THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT
AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED UAP OFFICE TOWERS
DEVELOPMENT AT UPPER HILL

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed UAP Office Towers Development at Upper Hill.

The proposed project will include construction of new office park consisting of a 28 storey building with usual facilities. Upon completion, the building will have 28 floors of business space, which are expected to meet the demands of the Nairobi business community.

The site is located along Upper Hill Road, Upper Hill area, Nairobi, on plot L/R. No. 209/13453

The project anticipates the following impacts and mitigation measures:-

<i>Possible impacts</i>	<i>Mitigation Measures</i>
Noise	<ul style="list-style-type: none"> Workers are expected to wear protective gear including earplugs when operating noisy equipment. Use of sound proofed equipment e.g. generators and compressors.
Air quality	<ul style="list-style-type: none"> Masks to be provided to all personnel in dust generation areas throughout the period of construction. The consultants and contractors are requested to guarantee that the works are carried out in a proper manner so as to minimize the impact of the construction on air quality. Any stockpiles of earth should be enclosed, covered or watered during dry or windy conditions to reduce dust emissions. Use of netting to prevent air pollution of surrounding premises. Stockpiles of earth should be sprayed with water or covered. There should be no siltation of the storm water drains.
Soil erosion	<ul style="list-style-type: none"> The remaining lands must be landscaped. Install drainage structures properly. Efficiency of drainage structures.
Vegetation	<ul style="list-style-type: none"> Landscape by planting all disturbed areas. Planting and grassing should be done just before the rains. Care for trees/plants.
Public health and occupational safety	<ul style="list-style-type: none"> Ensure proper solid waste disposal and collection facilities. Provide suitable safety gear for all personnel. Ensure waste water management. Ensure lifts are approved by necessary authorities and receive regular maintenance. Ensure proper maintenance and approvals of the cranes and other equipment that requires Ministry of Labour authorization.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED 120MW KIPEVU III THERMAL POWER PLANT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed phase II of the proposed 90-120mw Kipevu III thermal power plant by Kenya Electricity Generating Company Limited.

The proposed project will involve Construction, Operation and Demolition of the Phase II of the Proposed 90-120mw Kipevu III Thermal Power Plant. The power plant will comprise of seven diesel engine driven diesel generator units, power house, Engine cooling system, facilities to transfer and store fuels and lubricants, system for handling and treatment of sludge and oily wastes, switch gear and transmission facilities, power plant operation control system, human sanitary waste treatment system and administrative building.

The project is located in Kipevu Area on approx. 3.2 ha of Export Processing Zone Authority (EPZA) land, Mombasa.

The project anticipates the following impacts and mitigation measures.

<i>Impacts</i>	<i>Mitigation Measures</i>
Flora	<ul style="list-style-type: none"> Restrict clearing of vegetation to necessary areas only Rehabilitate, re-vegetate and landscape all disturbed areas Sensitize workers against clearing of vegetation for firewood.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY

REPORT FOR THE PROPOSED OFFICE BLOCK ON PLOT L.R
NO. 2/288, ALONG ARGWINGS KODHEK ROAD IN KILIMANI
AREA, NAIROBI

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the implementation of the Proposed Office Block on Plot L.R No. 2/288 along Argwings Kodhek road in Kilimani Area, Nairobi.

The proposed project entails construction of a six storey main office block and a detached four storey office block. The main office block will have six floors with a total of 33 office spaces.

The proposed project will be located on plot L.R No. 2/288 along Argwings Kodhek road in Kilimani area, Nairobi. Kirichwa Kubwa River passes through the site in the Northern part.

The project anticipates the following impacts and mitigation measures:

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
Soil erosion	<ul style="list-style-type: none"> • Low bumps should be placed around the piles of sand and marl and/or tarpaulin used to cover open piles of these materials to prevent them from being washed away when it rains heavily. • Safe storage areas should be identified and retaining structures put in place prior to the arrival • Materials to be delivered on site in installments • Leveling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil • Building of physical barriers to prevent mass movement where necessary • Stockpiling of construction materials should be properly controlled and managed.
Construction waste	<ul style="list-style-type: none"> • Any Vegetation and combustible waste must not be burned on the site. • Reusable inorganic waste (e.g. excavated sand/soils) should be stockpiled away from drainage features and used for in filling where necessary and/or possible. • Unusable construction waste, such as damaged pipes, formwork and other construction material, must be disposed of at an approved dumpsite. • Appropriate cautionary notices should be posted at strategic points to discourage workers from dumping solid waste to the Kirichwa Kubwa river • Provide solid waste receptacles and storage containers, particularly for the disposal of plastic bags, boxes, so as not to block drainage system and to prevent littering of the site. • Make arrangements for the daily collection of litter from the site and appoint a licensed solid waste transporter to collect and transport it for

*Possible Impacts**Mitigation Measures*

Noise

- dumping at approved site.
- Restrict noisy construction activities to normal working hours (8am – 5pm).
- Inform local residents beforehand, via notices and advisories, of pending noisy periods and solicit their tolerance well before the commencement of piling works.
- Workers operating equipment that generate noise should be equipped with noise protection gear including ear muffs and plugs. Workers operating equipment generating noise levels greater than 80 dBA continuously for 8 hours or more should use earmuffs whereas those experiencing prolonged noise levels of 70 – 80 dBA should wear earplugs.
- Limit pick up trucks and other small equipment to an idling time of five minutes, observe a common-sense approach to vehicle use, and encourage workers to shut off vehicle engines whenever possible.
- All construction equipment should be regularly inspected and serviced

Dust Emissions

- Covering of all haulage vehicles carrying sand, aggregate and cement
- Stockpiles of fine materials (e.g. sand and ballast) should be wetted or covered with tarpaulin during windy conditions.
- Access roads and exposed ground must be wetted in a manner and at a frequency that effectively keeps down the dust.
- Workers in dusty areas on the site should be issued with dust masks during dry and windy conditions
- Providing appropriate enclosure for the concrete mixer and
- Use of dust nets at high levels of the building

Fire Outbreak

- Provide adequate number of appropriate fire fighting equipment
- Post 'No smoking signs' where flammable materials will be stored
- Organize for inspection and maintenance of fire equipment at least once in a period of six months
- Train staff on the use of the available fire fighting equipment
- At least one person trained on handling fire fighting techniques should be available through-out the construction phase of the project.
- Develop and post at the site, fire emergency and evacuation procedures
- Maintain on site telephone contacts for City Council fire brigade, G4S fire brigade and St. Johns ambulance service provider

Traffic Management

- Issue notices/advisories of pending traffic inconveniences and solicit tolerance by local residents before the commencement of construction works.
- As far as possible, transport of construction materials should be scheduled for off-peak traffic hours. This will reduce the risk of traffic congestion and of road accidents on the

<i>Possible Impacts</i>	<i>Mitigation Measures</i>
	roads leading to the site.
	<ul style="list-style-type: none"> • Appropriate traffic warning signs, informing road users of a construction site entrance ahead and instructing them to reduce speed, should be placed along the main road in the vicinity of the entrance to the site during the construction period. • Flagmen should be employed to control traffic and assist construction vehicles as they enter and exit the project site. • Train drivers on road safety
Management of terrestrial habitat & biodiversity	<ul style="list-style-type: none"> • Protecting the existing individual trees, especially those along the riparian reserve, as much as possible. Landmark trees that will not be affected prior to construction works. • Obtain approval for cutting trees that might be affected by construction works from the Director of Environment, City Council of Nairobi • Set a replanting and landscaping programme that focuses on increasing "green area."
Management of sewage	<ul style="list-style-type: none"> • Providing adequate sanitary facilities for workers, e.g. portable chemical toilets with appropriate sanitary arrangement, to prevent increased bacterial loading to runoff. • Sensitize workers on the rationale of using the sanitary facilities

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED ADDITIONAL BULK VEGETABLE OIL STORAGE TANKS ON PLOT NO. 492B AT SHIMANZI, MOMBASA

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the

proposed additional bulk vegetable oil storage tanks on plot No. 492B at Shimanzi, Mombasa by Gulf Stream Investments Limited (GSIL).

The proposed project will include construction of additional eleven tanks which will have a total storage capacity of 25,500M3. GSIL imports vegetable oil from Malaysia. The vegetable oil is received at the port of Mombasa and stored in the above ground storage tanks (ASTs) before being delivered or collected by the customers.

The project infrastructure will include:

- Tan farm with eleven AST and bund wall.
- Two oil water separators.
- Booster pumps.
- Hose exchange area.
- Service area, pipe work (product lines, hydrant pipeline for fire water, air pipeline for conveying air used in cleaning the product lines, hot water pipeline for conveying hot water for heating the product to so as to remain in liquid state).
- Retaining wall, block work wall and access road.

The project anticipates the following impacts and mitigation measures:-

<i>Possible impacts</i>	<i>Mitigation Measures</i>
Soils and geology	<ul style="list-style-type: none"> • The minimum area required for infrastructure shall be cleared of vegetation. • Measures shall be taken to ensure that topsoil and subsoil excavated from the construction site is properly managed. • A minimum amount of storm water will be allowed to flow on to the site, and control measures to meet industry norms and standards will be implemented to ensure that storm water damage is avoided and minimized. • Topsoil shall not be disturbed more than is absolutely necessary on the construction site. • Stockpiled soil will be reused for rehabilitation purpose. • Denuded areas shall be surfaced as soon as feasible after construction. • At closure, the site shall be restored to a suitable land use capability
Ecology	<ul style="list-style-type: none"> • Re-vegetation to control potential soil erosion. • Prevention of soil contamination through oil spills/leaks from construction machinery and vehicles from reaching the ocean. • Ensure that effluent discharged into the nearby Indian Ocean complies with the Standards stipulated by Legal Notice No. 121 of 2006 for effluent discharged into environment
Air quality	<ul style="list-style-type: none"> • The Contractor shall ensure that the construction machinery and equipment are appropriate and fit to prevent fugitive emissions, as per national standards or international practices. • The Proponent shall ensure the regular maintenance of the equipment. • Develop and implement effective measures for minimization of dust during construction phase. • Ensure that construction and demolition take into account the need to prevent and minimize release of fugitive emissions during the operational phase. • Ensure the design, monitoring and safety systems installed for the facility must comply with established industry

	standards and national and international operational best practice
	<ul style="list-style-type: none"> • Implement, audit and regularly improve HSE measures for emergency response to air pollution incidents during the operation phase.
Solid waste	<ul style="list-style-type: none"> • Develop and implement procedures for safe and appropriate disposal of waste for all payment phases.
Water waste	<ul style="list-style-type: none"> • Measures shall be instituted to minimize erosion and sediment transport, especially during construction activities. These measures should include: limiting areas cleared of vegetation, stabilizing the soils on the sloppy areas with stone pitching and planting of grass. • Remedial measures shall be implemented by the contractor in the event of erosion resulting in the sedimentation of surrounding areas after due consideration of the costs and benefits of such removal activity. • Infrastructure shall be designed to ensure that contaminated run-off does not reach watercourses. In the event of an oil spill the procedures contained in the emergency response plan will come into effect. • A surface monitoring system, including flows and water quality, shall be established and implemented for the duration of the operation of the facility. • Provision shall be made for suitable sewage facilities for construction workers. • Permanent employees will use the already available sanitary facilities.
Noise and vibration	<ul style="list-style-type: none"> • Implement measures during the construction, operation and decommissioning phases to prevent and manage noise and vibration. • The Contractor shall ensure that construction activities are limited to working hours (i.e. between 06h 00 and 9h 00 daily) from Monday to Saturday, or as required in terms of legislation and/or negotiated with local landowners. • Campsite/s will be placed at a distance from neighbouring landowners and residents so as to minimize disturbance • Noise generating equipment will be designed to control and dampen noise emissions, and will be located at a distance far enough from the nearest noise sensitive development, to ensure that the increase in ambient noise level will comply with ISO standards.
Social economic	<ul style="list-style-type: none"> • Implement where feasible measures to employ local community members during both construction and operational phase
Traffic	<ul style="list-style-type: none"> • Institute measures to reduce damage to the roads.
Health and safety	<ul style="list-style-type: none"> • Implement sound, cohesive EHS standards throughout all their business cycles and ensure these are observed by all managers and employees.

- Comply with all relevant EHS legislation
- Plan and prepare for all conceivable emergencies and disasters related to their businesses and work environment.
- Strive to continually improve in their EHS management through well defined training and audit procedures.
- Follow best practice in EHS compliance with an aim to be industry leaders.
- Require all their business partners to manage their own EHS in line with their policy.
- Develop and implement measures to minimize risks and injuries to the public during construction and operational phases.
- Institute security measures to minimize malicious damage to include regular security patrols and automated shut-off systems

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED TIMBER PRODUCTS
MANUFACTURING FACTORY (431)
INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Timber Products Manufacturing Factory.

The proposed project will involve establishment of a timber products manufacturing factory which will involve manufacturing of timber products for domestic and industrial construction. The structures to be put up comprise of go-downs, factory offices, boiler house, workshops, stores, log yards, water and fuel storage offices, borehole, waste water pump and staff housing.

The proposed project is located on LR No. 4807/2 and 4807/5 in Njoro Division of Nakuru District.

The project anticipates the following impacts and mitigation measures:-

<i>Possible impacts</i>	<i>Mitigation Measures</i>
Dust, noise and vibration	<ul style="list-style-type: none"> • Sprinkle the site with water. • Provide dust masks to the workforce. • Create paved pathways clearly demarcated for movement of trucks ferrying both raw materials and manufactured products. • Adherence to machine manual specifications. • Use modern technology machines.
Degradation of physical environment	<ul style="list-style-type: none"> • Put up measures to prevent soil erosion • Strictly control vegetation clearance. • Maintain drainage systems by paving the channels with concrete. • Embark on re-afforestation activities. • Donate seedlings to communities living around forested areas • Adopt reduced impact logging (RIL).
Occupational health and safety	<ul style="list-style-type: none"> • Observe occupational health and safety measures. • Train workers on occupational health and safety. • Provision of PPEs. • Install emergency showers. • Install first aid kits at the premises. • Install fire extinguishers and fire hydrants at risk zone areas. • Come up with fire assembly point. • Conduct regular fire drills. • Ensure no wood accumulates unnecessarily on the floor. • Undertake flue gas analysis for the boiler. • Provide workers with noise protection gear especially those working at the saw mill.
Solid waste	<ul style="list-style-type: none"> • Segregate the waste. • Come up with proper waste management strategies such as incineration of waste papers, recycling of waste and composting of vegetative waste.. • Adhere to waste regulation of 2006.
Waste water	<ul style="list-style-type: none"> • Apply for effluent discharge licence from NEMA. • Install a waste water pre-treatment facility. • Treat and re-use the waste water generated. • Offload bulk and package preservatives directly to the chemical storage area. • Fit storage and mixing tanks with level indicators, alarms and fail-safe devices. • Bund and roof all hazardous chemical storage areas. • Install oil interceptors.

		Every objection in respect of an application shall be lodged with the Licensing Authority and the District Commissioner of the district in which such an application is to be heard and a copy therefore shall be sent to the applicant not less than seven (7) days before the date at which such an application is to be heard. Objections received later will not be considered except where otherwise stated that the applications are for one vehicle.	
		Every objector shall include the registration number of his/her vehicle (together with the timetables where applicable), operating on the applicant's proposed route. Those who submit applications in the names of partnership and companies must bring certificates of business registration to the Transport Licensing Board meeting.	
		Applicants who are Kenya, Tanzania or Uganda citizens of non-African origin must produce their certificates or any other documentary proof of their citizenship.	

Applicants who fail to attend the above meeting as per required of this notice, without reasonable cause will have their applications refused and should therefore, not expect further communication from the Board.

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
