## THE ELECTRIC POWER ACT

(Cap 314)

THE KENYA POWER AND LIGHTING COMPANY  
LIMITEDA REPRESENTATION AND AN APPLICATION TO INTRODUCE  
NEW METHODS OF CHARGE BY-LAWS TO ALL  
AREAS SUPPLIED BY THE LICENSEE

NOTICE is given to all whom it may concern that the Kenya Power and Lighting Company Limited a limited liability company incorporated in the Republic of Kenya, having its registered office at Electricity House, Harambee Avenue, P O Box 30099, Nairobi (the licensee), intends on 29th April, 1996, to make a representation to the Minister for Energy under section 72 of the Electric Power Act, that the maximum prices and methods of charge ought to be altered and an application to the Minister for Energy under section 149 of the Electric Power Act for approval by him of proposed by-laws to be known as the "Methods of Charge (KPLC) By-laws 1996" which if and when approved, will revoke the current Methods of Charge (KPLC) By-laws, 1994

The Kenya Power and Lighting Company Limited (KPLC) purchases power in bulk from the Kenya Power Company Limited (KPC) and Tana River Development Company Limited (TRDC). The price which KPLC pays represents the total financial requirements of KPC and TRDC comprising their operating and maintenance costs the cost of debt service in respect of their existing generating and transmission facilities and local costs of their power development projects. KPLC also purchases electricity generated at Masinga, Kiambere and Turkwel power stations In addition to these

costs of power purchases, K.P L C has to meet the costs relating to operation and maintenance, debt service and rehabilitation of generating, transmission and distribution facilities which it currently owns

The average growth in demand for electricity in the last ten (10) years has been about 6 per cent per year and it is projected that this growth rate will be sustained in the medium and long-term period. To meet this growth in demand, the power industry will be required to construct additional generation, transmission, transformation and distribution facilities as well as continue rehabilitating the existing ones. The current five (5) years' expansion programme for the power industry, excluding projects to be developed by independent power producers requires a total investment amounting to approximately US \$768 million (KSh 42 billion), out of which about US \$230 million (KSh 13 billion) is expected to be raised by K P L C. The balance will be raised from external sources.

The object of and reasons for the representation and the application are as follows:

Firstly, to achieve an overall increase in revenue which is necessary to meet rising operational costs as a result of local and foreign inflation, as well as to sustain the implementation of the expansion programme.

Secondly, to make the tariff structure and price levels more reflective of the cost of supply to each category of consumers. At present, tariff levels of various categories of consumers have in some cases not kept pace with the corresponding economic cost of supply and such consumers have been enjoying subsidies.

Thirdly, to reflect in the base figures for fuel oil cost adjustment formula the actual past performance.

Fourthly, in view of the impact of currency fluctuations on the financial performance of the power industry and the fact that changes in the foreign debt service costs are outside

the control of the industry, it is intended that a formula be introduced in the by-laws to facilitate automatic adjustment to the price of electricity to take account of changes in the cost of servicing loans denominated in foreign currencies due to exchange rate fluctuations.

The effect of the minister's approval of our representation and application will be an average tariff increase of 13 per cent ranging from 0 per cent to 40.3 per cent on all categories of consumers with a provision for adjustments, to reflect changes in the cost of servicing the industry's foreign loans due to exchange rate fluctuations.

Details of the proposed tariff structure are contained in the proposed "Methods of Charge (K P L C) By laws, 1996". These have been deposited at the offices of the licensee and are open to the public inspection during normal office hours without payment. Copies of the proposed by-laws may be purchased at the offices of the licensee at a price of Sh 10 per copy.

Any public or local authority, company, person or body of persons desirous of making any representation on or objection to the representation and application must do so by letter addressed to the Minister for Energy and marked on the envelop "Electric Power Act" on or before the expiration of fourteen (14) days from the date of the application and must forward a copy of such representation or objection to the applicant.

Dated the 12th April, 1996

Managing Director

GAZETTE NOTICE No 2288

**THE TRADE MARKS ACT**  
(Cap 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within sixty (60) days from the date of this Gazette, lodge notice of opposition on form TM No 6 (in duplicate) together with a fee of KSh. 1,500 (local applications) or US\$ 75 (foreign applications).

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if any when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Registration of the marks advertised herein can be seen at the Trade Marks Registry, Kenya House, Nairobi Street, Nairobi.

Applications for registration in part A of the register are shown with the official number unaccompanied by any letter. Applications for part B are distinguished by the letter B prefixed to the official number.
