**THE INDUSTRIAL COURT****CAUSE NO. 35 OF 1967***Parties:—*

Kenya Shoe and Leather Workers' Union

**and**

Zimmermann Limited

*Issues in dispute:—*

- (1) Overtime for Watchmen.
- (2) Underpayment for 12 Employees.

1. The Kenya Shoe and Leather Workers' Union shall hereinafter be referred to as the Claimants and Zimmermann Limited shall hereinafter be referred to as the Respondents.

2. The Parties appeared before the Court on the 2nd October 1967, when in view of the Claimants' very inadequate written submissions, they were granted additional time to prepare a comprehensive document in accordance with rule 11 (1) (a) of the Industrial Court (Procedure) Rules 1965. The hearing then commenced on 30th October 1967, when after

the opening submissions by the Parties it was adjourned to 20th November 1967, to enable them to call witnesses in support of their submissions. On this day, however, the Claimants' representative failed to appear and sent a message saying that he was sick. This message was received in the morning shortly before the hearing was due to commence. Eventually the hearing was completed on 19th December 1967, when the Claimants called three witnesses and the Respondents called two witnesses.

#### AWARD

In this dispute the Court was presented with a very unsatisfactory and inadequate memorandum by the Claimants. In spite of the fact that the Court allowed further time to the Claimants to improve on it, they made no serious effort to comply with rule 11 (1) of the Industrial Court (Procedure) Rules 1965, which requires that the Claimants' memorandum must set out—

- (i) the nature and full particulars of each item of the claim involved in the dispute and as stated in the terms of reference to the Court;
- (ii) the class or classes of workers to whom the dispute relates; and
- (iii) such submission as the claimant party may wish to make in support of its claims.

In addition to this it is unfortunate that the Claimants had not worked out the full details of their claims for presentation to the Court during the hearing of the dispute and, in fact, expected the Court to work out the exact amounts of their claims which, if accepted, would have run easily into a figure well above £600. This sort of attitude is to be strongly deplored and the Parties are warned that when they appear in Court they should come fully prepared with their facts and figures and appropriate arguments in support of their contentions. In the present dispute it was only after repeated questions from the Court members that the Claimants managed to put across the relevant information on matters in dispute.

On the first issue regarding the claim of overtime for watchmen the Court is satisfied that there is no merit in this claim. These employees have all along worked longer hours than the other employees who were required to work only 44 hours. There is no doubt that watchmen by the nature of their calling are employed at all times during the week, the only stipulation being the number of hours they put in which customarily requires a greater number of hours than the other workers. Furthermore the Court is satisfied that the watchmen employed by the Respondents have never been paid overtime for working more than 44 hours per week, except when they were required to clean water tanks when not on duty. The fact that a different number of hours is not specified for watchmen in the negotiated agreement is, in fact, an omission and the Court cannot find that the watchmen were required to work only 44 hours. In these circumstances and for lack of details and information on this issue, the Court rejects it.

On the second issue the Court believes that the present dispute stems from the very unsatisfactory manner in which the job titles for mounters were evolved between 1963 and 1965. In the 1963 agreement there was only one grade of mounter, the rate for it being Sh. 400 per month and in the 1965 agreement, mounters were split into three grades as follows:—

	Sh.
Grade III	220
Grade II	320
Grade I	480

The Court could find no evidence as to how and in what grades the existing mounters had been classified. The Court has very carefully considered the relevant submissions made by the Parties on this issue and finds that the following employees should have been classified in Grade I:—

Mr. Irungu Hosea.  
Mr. Chege Mungai.  
Mr. Samson Mwangi.  
Mr. Kairo Gachohi.

Further the following two employees should have been in Grade II:—

Mr. Gachohi Wanyare.  
Mr. Kamau Philip.

As the Court finds that this unsatisfactory state of affairs was created by both Parties, the Court has decided to restrict the payment of arrears to 1st July 1966. The Court, therefore, awards that these aforesaid six employees should be paid the difference between the appropriate rates for their grades, i.e. Sh. 480 and Sh. 320 and the actual amount they received with effect from 1st July 1966.

Given in Nairobi this 25th day of January 1968.

#### AWARD

This dispute affects 28,150 workers engaged in the Tea Industry in Kenya and as tea is one of the country's largest revenue earners any award made will be of vital importance to the economy of the country as a whole.

There are extremely far reaching considerations at stake in this dispute as there is no denying the fact that a person working on the land in comparison with other workers receives very inferior wages and benefits. The Claimants' arguments in this context are valid. But the most formidable problem in Kenya is that of unemployment. The Government has made it abundantly clear that its policy was to increase employment even if this meant the application of some form of brake on wage increases.

Further, statistics issued by the Government show that in recent years wage earnings have increased at a much faster pace than total output and wage employment. While average wage earnings of Kenyans have doubled since 1958, Gross Domestic Products have risen by about 40 per cent. Wage earnings have thus risen about 2½ times as fast as national output since 1958. The volume of wage employment at the same time fell by 35,000 between 1958 and 1965. The loss is even more if comparison is made between the peak level of employment in 1960, which shows a loss of 60,000 or 10 per cent reduction by 1965. The rapid rise in wages to some extent is understandable in that the workers had suffered considerably during colonial days and some of the past injustices had to be remedied.

The historical background of the wage evolution in the Tea Industry is that in 1960 Sir Barclay Nihill as the sole arbitrator brought up the wage of an adult male to Sh. 78 per ticket

of 26 days and that of a female worker to Sh. 72. The next wage increase was brought about as a result of conciliation by Mr. Damerell which gave the workers an 8 per cent increase. This was in 1962 and in 1963 Mr. Luckhurst conciliated and the workers received an increase of Sh. 5/20. The next wage increase was not granted until 1st May 1966 due to the tripartite agreement. This increase was negotiated freely between the Parties and brought the rate up to Sh. 3/95 per day. The plucking rates were retained at 7½ cents, 8½ cents and 9½ cents per pound. The agreement incorporating these increases was for a period of 12 months from 1st May 1966. The Claimants are seeking an increase on these rates and the fringe benefits incorporated therein.

The Claimants had submitted their demands in March 1967 in the hope that the new agreement would be ready by the time the existing one expired. Lengthy meetings were held to discuss these demands and the Court finds that there was a four-month delay for which the Respondents cannot be held responsible that is two months due to various wild cat strikes and a further two months at the Ministry of Labour before a conciliator could be appointed.

After a further series of meetings settlement was in sight and the conciliator persuaded the Parties to sign the following agreement:—

- "At a meeting held between representatives of Kenya Plantation and Agricultural Workers' Union and Kenya Tea Growers' Association on 22nd September 1967, the following were agreed:—
- (a) The Association undertakes to refer to their Executive Committee (Special Conference) to consider the Union's last demand on a minimum wage of Sh. 4/50 per day based on Kericho daily rate.
  - (b) Plucking rates at 10 cents per pound for fine plucking, 8 cents per pound for fair average quality and 9 cents per pound for standard average quality.
  - (c) Leave of absence for 2 days without permission.
  - (d) Duration of the agreement to be 15 months from the date the dispute was reported to the Ministry of Labour.
  - (e) The Union henceforth withdraws all other items in dispute as set out in the Permanent Secretary's letter No. IR/97/16 dated 24th August 1967 and such items shall remain as they were in the expired agreement."

Unfortunately the Respondents could not agree to item (a) with the result that all the negotiations fell through and some 29 issues were referred to the Industrial Court for adjudication. The Claimants have severely criticized the Respondents for backing out of this agreement but the Court finds that the wording in para. (a) above is quite clear and if the Claimants had wanted the Court to put their interpretation on it then they should have seen to it that it was so worded. They have only themselves to blame for it.

One very significant point that emerged during the hearing is that over the years that wage increases have been granted in the Tea Industry, the total number in employment with the Respondents has been reduced to some extent. This highlights the ever present danger that after every major increase either in industry or agricultural management must either (i) increase the price of its products in order to compensate for the additional cost or alternatively (ii) examine the efficiency of the undertaking in order to reduce costs by either a greater productivity or mechanization, etc. The Respondents concede that were it not for the progressive increase over the last five years a considerably greater number of people would be employed in the Tea Industry today. It is regrettable that it should be so but unless there is any legislation restricting an employer's right to hire or fire there is nothing much that can be done and this grim reality has to be kept in mind in formulating any wage increase.

There is no doubt that tremendous development is taking place in the Tea Industry in Kenya which if successful will provide still further employment and this development is actively encouraged by the Government through the Kenya Tea Development Authority. It is envisaged that 100,000 acres will be under tea cultivation by 1970. This is expected to create hundreds of new job opportunities and it is the Court's duty to ensure that this prospect is not jeopardized in any way.

The Respondents have pleaded that if a realistic wage increase is granted this will enable them to remain competitive and they will be able to go ahead with their planned development. They alone would create 1,400 additional jobs a year. In order that the Respondents may carry on with their proposed development they made a strong plea for a three-year award.

The Court must pay due regard to the fact that in addition to the 28,000-odd workers employed by the Respondents, with a large development plan of the Kenya Tea Development Authority approximately a further 30,000 employees have found jobs in the Tea Industry. The Court has, therefore, to seriously take into consideration the widespread effect which further wage increase would have on the economy of the country. The wages and other benefits enjoyed by workers on the small-holding schemes are quite inferior to those of the Respondents' employees. The Court cannot overlook the fact that the character of the Tea Industry is rapidly changing in the country in that small growers are going to play an increasingly important part

in the Tea Industry and that they for obvious reasons will not be able to pay the same rates of pay as the Respondents and other large growers for quite some time yet.

In these circumstances the Court while conceding the validity of some of the arguments put forward by the Claimants has to reconcile them with the harsh economic realities and the Government policy which is directed to creating as many employment opportunities as is possible.

The Court has very carefully considered all the relevant submissions before making its award and was inclined to award a few months backdating but in view of the difficulties involved has decided to include the benefit which would have accrued to the workers from any backdating in the wage increase. Furthermore if any backdating is awarded then the Parties would not get a sufficiently long time to settle before embarking on fresh negotiations.

The Court in making the following award is fully confident that the Respondents will be able to carry on with their planned development quite comfortably and will be able to meet their declared target of creating about 1,400 additional jobs at least in 1968.

The Court has decided to make a two-year award with effect from 1st January 1968.

*Wages.*—The Court awards the following new rates per day based at as Kericho:—

Sh. 4/15 with effect from 1st January 1968 for 12 months.  
Sh. 4/30 with effect from 1st January 1969 for 12 months.

*Plucking Rate.*—The Court awards the following new rates with effect from 1st January 1968:—

Fine quality—10 cents per pound.  
Standard quality—9 cents per pound.  
Fair average quality—8 cents per pound.

The above rates shall go up by another quarter cent per pound as from 1st January 1969.

*Area Differentials.*—The Court awards that the following new differentials should apply:—

Kericho Branch .. .. .. ..	100 per cent
Nandi Hills Branch .. .. .. ..	93 per cent
Limuru and Sotik Branches .. .. .. ..	84 per cent

The area differential based on Kericho at Sh. 4/15 per day with effect from 1st January 1968 being 100 per cent to be calculated to the nearest 5 cents.

*Annual Leave.*—The Court awards that the existing clause should be amended only to the extent to allow a worker who has completed 10 years' consecutive service to have 18 days' consecutive annual leave as his entitlement.

*Gazetted Public Holidays.*—The Court awards that the present arrangement should continue except that workers should be granted a holiday on Madaraka Day instead of the New Year Day.

*Housing.*—The Court awards that a housing unit should be allocated to one family only and in case of single workers two or three of them should share a housing unit depending on the size of accommodation available.

As far as the other complaints made by the Claimants are concerned the Court finds that the proper place for these is either the Ministry of Health or the Ministry of Labour who will no doubt ensure that the statutory requirements on housing are met by the Respondents.

*Redundancy.*—The Court awards the following clause in addition to the ones already agreed between the Parties at a meeting of the Standing Joint Committee on 16th September 1966:—

"Where an employee is declared redundant he shall be entitled to two weeks' pay for every completed year of service provided that the amount due to an employee under the gratuity scheme shall be set off against the severance pay on redundancy with the employee getting the higher of the two benefits. Severance pay shall be worked out at the rate of an employee's wage at the time he is declared redundant."

*Casual Labour.*—The Court awards that the existing provision on this item should remain in force with the following amendment to Clause 16 (b) of the current agreement:—

"Casual labour may be employed by Management up to and including a maximum period of three consecutive months in any specific engagement. Should Management require the worker to continue in his employment during and successively to a fourth month then such employee shall be deemed to be engaged as a permanent employee."

*Other Issues.*—On all the other issues in dispute the Court awards that current benefits should continue as they are.

*Effective Date and Duration.*—The Court rules that this award should be with effect from 1st January 1968 and should remain in force for a period of two years from that date.

Given in Nairobi this 30th day of January 1968.

## GAZETTE NOTICE No. 391

THE TRADE MARKS ACT  
(Cap. 506)

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form T.M. No. 6 (in duplicate) together with a fee of Sh. 50.

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

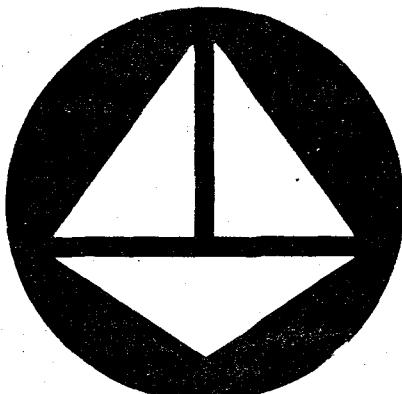

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Offices, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.
