*Background information:*

The development planning advisory branch, P.P.D.P.D., provides technical services to member governments in the field of development planning. While a large number of the technical co-operation projects carried out by the branch are aimed at strengthening of national planning, special emphasis is placed on river basin development, large-scale integrated rural and community development projects, formulation of social policy and planning at regional and sub-regional levels.

In view of the fact that the branch promotes an integrated approach to planning and development, attempts are made to establish downward and upward linkages with a view to facilitating the flow of information and resources for achieving effective socio-economic transformation at all levels.

During the last three years, D.P.A.B. is being asked to give assistance in methods and techniques of macro-economic and macro-financial analysis as a tool for accelerated development. Also, D.P.A.B. is increasingly negotiating projects financed by the World Bank.

In order to carry out effectively the backstopping of these activities, D.P.A.B. requires advisers with a deep knowledge of macro-economic and macro-financial analysis particularly as in currently conceived in sub-Saharan French speaking countries. The need to have a wide knowledge of the World Bank's

approach to economic activities has also become an important element for backstopping in many African and Latin American countries.

The United Nations would welcome the participation of suitably qualified male and female candidates in the technical co-operation programmes. The recipients of this job description are, therefore urged to make every effort to locate and nominate suitable candidates both female and male, for this vacancy. It should be emphasized in this connection that experts are engaged in duties which consist in the transfer of knowledge, techniques and aptitudes. Success in their assignment depends as much on their expressive skills, their empathy with and sensitivity to the needs, particularities and values of the host country, as on their academic background and professional competence..

(a) Advice and assistance in the preparation of cases for hearing before the magistrate courts, appeal board, high court and appeal court.

(b) Advice and assistance in researching legal problems and preparing legal opinions.

(c) The holding of seminars for the legal officers to discuss and resolve tax problems and cases.

(3) The expert will submit to the United Nations a final report, setting out the findings of his mission and his recommendations to the government on further actions which might be taken.

*Qualifications.*—Qualified advocate or barrister-at-law in a Commonwealth jurisdiction with considerable practical court experience in the field of taxation. A master's degree in law is desirable, though not compulsory.

*Language.*—English.

*Background information:*

The board of inland revenue is a division of the ministry of finance and planning. It is comprised of three (3) commissioners, one of whom is the chairman. It is responsible for administering the laws relating to income tax, corporation tax, stamp duty, land and building taxes and a number of miscellaneous taxes and levies.

The board of inland revenue of the ministry of finance and planning has recently recruited additional staff for its legal section. Some of these officers have had little training in the practice of law. These lawyers are required to represent the board of inland revenue before the tax appeal board, the high court and the court of appeal. There are at present five hundred appeals before the tax appeal board. The OPAS tax lawyer will therefore be required to provide all necessary practical training for such legal staff.

The United Nations would welcome the participation of suitably qualified male and female candidates in the technical co-operation programmes. The recipients of this job description are, therefore urged to make every effort to locate and nominate suitable candidates both female and male, for this vacancy. It should be emphasized in this connection that experts are engaged in duties which consist in the transfer of knowledge, techniques and aptitudes. Success in their assignment depends as much on their expressive skills, their empathy with and sensitivity to the needs, particularities and values of the host country, as on their academic background and professional competence..

The recipients of this job description are therefore urged to make every effort to locate and nominate suitable candidates both female and male for this vacancy. It should be emphasized in this connection that experts are engaged in duties which consist in the transfer of knowledge, techniques and aptitudes. Success in their assignment depends as much on their expressive skills, their empathy with and sensitivity to the needs, particularities and values of the host country, as on their academic background and professional competence.

## GAZETTE NOTICE No. 352

THE TRADE MARKS ACT  
(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this gazette, lodge notice of opposition on form TM. No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in part A of the register are shown with the official number unaccompanied by any letter. Application for part B are distinguished by the letter B prefixed to the official number.

## THE TRADE MARKS ACT

(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this gazette, lodge notice of opposition on form TM. No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may

direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

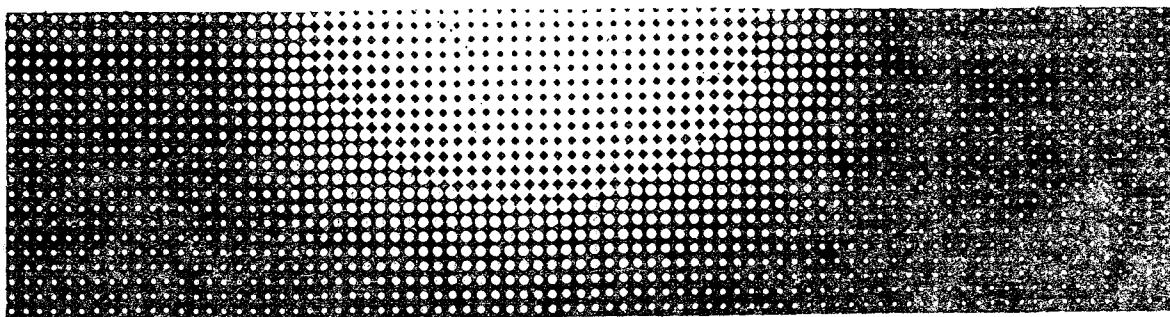

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.
