THE INDUSTRIAL COURT

CAUSE NO. 57 OF 1982

Parties:

Kenya Chemical Workers' Union

and

Ceramic Industries of East Africa Ltd.

Issue in dispute:

Wrongful termination/dismissal of Mr. Alfred Asina.

THE Kenya Chemical Workers' Union shall hereinafter be referred to as the Claimants and Ceramic Industries of East Africa Ltd. shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on 21st January, 1983 and relied on their written and verbal submissions. The Respondents also called Mr. I. N. Baka to give evidence on oath.

AWARD

3. The Notification of Dispute Form "A" dated 9th September, 1980 duly signed by the parties was received by the court on 5th July, 1982 together with the statutory certificates signed by the Minister for Labour and the Labour Commissioner.

The grievant, Mr. Asina, had worked for the Respondents from 3rd March, 1973 until 8th October, 1979 when his services were terminated. The immediate reason for dismissal was that he had insufficiently loaded the kiln as a result of which the kiln was put in operation well below its capacity.

The Claimants reported a trade dispute to the Minister for Labour and the ministry appointed an investigator whose findings and recommendation were conveyed to the parties on 23rd June, 1980 as follows:

"Mr. Asina had been issued with three warning letters. The company agreed to pay him for days worked, annual leave and accumulated and leave travelling allowance. Mr. Wachira who was mentioned by Mr. Asina was not available for interview as he had left the company. Both parties accepted the fact that Asina had three valid warnings on his record and as stipulated in the parties' collective agreement he deserved to have his services terminated.

In view of the above findings Asina had himself to blame and the management's action was justified."

The Claimants did not accept these and brought the matter to the Industrial Court.

The only point which the Claimants put forward during the hearing was that the action taken by the Respondents was unlawful because the warning procedure as specified in the collective agreement had not been followed particularly in that the union was not informed of the warning letters as no copies were sent to them. They also argued that no employment card had been kept by the Respondents which led one to believe that no warnings had been given to Asina previously. They further argued that the warnings had been fabricated and asked for him to be given the benefit of doubt.

The court notes that although the grievant was in court he was not called by the Claimants to give evidence on oath whereas the Respondents called Mr. Baka, their production manager, to explain that Asina had underloaded a kiln by leaving one and half bench empty despite the fact that he had items which could have been put in. This is considered a very serious offence because so much energy is used and the Respondents as a result wasted a bench and a half.

Mr. Baka also produced the employment record sheet of this worker which he explained was kept in the registry and on which entries were made by the registry clerk from copies of the documents that were sent there. On this record it is clearly recorded that he was given a first warning in December, 1978 for being absent, another warning in March for poor workmanship and a third warning letter in September, 1979 for loitering.

This evidence coupled with the Claimants' own submission to the investigator that Mr. Asina had been given two warning letters leaves the court in no doubt that these warning letters had been issued for valid reasons. Mr. Baka clearly stated on oath that the third warning letter which he had signed with the assistant manager, Mr. Muchero, had been sent to the shop steward in addition to the managing director and works manager. The court notes that the warning letter of 9th March, 1979 which is headed second warning and again signed by two officers had also been copied to the managing director, works manager and the shop steward.

The court has carefully considered the parties' submissions and the evidence in support thereof and finds that it must uphold the Ministry's findings and recommendation. The court is not prepared to accept the Claimants' submission that their representative who represented them during investigations was not competent. The court accordingly rejects the Claimant's demand. Asina is entitled to only pay for days worked, accrued leave and leave travelling allowance less any lawful deductions. The Respondents should pay him his dues forthwith if they have not done so.

Given in Nairobi the 9th February, 1983.

THE INDUSTRIAL COURT

CAUSE NO. 77 OF 1982

Parties:

Railways & Harbours Union (Kenya)
and
Kenya Railways

Issue in dispute:

Duty allowance to F. Thande.

THE Railways & Harbours Union (Kenya) shall hereinafter be referred to as the Claimants and Kenya Railways shall hereinafter be referred to as the Respondents.

2. The parties were heard in Nairobi on 23rd November, 1982, and 10th, 11th and 12th January, 1983, and relied on their written and verbal submissions. The Claimants also called the following witnesses to give evidence on oath:

J. O. Mudhune.
M. Arshad.
G. K. Guchu.
W. N. S. Ranote.
P. Ouma.
F. W. Waweru.
F. Thande.

AWARD

3. The Notification of Dispute Form "A" dated 29th January, 1982, duly signed by the parties was received by the court on 22nd July together with the statutory certificate signed by the Labour Commissioner.

This dispute concerns Mr. Thande who is draughtsman employed by the Respondents, and who is claiming duty allowance as follows:

"January 1972 to July 1975	9,632.70
July 1975 to July 1977	4,672.80
July 1977 to 31st December, 1978	3,326.40
January 1979 to 31st December, 1980	5,940.00
January 1981 to 31st October, 1982	11,325.60
			<hr/>
			34,897.50"

This amount represents a duty allowance calculated at the rate of 33 per cent of the difference between Mr. Thande's salary and the architect's minimum salary at the various stages.

It is claimed on his behalf that although he was a draughtsman in the land planning office of the district civil engineer he performed some functions of an assistant architect which post had remained vacant for a considerable number of years despite it being on the establishment for the Nairobi District.

The Respondents have vigorously denied this claim and have stated that Mr. Thande performed duties which were consistent with his job of a draughtsman.

It is not disputed that in the District Engineer's Office, Nairobi there used to be an assistant architect who was an expatriate up to 1972. This post then fell vacant up to 1977 when another expatriate came to this office for two years after which it is vacant up to now. It should be noted that in the other railway districts like Mombasa and Nakuru there was never at any time an assistant architect working at the district level. So Nairobi in that respect was definitely on a different footing.

The court would now like to examine the job contents of Mr. Thande's post as a draughtsman and those of an assistant architect:

"Draughtsman grade RB II—Nairobi Engineering District (NED):

- (a) Plotting and tracing surveys.
- (b) Keeping records and filing private drawings for godowns and industrial area.
- (c) Bringing plans up to date and preparing completion plans.
- (d) Registering and filing drawings for station yards, layout, buildings, bridges etc.
- (e) Checking sketches prepared by other tracers.

He produces working drawings based on designs and sketches prepared by an architect who in his case is supposed to be the architectural assistant grade RA whose post is vacant.

Assistant architect (NED):

Design of buildings such as staff quarters, offices, shops, lavatories, sewer connections, station buildings, workshops, follow up of prepared plans with N.C.C. departments such as Medical Officer of Health, Building Survey Section, Planning Section, Sewer and Water Section etc."

The Claimants called several witnesses who were all to some extent fairly senior officers working for the Respondents. The court clearly formed the impression that during their evidence they displayed a decided bias in favour of the Respondents which is evident from the nil cross-examination of most of them by the Respondents. The court appreciates the Claimants' difficulties in a case of this nature to prove their claim. There are, however, two significant documents to which the Respondents could not give a satisfactory explanation notwithstanding the fact that Mr. Guchu, the district civil engineer in 1978, tried to wriggle out of a letter he had written on 1st July by saying that he had signed it without checking that he was being misled by the person who had drafted it. The court does not accept Mr. Guchu's explanation and finds that he was aware of the contents of the letter and that what he signed depicted the true picture of what was going on at the time. This letter reads:

"Duty allowance—Mr. Thande—Draughtsman grade RB II C/No. 59772

Mr. Thande has claimed payment of duty allowance against post NED/4A of Assistant Architect grade RA from 19th May, 1971 to 6th February, 1976 when the post remained vacant and again from 5th February, 1978 up to date and I forward his self-explanatory letter dated 18th May, 1978 for your disposal.

I confirm that Mr. Thande covered part of the duties normally carried out by the Assistant Architect such as preparing detail drawings for small buildings and for extensions; alterations and preparations to existing building etc. In the circumstances I recommend that his application be given due consideration."

In addition to this Mr. Arshad who was the district civil engineer in February 1976 while trying for upgrading of the draughtsman's post stated in his letter that for the last four years or so Mr. Thande had been involved in preparing drawings for alterations and modifications to existing buildings.

The court is satisfied on the evidence given by Mr. Thande that he did perform certain special duties which were beyond his normal scope as that of a draughtsman. The court accepts Mr. Thande's evidence on this point because the court feels that all his long experience although the engineers accepted the responsibility of the various plans by signing them as Mr. Thande was not a qualified architect. The court is also satisfied that Mr. Thande used to pursue these plans even at the Nairobi City Council officers where he had discussions with the various officials and made the necessary alterations before the plans were approved.

The court has carefully considered the legal implications with the relevant acts covering architects and finds that they do not act as a bar against this claim of Mr. Thande because the district civil engineer was the person officially responsible for the plans as he signed them. But the fact remains that Mr. Thande was performing the duties beyond the scope of his post.

The court notes that Mr. Thande raised this claim for the first time in 1978 and while giving evidence he stated that his work load increased about two years ago. In view of this the court, while accepting the Claimants' submissions in this dispute, is of the view that it would not be proper to allow Mr. Thande's claim to be backdated prior to 5th February, 1978.

Staff regulation E2 (a) on duty allowance reads:

"A duty allowance may at the discretion of the general manager be granted to an employee in respect of the performance of special duties. Such allowance will not normally be payable when the employee is on leave or sick or in any other case where he is not actually performing the special duties."

This staff regulation gives the general manager a discretion in the payment of duty allowance which he has exercised against Mr. Thande. The court, has come to the conclusion that the general manager's discretion has been exercised most unreasonably in this case and the court accordingly awards that Mr. Thande is entitled to a duty allowance for having performed special duties beyond his normal scope of work. Further keeping in view the background of this dispute and in order to protect Mr. Thande against any undue denial of his just rights the court has decided to award that the duty allowance to which he is entitled is 33 per cent of the difference between his salary and that of an architect's minimum salary at the various times during which he performed these special duties.

After careful consideration of all the submissions the court awards that Mr. Thande should be paid a duty allowance for the period between 5th February, 1978 to December, 1982 as he has now been transferred to Mombasa District. The court directs that the Claimants and the Respondents should get together and work out Mr. Thande's dues in accordance with the court award.

Given in Nairobi on the 8th February, 1983.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. TO THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette*, *Supplements*, etc.:

- (1) The *Kenya Gazette* contains notices of a general nature which do not affect legislation. They are therefore submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the notice or Act, each page being numbered, and should be typewritten with double spacing. Copy should be clear, legible and contain a minimum of alterations.

Particular attention should be paid to the following points:

- (i) Signatures must be clarified by means of rubber-stamping or typing the name of the signer in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.
