**GAZETTE NOTICE No. 1236****THE INDUSTRIAL COURT**

CAUSE NO. 4 OF 1981

**Parties:**

Kenya Timber and Furniture Workers' Union  
 and  
 Victoria Industries Ltd.

**Issue in dispute.**—Recognition agreement.

1. The Kenya Timber and Furniture Workers' Union shall hereinafter be referred to as the Claimants and Victoria Industries Ltd. shall hereinafter be referred to as the Respondents.
2. The parties were heard in Nairobi on the 17th March, 1981, and relied on their written and verbal submissions.

**AWARD**

3. The Notification of Dispute Form "A" dated 10th July, 1980, duly signed by the parties was received by the Court on 13th January, 1981, together with the statutory certificate signed by the Labour Commissioner.

The Respondents had recognized Kenya Engineering Workers' Union and had entered into a collective agreement effective from 1st December, 1978, for a period of two years with that Union.

In or about June, 1979, the Claimants informed the Respondents that they had enrolled 258 of their employees as their members. The Claimants also forwarded the check off forms duly signed by these 258 workers to the Respondents. It is not disputed that the Respondents are remitting the amount to the Claimants under the check off forms from that date.

The Respondents, however, informed the Claimants about their relationship and the collective agreement which they had with the Engineering Union.

The Claimants having demanded recognition from the Respondents and the Respondents having informed them of their existing relationship with the Engineering Union the Claimants reported a trade dispute to the Minister for Labour on the issue of recognition on 1st October, 1979. The Ministry set up an investigation committee whose findings and recommendation were conveyed to the parties by the Permanent Secretary on 21st June, 1980, in the following terms:

"Investigations revealed that Victoria Industries Ltd. fall under the scope of the Union which is further supported by rule 3 of the Union's Constitution on membership and the Legal Notice No. 200 of 13th October, 1972, on the scope of furniture industry. The Union has managed to recruit all the unionizable employees in this firm, a fact the management supported in their submissions.

On the other hand the Kenya Engineering Workers' Union though having a collective agreement with the management had no interest in the dispute since they refused to communicate or meet with the chairman of the investigation committee.

It is apparent that the management are reluctant to accord recognition to the Timber Union because of the existing collective agreement between them and the Engineering Union. In our view whether or not the Timber Union will approach

the management after it is accorded recognition for negotiations for new terms and conditions of service during the lifetime of the current collective agreement is not an issue in this dispute.

Our concern is which union is the appropriate one to represent workers in this industry. It is my considered opinion that the Timber Union is the appropriate union to represent employees in Victoria Industries Ltd."

The Court notes that the Engineering Union showed no interest in this dispute since they refused to communicate or meet with the chairman of the investigation committee despite requests to do so.

The Court has no doubt that the nature of the Respondents' work brings them within the ambit of the Claimants as they are engaged in furniture making although they claimed that they use metal in making furniture and not timber.

The Court notes that under the Regulation of Wages (Furniture, Boat, Door and Window Making Industry Wages Council Establishment) Order, 1972, any firm that carries on for gain the manufacture, assembling, maintenance, repair or alteration of office and domestic furniture is covered by that Order.

The Court would also like to recall that on 1st March, 1978, the Executive Director of the Federation of Kenya Employers wrote the following letter to the Claimants:

"It has come to my notice that the Kenya Engineering Workers' Union has made serious organizational inroads into the furniture manufacturing industry in some cases with your connivance. I have in mind a company like Victoria Industries which you virtually handed over to Kenya Engineering Workers' Union following the mass resignation of the workers from your union. I understand that there are other furniture firms which are being attracted to the Engineering Union because it is alleged that that Union is prepared to negotiate with them lower wages than what is provided for in the Furniture Group Agreement.

Many members of the Furniture Group have expressed their disquiet at this development.

I feel that you have to stand up to the Engineering Union so that they don't encroach into your area of jurisdiction."

During the hearing the Respondents put up a very poor show and indeed did not forward any convincing argument as to why they should not be ordered to recognize the Claimants.

After careful consideration of all the submissions the Court awards that the Respondents should immediately recognize the Claimants and a recognition agreement between the parties should be formalized within a fortnight of the date of the award so that the parties can embark on negotiating a collective agreement between them.

The Court directs that the recognition should be effective from 1st January, 1981.

Given in Nairobi on 8th April, 1981.
