NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED RESIDENTIAL APARTMENTS ON PLOT L R NO 209/8879/7 AND 8 LOCATED ALONG OLOITOKTOK ROAD IN KILELESHWA AREA, NAIROBI CITY COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Pinecrest Properties Limited proposes to construct an eighteen (18) storey (2No basements, ground floor 2No podium levels plus 18No upper floors) residential block comprising 252No Units (216No one bedroom and 36No two bedroom), 118No parking bays, gym swimming pool, associated facilities and amenities on Plot L R No 209/8879/7 and 8 located along Oloitoktok Road in Kileleshwa area Nairobi City County.

The following are the anticipated impacts and proposed mitigation measures

Impact Mitigation Measures

Soil erosion • Obtain an excavation permit before the excavation works from Nairobi City County

<i>Impact</i>	<i>Mitigation Measures</i>
Soil erosion	<ul style="list-style-type: none"> Avoid unnecessary excavations and other soil disturbances that can predispose it to the agents of erosion especially during rainy/wet conditions Use of soil erosion control structures on prone areas within the site Level the project site to reduce run-off velocity and increase infiltration of storm water into the soil
Air pollution	<ul style="list-style-type: none"> Screen the entire site to control and arrest construction related dust Regular sprinkling of water on the work areas to prevent fugitive dust violations Provision of appropriate PPE to the workers such as gas masks and goggles when working in a dusty environment Regular maintenance of the machinery to minimize the generation of hazardous gases Monitor the air quality levels as per the EMCA (Air Quality) Regulations
Noise and excessive vibrations	<ul style="list-style-type: none"> Construction activities will be carried out during day at the specified time Use of noise suppressors or silencers or noise shields on noisy equipment The contractor will endeavour to use equipment installed with noise abatement devices as much as practicable Switch off the construction machinery and vehicles when not in use Provision of appropriate PPE to the workers such as earmuffs when working in a noisy environment Monitor the noise and vibration levels at the site as per the EMCA (Noise and Excessive Vibrations) Regulations
Solid waste	<ul style="list-style-type: none"> Provision of clearly marked dustbins within the project site Segregation of waste at the source before final disposal Engage the services of a licensed waste transporter to dispose of the waste at designated disposal sites
Liquid waste	<ul style="list-style-type: none"> Channel all liquid waste to the existing trunk sewer system All manholes on drive ways and parking areas will be constructed with heavy duty covers set and double sealed airtight as approved by specialists Frequent monitoring of the internal reticulation system and ensuring that any blockages and damages are fixed expeditiously Provision of adequate and appropriate sanitary facilities to the construction workers
Water demand	<ul style="list-style-type: none"> Drill a borehole to supplement the existing NCWSC water supply Provision of adequate centralized underground tank for water storage Install water efficient fixtures/fittings that turn-off automatically when not in use Encourage water reuse/recycling during the project cycle Monitor the consumption of water on monthly basis Apply for connection permits from KPLC and EPRA as appropriate

<i>Environmental Impact</i>	<i>Mitigation Measures Proposed</i>		
Increased demand of raw materials	<ul style="list-style-type: none"> Construction materials will be sourced from licensed quarries and local suppliers who use environmentally friendly processes in their operations Accurate budgeting and estimation of 		

<i>Environmental Impact</i>	<i>Mitigation Measures Proposed</i>	<i>Environmental Impact</i>	<i>Mitigation Measures Proposed</i>
Increased energy demand	<ul style="list-style-type: none"> Sensitization of staff to conserve non-renewable fossil energy by switching off machinery and equipment when they are not being used Proper planning of transportation of materials to ensure that fossil fuels(diesel petrol) are not consumed in excessive amounts unnecessarily Monitoring energy use during construction/welding and operation and setting targets for reduction of energy use Installation and use of energy efficient welding and lighting equipment during construction and operation respectively 	Cane spillage	<ul style="list-style-type: none"> Sensitization of sugarcane loaders on proper sugarcane loading to avoid inconvenience other road users. The proponent will also institute measures of collecting all the spilled cane on the feeder roads
Occupational and public hazards and accidents	<ul style="list-style-type: none"> Provision of appropriate Personal Protective Equipment (PPE) to construction workers Barricading the construction area and appropriately and posting public warnings Provision of appropriate onsite sanitary convenience for workers Establishing emergency procedures against hazards and ensuring the workers stay aware/educated on following them and commensurate to the magnitude and type of emergency by conducting regular drills and involving the neighbouring business people Adherence to the Occupational Health and Safety rules and regulations stipulated in the Occupational Safety and Health Act, 2007 Providing firefighting equipment and in easily accessible areas as well as ensuring site personnel are well trained to use them as well as maintain them regularly 	Influx of factory workers	<ul style="list-style-type: none"> Employment priority will be given to the local people within the factory area
Increased Water demand	<ul style="list-style-type: none"> Employing water conservation techniques and only using the required amounts of water to prevent wastage Implementing water conservation techniques such as having faucets with dead man tap openers 	HIV/AIDS	<ul style="list-style-type: none"> The proponent in partnership with the Ministry of health and county government will undertake sensitization campaigns against the spread of HIV/AIDS among the factory works and with local community members
Soil disturbance and erosion	<ul style="list-style-type: none"> Levelling the disturbed site areas to reduce run-off velocity and increase infiltration of rain water into the soil Construction vehicles will be restricted to designated paths to avoid soil compaction within the proposed Project site stockpiling materials shall not be done along the road 	Exposure to Corona virus	<ul style="list-style-type: none"> The Health and Safety Officer who will be in charge of sensitization of workers on Covid 19 shall be stationed at the site Body temperatures of workers and any other personnel visiting the site shall be taken on arrival at the site and when they leave for home using non-contact infrared thermometer Administrative controls to aid in site worker separation and reducing people density shall be put in place Hand washing station shall be provided at site entrance. The station shall be supplied with soap and clean running water at all times The COVID 19 toll free number shall be displayed on site throughout construction period
Food insecurity	<ul style="list-style-type: none"> The proponent will ensure that sugarcane farming does not replace maize farming which is the main food crop in the area. the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project

The proponent Scorpio Solutions Limited, intends to develop a waste handling facility by installing an incinerator plant with a capacity to handle approximately 150kgs/hr of hazardous waste. The facility will comprise an incineration plant, waste handling and sorting yard and waste holding point on parcel Nos Ntuma/Ntakila/7535, 7404 and 7405 in Giantune Area in Imenti North Sub County Meru County

The following are the anticipated impacts and proposed mitigation measures

<i>Anticipated Impacts</i>	<i>Proposed Mitigation Measures</i>
Solid waste	<ul style="list-style-type: none"> Use of an integrated solid waste management system through a choice of options such as recycling, reuse, combustion and sanitary land filling Comprehensive biological organic matter management Ensure that construction materials left over at the end of construction are used in other projects rather than being disposed off Ensure that damaged or wasted construction materials including timber are recovered for refurbishing and use in other projects Provide facilities for proper handling and storage of construction materials to reduce the amount of waste caused by damage or exposure to the elements Purchase of delicate construction materials such as cement incrementally to ensure reduced spoilage of unused materials Use construction materials that have minimal or no packaging to avoid the generation of excessive packaging waste
Noise and vibration	<ul style="list-style-type: none"> Sensitize construction vehicle drivers and machinery operators to switch off engines of vehicles or machinery not being used, to avoid gunning of vehicle engines or boating especially when passing through sensitive areas such as churches schools residential areas and hospitals Ensure that construction machinery is kept in good condition to reduce noise generation Ensure that all generators and heavy-duty equipment are in sound proof rooms or placed in enclosures to minimize ambient noise levels The noisy construction works will entirely be planned to be during day time when most of the neighbours will be at work Use machines that are equipped with noise reduction devices such as mufflers Provide workers with ear muffs especially those working in high noise concentration areas
Adverse construction activities	<ul style="list-style-type: none"> Provide for a landscaping programme Ensure construction activities are confined to an actual demarcated area to avoid spillover effects Remove and dispose properly excess excavated soil and other wastes Rip off all compacted areas
Air quality	<ul style="list-style-type: none"> Valuation of the project to ensure that the design optimizes the use of construction materials Proper supervision of construction personnel The stack of the incinerator will be raised above 4 M high Enclosing the structures under construction with dust proof nets Using efficient machines with low emission technologies for the ones that burn fossil fuels Regular maintenance and services of machines and engines Use of clean fuels e.g unleaded and desulphurized fuels Fit a rain cap on top of the stack Fit the fuel tank with an on/off valve or tap or a simple push button valve with a spring return
Increased water demand	<ul style="list-style-type: none"> Provide information signs on means and needs to conserve water Promote re-cycling and re-use of water as much as possible Sensitize the occupants to conserve water by avoiding unnecessary wastage Detect and repair broken pipes promptly Install water storage tanks
Vegetation and animal disturbance	<ul style="list-style-type: none"> Trees should be planted at suitable locations so as to interrupt sight lines (screen planting) between the adjacent area and the development Implement an appropriate re-vegetation program to restore the site to its original status
Demand for electricity	<ul style="list-style-type: none"> Energy conservation measures to be practiced Lights to be switched off when not in use Service solar panels regularly Ensure standby generator is functional Install power meters to monitor power use
Occupational health and safety	<ul style="list-style-type: none"> Provision of PPEs to all and replacing the PPEs on wear and tear Placing readable signs alerting people of flammable hazardous petroleum materials Servicing equipment and machine to ensure efficiency Providing fire-fighting equipment Delineating fire and emergency assembly
Fire hazards and accidents	<ul style="list-style-type: none"> Keep well stocked and functional first aid box Ensure proper storage of inflammables at the site Maintain fire-fighting equipment and ensure that they are regularly inspected Create awareness among employees on proper safety measures Provide fire extinguishers near the incinerator

<i>Anticipated Impacts</i>	<i>Proposed Mitigation Measures</i>
Increased pressure on available utilities	<ul style="list-style-type: none"> Key healthcare staff should have basic training in fire control Implementing water conservation techniques Using only the required amounts of water during normal operations Creating awareness through signs of conservation of water and electricity Using natural light during the day for lighting purposes
Misuse or inability to use installed equipment	<ul style="list-style-type: none"> Provide requisite training from the beginning Have qualified personnel to handle the machinery
Incidents accidents and dangerous occurrences	<ul style="list-style-type: none"> Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSO) are in place Develop, document and display prominently an appropriate SHE policy for construction works Ensure that items are not stored/stacked against weak walls and partitions
