**Interest in  
property of  
spouse and  
issue of

**Re-registration  
of births of  
legitimated  
persons.**

(3) The provisions contained in the Schedule to this Ordinance shall have effect with respect to the re-registration of the birth of legitimated persons.

**4.** (1) A person claiming that he or his parent or any remoter ancestor became or has become a legitimated person may, whether domiciled in this Colony or elsewhere and whether a natural-born British subject or not, apply by petition to the Supreme Court praying for a decree declaring that the petitioner is the legitimate child of his parents, and the Supreme Court shall have jurisdiction to hear and determine such application and to make such decree declaratory of the legitimacy or illegitimacy of such person as to the Court may seem just; and such decree shall be binding to all intents and purposes on His Majesty and on all persons whomsoever.

Declarations  
of legitimacy  
of legitimated  
persons.

to persons  
legitimated by  
extraneous law.**

12. The Director of Agriculture may permit the admission into the Colony for scientific purposes of any plant seed, pest or disease.

6. Except under a permit signed by the Director first obtained and in accordance with any special conditions which may be stated on such permit the importation into the Colony is prohibited of coffee plants, whether living or dead, coffee beans or coffee (except roasted coffee beans, ground coffee and coffee extract).

7. The provisions of the last preceding Rule shall not apply to :—

(1) Coffee plants, coffee beans and coffee imported for transit through the Colony which may be so imported subject to the following conditions :—

(a) Coffee plants, coffee beans and coffee must be securely packed in cases or in sound bags of substantial sacking securely sewn with overlapping edges to the satisfaction of the Director.

(b) Every case or cover containing such plant, bean or coffee, must clearly show by prominent and legible markers thereon the country of origin and the place of importation into the Colony, and no such case or cover shall thereafter be opened within the Colony, except at a godown or cleaning mill licensed for that purpose by the Director.

(c) Should any case or cover containing such plants, beans or coffee become so damaged in course of transit through the Colony as to render it possible for any such plant, bean or coffee or any part thereof to escape therefrom, such case or cover or any such plant, bean or coffee therein or therefrom may, at the discretion of the Director, be destroyed. No compensation shall be payable in respect of such destruction.

(2) Trade samples of coffee beans or coffee not exceeding one half-pound in weight, imported through the Department of Agriculture.

(3) Trade samples consigned to merchants in Mombasa and Kilindini under the following conditions:—

- (a) That such samples be registered on arrival and kept under such conditions as the Director may think fit.
- (b) That all such samples be either despatched by post to a destination outside the Colony or if not further required for trade purposes handed to an inspector for destruction.

(4) Any coffee plant, coffee beans or coffee imported in contravention of this and the last preceding Rule shall be liable to be detained and destroyed or otherwise dealt with as the Director may direct.

#### INSPECTION OF LAND WHERE COFFEE IS GROWING.

8. An inspector may, at any reasonable time, enter upon any lands, on which he has reason to believe that any coffee bush is growing, for the purpose of inspecting the same.

9. Whenever an inspector shall consider that any coffee bush is infected with any pest or disease or that the condition of any coffee bush or the state of any land on which any coffee bush is growing is such as may give rise to any pest or disease he may—

- (a) if such land is occupied, require, in writing, the owner or occupier thereof to take such action with regard to such land or any coffee bush or bushes thereon as he may consider necessary or advisable to control or eradicate any such pest or disease, or to prevent the spread of such pest or disease; or
- (b) if such land is unoccupied or appears to such inspector to be unoccupied, treat or destroy any or all coffee bushes thereon in such manner as to him may seem necessary or advisable.

10. (1) Whenever under the powers conferred by Rule 9 an inspector shall require an owner or occupier to take any particular action with regard to any land or coffee bush thereon, he shall specify such period as to him may seem reasonable within which such action shall be completed.

(2) If such owner or occupier shall fail to carry out such requisition the inspector may cause such treatment or destruction to be carried out at the expense of the owner or occupier.

(3) Service of such requisition sent by post to such owner or occupier (or to the manager or person appearing to such inspector to be the manager of such land) shall be deemed to be good service upon the said owner or occupier.

(4) When a requisition is to be applied to a whole district or locality and the Director is satisfied that considerable difficulty would be experienced in serving individual notices on owners, occupiers or managers, it shall be sufficient prominently to exhibit such requisition at the post office or post offices normally serving such locality and to publish such requisition in a newspaper circulating in the area, and in the Gazette.

11. The Director may divide each district where coffee is grown into groups and may number such groups. Each group shall embrace plantations of coffee under similar climatic conditions and the Director may place each farm in such group as appears to him suitable.

12. Each separate coffee plantation shall, where practicable, be included in a group and it shall be the duty of the owner of such plantation to ensure that his plantation is included in its appropriate group.

13. All the coffee of the terminating crop shall be stripped from the trees and such stripping shall be completed not later than a date which may be notified by the Director for each group: Provided that the Director may vary the date for an individual plantation if he is satisfied on representations made that good reason is shown therefor and that the Director may from time to time define for each group the meaning of the words "terminating crop."

14. Before the date notified for the completion of stripping, all coffee of any description including coffee lying on the ground in the plantation, around the factory, pulping station or drying ground, except coffee permitted under Rule 13, to remain on the trees, shall be collected. All coffee collected as aforesaid shall be disposed of within thirty days of the date notified, either through the normal commercial channels or by burning: Provided that all coffee infected with *Stephanoderes* (coffee bean borer) and/or the longicorn beetle *Sophronica* sp. shall forthwith be either burned or otherwise treated as ordered by the inspector and all *Stephanoderes* and/or *Sophronica* beetles, larvæ, pupæ and viable eggs shall be destroyed.

15. All loose coffee of every description on or near railway stations, godowns, cleaning mills and on or near any other place where coffee may be spilled, shall be collected and burnt regularly before the first day of each month. Failure to do so shall constitute an offence under these Rules on the part of the person in charge of such station, godown, mill or other place.

16. No person shall apply any coffee pulp or other coffee refuse to land on which any coffee plant is growing until such pulp has been rotted for such length of time as will ensure the death of any living *Stephanoderes* beetles and the destruction of any eggs present in such refuse.

17. No person shall dispose of any coffee for seed purposes unless such coffee shall have been inspected and certified as free from pests and diseases by an inspector authorized in that behalf by the Director. Each bag or container shall be sealed on being certified as aforesaid.

18. No person shall move any coffee from the plantation on which it was grown to any warehouse or other place and no person shall receive into any warehouse or other place any coffee so moved unless—

- (1) such warehouse or other place is licensed for that purpose in accordance with the provisions of these Rules; or
- (2) a permit for such movement has been granted by the Director or other person authorized by him in that behalf:

Provided that—

- (a) coffee being despatched to a licensed warehouse or other place, or coffee intended for immediate export, may be delivered for such purpose at a railway station;

(b) trade samples not exceeding  $\frac{1}{2}$  lb. in weight may be forwarded to merchants under the following conditions—

(i) that such samples be registered on arrival and kept under such conditions as the Director may think fit;

(ii) that all such samples be either despatched by post to a destination outside the Colony or if not further required for trade purposes handed to an inspector for destruction.

19. Special conditions applicable to the storage of coffee in licensed warehouses may be imposed by the Director who may also decline to licence any warehouse unless he is satisfied that such warehouse contains facilities for the treatment of coffee, and for the destruction of *Stephanoderes* and/or *Sophronica* either by fumigation or by heating or by any other method approved by the Director. All such licensed warehouses as aforesaid shall be subject to inspection at any reasonable time by an inspector.

20. If any coffee is found to be infested with *Stephanoderes* and/or *Sophronica* in a warehouse the keeper of such warehouse shall forthwith notify the Director of the fact and shall state the name of the owner of the farm from which such coffee was delivered.

21. Any coffee found to be infected with *Stephanoderes* and/or *Sophronica* during the period it is in the warehouse shall together with the bags containing it and any other coffee immediately in contact with it, be immediately effectively treated to the satisfaction of an inspector for the destruction of living *Stephanoderes* and/or *Sophronica* beetles, larvæ, pupæ and viable eggs.

22. On and after the 1st July, 1930, no coffee shall be moved from a plantation, warehouse or other place, except in new standard coffee bags, provided that coffee consigned from a plantation or a licensed warehouse for immediate export to Canada or the United States of America may be exported in new standard coffee bags or in new 28 in. x 38 in. Dundee bags.

23. A "standard coffee bag" shall be a "double warp light cee bag", measuring 40 in. x 28 in., weighing 2 lb., hemmed at mouth, 7 in. x 9 in./8 in. x 8 in.

24. Any person who without lawful excuse obstructs an inspector in the discharge of his duties under these Rules, or who refuses to carry out the instructions of an inspector in the discharge of his duties under these Rules, or who otherwise contravenes the provisions of these Rules shall be guilty of an offence and shall on conviction be liable to a fine not exceeding £100 or in default of payment thereof to imprisonment of either description for a term not exceeding three months.

25. The Diseases of Plants Prevention (Coffee) Rules, 1928, and the Diseases of Plants Prevention (Coffee) (Amendment) Rules, 1929, are hereby revoked.

By Command of His Excellency the Governor in Council.

## DEPARTMENT OF AGRICULTURE.

## LOCUST REPORT FOR TWO WEEKS ENDING 11-6-30.

ONE swarm of flying locusts was reported at the end of May in the Trans Nzoia District, but there is no indication that any damage to crops was done. At present it seems that but little danger may be expected from the locust menace in the near future.

*Northern Frontier Province.*—The District Commissioner, Marsabit, reports the complete destruction by hoppers of practically all vegetation in and near the township of Marsabit, in spite of combined efforts to combat the menace. The locusts have now reached the flying stage, and moved off in a northerly and north-easterly direction.

*Baringo.*—Hoppers in these locations have been completely destroyed. Operations are continuing in the Njemps area, both against hoppers and young flying swarms. The tendency among those locusts that have escaped destruction is to fly in a northerly direction.

*Turkana.*—The previous report of laying in North Turkana has been confirmed by the presence of hopper bands between Lake Rudolf and the Puch mountains. In South Turkana there are small scattered bands in all the stages of maturity in the Khalasata and Turkwell valleys; the natives, under the general supervision of the administrative officers, are dealing with the situation as far as they can.

TENDERS are invited under the following conditions for the purchase of the grant of an area of 10·5 acres or thereabouts situate on Mombasa Island for the purpose of the erection of an hotel:—

(1) The grant will be issued under the Registration of Titles Ordinance (Chapter 142), and will be for a term of 99 years from the 1st day of October, 1930, and the rent shall be payable from that date.

(2) The rent will be at the rate of £48 per acre per annum.

(3) The premises shall be used for an hotel and ancillary purposes only.

(4) The grantee will be required to have the plot surveyed at his own charge within 6 months of the date of acceptance of his tender.

(5) The grantee will be required to erect an hotel building of stone, burnt brick or concrete within 3 years of the commencement of the term; the sum of not less than £75,000 to be expended upon the main building of the hotel.

(6) No building shall be erected on the plot unless plans, drawings, elevations and specifications thereof shall have been previously submitted to and approved by the Commissioner of Lands or such other persons as he may appoint.

(7) The grantee shall further submit a block plan of the plot with the position of the buildings clearly defined and showing a system of drainage of the surface water on the plot which shall satisfy the Mombasa Municipal Board, and before any building may be occupied the grantee shall satisfy the Board that such system of drainage has been properly constructed.

(8) The grantee shall suitably connect his premises with any town drainage system when, in the opinion of the Mombasa Municipal Board, such drainage scheme is so far completed as to enable the grantee reasonably so to connect.

(9) No subdivision of the plot will at any time be allowed.

(10) The grantee shall within 3 years of the commencement of the term completely enclose the plot with a fence or wall of approved design.

(11) All outbuildings, offices, etc., shall be properly screened from view to the satisfaction of the Commissioner of Lands or such other person as he may appoint, and shall be kept so screened during the term of the lease.

The highest or any tender will not necessarily be accepted. Tenderers must furnish evidence of financial competency and full information in regard to their proposals for the development of the plot.

2. A plan of the plot may be seen at the office of the District Surveyor, Mombasa, or at the Public Map Office attached to the Survey and Registration Department, Nairobi, or may be obtained on application to either of these offices at the cost of Shs. 3, post free.
