## FEDERATION OF BRITISH INDUSTRIES

## OVERSEAS SCHOLARSHIPS FOR ENGINEERING CANDIDATES

APPLICATIONS are invited for the award of scholarships which form part of a scheme instituted by the Federation of British Industries to provide graduate engineers from overseas with practical training in industrial establishments in the United Kingdom.

The scholarships offered by the Federation are of three types:—

**Type A.**—For recently graduated engineers. They provide training for two years and living expenses at the rate of £476 per annum, free of income tax. They also cover the cost of travel to and from the United Kingdom. They are awarded to candidates of special merit, who would otherwise be unable to take advantage of the training facilities offered.

**Type B.**—Also for recently graduated engineers. They provide training for two years and living expenses at the rate of £476 per annum free of income tax, but do not cover the cost of travel to the United Kingdom. Successful candidates are required to pay their passages to Britain, and to deposit in advance the cost of their homeward passages.

**Type C.**—For more experienced applicants. They provide training from six to 12 months and the major part of living expenses. They are designed for the benefit of practising engineers whose employers, whether public or private organizations or Government Departments, are willing to release them temporarily, and support their applications. Successful candidates are required to contribute to their maintenance at the rate of £100 a year. They are also required to pay their passages to the United Kingdom and to deposit in advance the cost of their homeward passages. They receive maintenance payments from the Federation at the rate of £450 per annum, free of income tax.

APPLICATIONS for Kenya Government (European, Asian and Goan) bursaries for 1961/62 should reach the Director of Education, P O Box 30040, Nairobi, not later than 31st March 1961, or, in the case of candidates not resident in Kenya, by 15th March, 1961. Applications received after these closing dates cannot be considered. Forms of application can be obtained from the Education Department.

Assistance will be limited to the children of parents domiciled in Kenya who have resided continuously in the Colony for a minimum period of five years. Absence from the Colony for the purpose of health or holidays will not be deemed to break the continuous residence, provided that the total period of absence during the five years does not exceed two years. Candidates for bursaries must have completed five years' continuous attendance at a school or schools in Kenya, and preference will be given to those who have received the greater part of their education in the Colony. The candidate's parents or guardian is required to make a written declaration of his financial position.

Candidates must hold the minimum entrance requirements for the course they wish to undertake. It should be noted that for entry to a British University, the General Certificate of Education with certain subjects at advanced level, or an equivalent standard is the Overseas Higher Certificate, is now essential. As there is keen competition for these bursaries only candidates with extremely good qualifications are likely to succeed, and for courses useful in the development of Kenya.

Parents of present bursars are reminded that applications for renewals or extensions of existing bursaries should be made not later than 31st March, 1961, and should include a note on any changed financial circumstances in the family.
