurate budgeting and estimation of actual construction material requirements to ensure that the least amount of material necessary is ordered. • Minimize damage or loss of materials at the construction site through proper storage and handling. • Consider reuse of building materials and use of recycled building materials.
Minimization of local increase in construction traffic	<ul style="list-style-type: none"> • Construction vehicles should enter and leave the site at appropriate times. • Using signs and barriers the Contractor

Increased solid waste generation	<ul style="list-style-type: none"> will direct vehicles and pedestrian traffic as needed around the construction site. • Some activities may be scheduled in off-peak traffic times to minimize impacts. • Use of an integrated solid waste management system i.e. through a hierarchy of options • Order materials in the sizes and quantities they will be needed, rather than cutting them to size, or having large quantities of residual materials. • Use of durable, long-lasting materials to reduce the amount of construction waste generated. • Dispose waste more responsibly by dumping at designated dumping sites or landfills only. • Waste collection bins to be provided at designated points on site.
Dust emission	<ul style="list-style-type: none"> • Downwash of trucks (especially tyres) prior to departure from site. • Cover stockpiles of sand, soil and similar materials or surround them with wind breaks. • Post signs that limit vehicles speed onto unpaved roads and over disturbed soils. • Avoid excavation works in extremely dry weathers. • Sprinkle water on access routes to reduce dust generation by construction vehicles. • Personal protective equipment to be worn.
Exhaust emission	<ul style="list-style-type: none"> • Construction equipment to be maintained properly tuned and maintained as per the manufacturers specifications. • Vehicle idling time shall be minimized. • Alternatively fuelled construction equipment shall be used where feasible • Avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas
Noise and vibration	<ul style="list-style-type: none"> • Install portable barriers to shield compressors and other small stationery equipment • Use quiet equipment (i.e. equipment designed with noise control elements). • Ensure that construction machinery is kept in good condition to reduce noise • The noisy construction works will be planned to be during the day.
Increased energy consumption	<ul style="list-style-type: none"> • Ensure electrical equipment and appliances are switched off when not being used. • Install energy saving fluorescent tubes and bulbs at all lighting points instead of bulbs which consume higher electric energy. • Monitor energy use during construction and set targets for reduction of energy use.
Increased water demand	<ul style="list-style-type: none"> • Harvest rainwater. • Install water conserving taps and monitor water usage. • Promptly detect and repair of water pipe and tank leaks.

Increased storm water run-off	<ul style="list-style-type: none"> Promote recycling and reuse of water as much as possible. Surface runoff and roof water shall be harvested and stored for reuse. Apply soil erosion control measures such as leveling of the project site to reduce run-off velocity.
Oil Spills	<ul style="list-style-type: none"> A designated garage section of the site fitted with oil trapping equipments to be planned for changes. Prompt cleaning of oil and fuel spills. Proper disposal of clothing or rags contaminated with oil.
Occupational health and safety	<ul style="list-style-type: none"> Enforcing safety procedures and preparing contingency plan for accident response in addition safety training shall be emphasized. Suitable, efficient, clean, well-lit and adequate sanitary conveniences should be provided for construction workers. Ensure that machinery, equipment, personal protective equipment, appliances and hand tools comply with the prescribed safety and health standards. Provide PPE and enforce usage. Provide firefighting equipment, fire safety training and conduct drills Train first aiders, have stocked first aid kits. Keep a record of all hazardous chemicals used at the premises, cross-referenced to the appropriate chemical safety data sheets.
Safety and security	<ul style="list-style-type: none"> Ensure the general safety and security at all times by providing day and night security and adequate lighting within and around the construction site.
Waste water management	<ul style="list-style-type: none"> Monitor the efficiency of the effluent treatment plant to ensure that the sewage released from the facility do not pollute the environment.
Production process air emissions	<ul style="list-style-type: none"> Use and Monitor the efficiency of the TARDIS in trapping and neutralizing air emissions.

The full report of the proposed project is available for inspection during working hours at:

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Busia County.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the decision making process of the plan.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED 220 kV ELECTRICAL POWER
TRANSMISSION LINE PROJECT IN KAJIADO COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The Proponent (Kipeto Energy Limited) is proposing to construct an overhead 17km long transmission line for evacuating power generated by a 100MW capacity wind farm. The transmission line will start from a substation to be constructed at the wind farm and terminate at the proposed Kenya Power Isinya switching substation.

Below is a summary of the anticipated impacts and the proposed mitigation measures:

Impacts	Proposed Mitigation Measures
Traffic issues	<ul style="list-style-type: none"> Clearly define construction routes and required access roads. Use the minimum number of trips for delivering construction plant and equipment. Schedule the delivery hours to avoid peak hour traffic, weekends and evenings. Rehabilitate temporary access roads prior to the EPC contractor leaving the site. Position entry and exit points strategically to ensure minimal effects on traffic. Clearly signpost primary routes to the site.
Waste handling	<ul style="list-style-type: none"> Choose storage area location by considering prevailing winds, distances to water bodies, general onsite topography and water erosion potential of the soil. Impervious surfaces must be provided where necessary. Designate, demarcate, fence off and secure all storage areas. Provide fire prevention facilities at all storage facilities. Store all hazardous materials such as oils, paints, thinners, fuels, chemicals, etc. in properly constructed and impermeable bunded areas. The EPC contractor to acquire MSDSs for all chemicals and hazardous substances used on site. Hazardous material storage areas must be signposted clearly Use a NEMA licensed waste handler for disposal of all used oils from the camp sites. Dispose off any excess concrete mixes in consultation with the Project Manager. Immediately contain, recover and cleanup any spillages that may occur.

Improper use and management of borrow pits	<ul style="list-style-type: none"> Borrow pit localities must be negotiated with the relevant local authority to ensure consensus of their location. The EPC contractor must also compile an information document which states the methods which will be utilized when creating borrow pits. 		<ul style="list-style-type: none"> day and early evening. Night-time activities near noise sensitive areas should not be allowed. Noise from laborers must be controlled; Construction equipment must be kept in good working order and where appropriate fitted with silencers which are kept in good working order. The contractor must take measures to discourage laborers from loitering in the area and causing noise disturbance.
Impacts related to soils and geology	<ul style="list-style-type: none"> Provide wind screening and storm water control to prevent soil loss from the site; Use silt fences and/or sand bags in areas that are susceptible to erosion. Sensitive areas need to be identified prior to construction so that the necessary precautions can be implemented. Regularly maintain all erosion control mechanisms. Retain vegetation where possible to avoid soil erosion. Vegetation clearance should be phased to ensure that the least area of soil is exposed. Re-vegetate disturbed surfaces immediately after construction activities. 	Terrestrial alteration	<ul style="list-style-type: none"> Avoid grading in areas with high slope angles to avoid future possible erosion. Minimize grading of rugged areas by looking for alternative passage within the 60 m ROW. Avoid cutting of short trees that heights are lower than the power line (at least 15m). When points of erecting pylons is exactly on cluster of bushes ,offset backwards or forward within the proposed line to avoid destruction of the potential habitats for reptiles and small mammals.
Impacts related to surface water and groundwater	<ul style="list-style-type: none"> Provide adequate sanitary facilities for male and female construction workers in accordance with the Public Health Act requirements. Ensure that sanitary facilities are regularly serviced and emptied to reduce the risk of surface or groundwater pollution. Site staff shall not be permitted to use any other open water body or natural water source adjacent to or within the designated site for the purposes of bathing or washing of clothing. Treated water should be used for all activities such as washing of equipment or disposal of any type of waste, dust suppression, compacting, etc. An Effluent Discharge License shall be acquired from NEMA for the camp site to ensure effluent discharge compliance in accordance with the discharge limits stated in L.N. 120: Water Quality Regulations, 2006. 	Temporary obstruction of movement of wild herbivorous	<ul style="list-style-type: none"> Speed of vehicles should be controlled at a maximum limit of 40km/h. Drivers shall give priority to any wildlife crossing the roads at all times. Avoid grading or clearing of vegetation where the mound of moles and Aardvark holes occur. Operation of construction activities should be restricted to day time from 8am to 5pm.This provides time for foraging for nocturnal animals. Observe wildlife migratory patterns with weather changes.
Impacts of air quality	<ul style="list-style-type: none"> The EPC contractor will dampen un-surfaced and un-vegetated areas with a water bowser or sprinklers when necessary to reduce dust. Excavations and other clearing activities must only be done during agreed working times and permitting weather conditions to avoid drifting of dust into neighboring areas; A speed limit of 40km/h must not be exceeded. Any complaints emanating from the lack of dust control shall be attended to immediately by the EPC contractor. 	Introduction of alien invasive plant species	<ul style="list-style-type: none"> Equipment to be used should be decontaminated e.g. washing equipment to remove soil potentially carrying AIPS propagules. Avoid importing soils/gravel to use for level grounds for vehicles to pass in ROW should be avoided. If brought from outside, the surface of the soil should be removed to avoid mixing of soils potentially harboring AIPS propagules with the lower soil profiles. Since AIPS appears later after soil disturbance ,after math proliferation of AIPS should be controlled by reducing their population and recruitment.
		Poaching	<ul style="list-style-type: none"> Personnel should be screened when entering and leaving construction sites. Local people should be alerted by the constructors to be able to detect visitors potential of poaching.
Impacts of noise on surrounding areas	<ul style="list-style-type: none"> Construction site yards, workshops and other noisy fixed facilities should be located well away from noise sensitive areas. Truck traffic should be routed away from noise sensitive areas, where possible. Construction activities are to be contained to reasonable hours during the 	Aquatic habitat alteration	<ul style="list-style-type: none"> Contractor should work within the construction space of the ROW. If by any chance there will be need for temporary use of extra space then, such areas should not have tree species .Constructor should consult relevant authority e.g. KWS and KFS.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED MURING'A BANANA IRRIGATION PROJECT IN MAARA DISTRICT, THARAKA NITHI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent (National Irrigation Board) is proposing to establish an irrigation project within Maara District in Tharaka Nithi County

The following are the anticipated impacts and propose mitigation measure:

Possible Impacts	Proposed Mitigation Measures
Generation of wastes	<ul style="list-style-type: none"> • The debris to be collected and disposed in designated waste dump sites. • Metallic pieces could be taken back to the diocese for use in fabrication • PVC pipe pieces could be used in pipe repairs or given out to be used as gutters, etc.
Safety, health and environment	<ul style="list-style-type: none"> • Workers will be provided with Personal Protective Equipment (PPEs), which

include gloves, boots, goggles, aprons, ear protection, etc.

- Health and safety awareness creation should be done before and continuously on the job
- Do first aid training and provide first aid kits
- Provide workmen compensation insurance to take care of major injuries: may create a fund to care of major work-related injuries
- Provide dust covers and goggles
- Spray/sprinkle water at sites as appropriate
- Provide breaks at certain times of the day week; discuss scheduling of work with workers
- Flooding the farms will be discourage to avoid mosquitoes breeding
- Fill or cover the excavations as much as possible ;give clear warning signs and control traffic to avoid accidents
- Workers should be provided with clean and drinking water to avoid dehydration and drinking of water from contaminated sources;
- Provide food /food kiosks/workers to carry packed food

Loss of vegetation

- Minimize clearing of vegetation by re-routing pipeline and re-sitting infrastructure to less vegetated areas
- Where it cannot be avoided, re-vegetate as much as possible

Social disturbance and conflicts

- Clarify contracts, explain the plan to the local residents, get way leaves/easements well in advance

Wastewater disposal

- Wastage of water should be checked and disciplinary measures such as suspension from the project site on those found to be leaving the taps running.
- MBIP will have pipe/system patrollers and plumbers/technicians who will detect and repair the system as quickly as possible

Reduced river flows

- Even though insignificant, the amount abstracted will be regulated via a flow control/measuring device to ensure the permitted level. The amount permitted will be based on the river flow

Possibility of increased conflicts during project operations

- The project committee and staff will be trained on conflict detection and management in order to be able to resolve day to day conflicts

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839-00200, Nairobi.

(b) Principal Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi.

(c) County Director of Environment, Tharaka Nithi County.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
