(No. 56 of 1951)

IN TERMS of section 153 of the Water Ordinance Kisauni Limited, being a water undertaker for the purposes of the Ordinance, has made the following Regulations with the approval of the Minister.

These Regulations will come into force on 15th January, 1959.

REGULATIONS COVERING WATER SUPPLIES MAINTAINED BY
KISAUNI LIMITED

1. The Water (Undertakers) Rules, 1953, published under the Water Ordinance, 1951, and any amendments or additions thereto shall apply to the water undertaking operated by Kisauni Limited.

2. Pending the completion of new agreements, all consumers who continue to take a supply of water shall be deemed to have accepted these Regulations which have been approved by the Minister for Agriculture, Animal Husbandry and Water Resources.

3. The Water Undertaker, upon application being received and duly accepted on the prescribed form and on payment of the estimated cost of the connexion being received in advance, will provide and lay a communication pipe with the necessary fittings from the main to a point on the plot selected by the Water Undertaker with the concurrence of the applicant for the installation of the meter.

If the actual cost of the works is greater than the estimated cost, the consumer will be required to pay the difference. If the actual cost is less than the estimated cost the Water Undertaker will refund the difference. The portion of the communication pipe so laid shall be the property of and shall be maintained free of charge by the Water Undertaker.

4. The right to the use of water supplies is limited to that required for the use of persons habitually occupying the said premises and for the requirements of the consumer's trade occupation. Water may not be conveyed by any means whatever for use outside the premises for which the connexion has been authorized and water may not be resold whether on or off the said premises unless permission has been given by the Water Undertaker.

5. The consumer shall be responsible for maintaining in good and efficient repair the portion of his installation which is not a communication pipe, i.e. the service pipe and all fittings and pipe on the consumer's side of the meter.

6. In the event of damages being caused to a third party by reason of the service pipe or other works of the consumer being out of repair or from other cause, the Water Undertaker accepts no responsibility.

8. The Water Undertaker shall have the right to inspect the service pipe and other works connected therewith, but such inspection shall be made, unless there is reason to the contrary, between the hours of 7 a.m. and 4 p.m. In the event of the consumer's portion of the installation being found to be out of repair and not repaired after reasonable notice has been given, the Water Undertaker reserves the right to cut off the water.

9. Consumers when vacating premises are required to inform the Water Undertaker so that water may be cut off at the premises when the consumer is leaving otherwise consumers will be charged until such time as the Water Undertaker shall have been informed.

10. The consumer engages to inform the Water Undertaker if the supply to him is used or required for any other than domestic or trade occupation purposes pertaining to the persons habitually occupying the premises.

11. In any case where a fire hydrant exists on any premises and the consumer is supplied with means of opening the same, the quantity of water taken therefrom will be assessed by the Water Undertaker, at its sole discretion, and a charge may be made at current rates for the water used.

12. Unauthorized opening of a fire hydrant is prohibited except in case of fire in the immediate vicinity and for use in extinguishing the same or for testing of fire hydrants by the Fire Authority.
