## GAZETTE NOTICE No. 3567

## THE INDUSTRIAL COURT

CAUSE NO. 59 OF 1983

Parties:

Transport and Allied Workers' Union  
 and

Kenya Bus Services and Kenya Bus Services (Mombasa) Ltd.  
*Issue in dispute:*

Interpretation of public holiday overtime payment (article 4.1.2 of current bargaining agreement).

THE Transport and Allied Workers' Union shall hereinafter be referred to as the claimants and Kenya Bus Services and Kenya Bus Services (Mombasa) Ltd. shall hereinafter be referred to as the respondents.

2. The parties were heard in Nairobi, on 18th October, 1983, and 14th May, 1984, and relied on their written and verbal submission.

**AWARD**

3. The Notification of Dispute Form "A" dated 8th March, 1983, duly signed by the parties was received by the court on 10th June, together with the statutory certificate signed by the Labour Commissioner.

The parties have had an overtime clause in their collective agreement for many years which partly reads as follows:

"4.1.1 for hours worked in excess of 45 hrs. per week a sum additional to the basic hourly rate which is equal to one half of the basic hourly rate i.e. time plus one half."

4.1.2 An employee required to work by the company on his rostered rest day or gazetted public holiday will be paid double time i.e. time plus time."

Sometimes in 1982 the respondents took certain steps to rectify what they alleged was a discrepancy in the payment of overtime which had resulted in payment of excessive overtime to their employees. This naturally resulted in the respondents' employees earnings dropping below the average which they used to earn prior to this rectification of the discrepancy.

The claimants took up the matter on behalf of their members and are contesting the adoption of the new method of working out overtime by the respondents and have alleged that the respondents are violating clause 4 (1) (2) of the collective agreement. They maintained that the workers are being grossly underpaid for overtime worked either on their rest days or public holidays. They accused the respondents of having breached the collective agreement by unilaterally revising their mode of calculation on overtime payment since April, 1982.

The respondents' contention is, or at least that is what they argued when the hearing of this dispute commenced, that they had been paying triple rates on overtime as far back as 1970 and it was not until early 1982 that they discovered their error and decided to rectify it from April, 1982. They added that since it was impossible to establish how or when the erroneous practice had started they had decided not to ask the employees to refund the money they had unjustifiably received in form of overtime payment. They argued that employees who worked either on rest days or public holidays shall have wages for that calculated at a double rate as the law does not state that an employee who works on gazetted public holidays would be paid in addition to the basic pay at double the time worked.

The court asked the Division of Manpower Planning and Development to carry out a factual investigation into this question of overtime at the respondents' undertaking and their report reveals that there is no documentary evidence to support triple payments as alleged by the respondents.

The court must express its astonishment that the parties should have been so confused especially the respondents with all their qualified accountants to allege that they were paying triple overtime payment to their employees. The court is constrained to express the view that it was incredible that with all the qualified accountants at the disposal of the respondents they should have made such a glaring error. As it turned out after the investigation they were not paying triple time! What they have as a matter of fact started doing from April, 1982, is that they have started applying the make up principle, that is workers' 45 hours per week are deducted from their total number of hours worked in that week and the balance of extra hours are paid by way of overtime at the higher rate of one and a half or double time. The court wonders why they did not from the very beginning disclose this instead of saying that the claimants were demanding triple time. It is only after the D.M.P.D. investigation that the respondents have now put forward the real change that they have brought about from April, 1982.

The court is satisfied that in most cases 45 hours per week are not met at the end of the week due to the respondents' duty roster/scheduling although the claimants' members are supposed to work 7.5 hours per day or a total of 45 hours a week.

The report also reveals that some workers who worked on either rest days or public holidays in different months from 1978 to 1981 were underpaid although the workers did not realize the underpayment.

The court finds it established that the method of calculating overtime payments prior to April, 1982, had been in operation for over ten years and the workers had naturally got used to fairly high monthly earnings especially when they worked on rest days or public holidays. This the respondents did although the overtime clause read exactly as it reads today.

The court finds that the collective agreement clause on overtime is quite clear and the respondents having interpreted it and implemented it in a manner which benefited the workers somewhat more it should be taken to mean that the respondents intended to remunerate workers in such a manner. The respondents having done so over ten years are clearly in the wrong in changing that system unilaterally and had it not been for industrial relations machinery having been set up in the country, they would have faced very serious industrial unrest by depriving the workers the benefits that they had enjoyed for over ten years. This practice has been in operation for such a long time that it can be deemed to be part and parcel of the relevant clause in the collective agreement.

The court has applied its mind very carefully to this dispute and finds that the claimants have a good case in that the respondents were wrong in bringing about changes from April, 1982, without embarking upon negotiations with the claimants. The court accordingly directs that the respondents should revert back to the system of overtime payments which they had adopted for over ten years, with effect from April, 1982, when they changed it and remunerate the workers affected according to the old system. The court further directs that they should continue with the old method of overtime payment until such time as they negotiate this issue with the claimants which will then be incorporated in the next collective agreement.

The parties will be at liberty to seek the assistance of Mr. Wangia of the D.M.P.D. if need be while calculating the arrears due to the workers.

The court would like to clarify that its award is not to change in any way the system of overtime payment which was being operated by both the respondents prior to April, 1982.

Given in Nairobi the 10th September, 1984.

## GAZETTE NOTICE NO. 3570

## THE TRADE MARKS ACT

(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form TM. No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified, it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in part A of the register are shown with the official number unaccompanied by any letter. Applications for part B are distinguished by the letter B prefixed to the official number.

The three applications appearing hereunder are proceeding in the name of UNIVERSAL INDUSTRIES LIMITED, manufacturers, of P.O. Box 44121, Nairobi.

## GAZETTE NOTICE No. 3627

**THE TRADE MARKS ACT**  
(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form TM. No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified, it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in part A of the register are shown with the official number unaccompanied by any letter. Applications for part B are distinguished by the letter B prefixed to the official number.
