REGULATIONS RELATIVE TO THE MOVEMENT OF LIVE STOCK.

RULES.

Under the Diseases of Animals Ordinance, 1906.

1. No cattle or pigs may be removed from one Province, District, Farm or Place in the Protectorate to any other Province, District, Farm or place in the Protectorate without a permit on the prescribed form signed by an authorized Issuer of Permits, nor may sheep or goats be moved from one District to another without a similar permit.

2. On every such permit the exact route by which the animals are to travel, the period for which such permit holds good, and the exact destination are to be clearly stated.

No more time than is *actually necessary* to complete the journey should be allowed, and the route specified is to be one which avoids passing through any known infected area.

3. Every permit is to be made out in quadruplicate; the original to be given to the applicant; the second sent at once to the nearest authority to the destination specified; the third sent by first opportunity to Chief Veterinary Officer, Nairobi, and the fourth retained for reference.

4. All permits are issued subject to cancellation.

Issuers of Permits must keep a record of all permits issued by them, and in case of any outbreaks of disease cancel or alter permits already issued accordingly.

5. No permits to enter the Nairobi Quarantine Area can be issued except by the special authority of the Chief Veterinary Officer.

No permits from down country are to be issued to any place nearer to Nairobi than Athi River Station, and no permit to cross the Athi River to the Nairobi side of that River can be obtained except by special sanction of the Chief Veterinary Officer.

6. No permits are *on any pretext* to be granted for cattle to proceed *from down country* further *up country* than Naivasha Station, nor to cross from the Nairobi side of Naivasha a line drawn through Naivasha Station across Naivasha Lake to the South Boundary of Mr. Hitching's Farm on Naivasha Lake and that line produced to the Anglo German Boundary, nor to cross a line drawn from Naivasha Station to the Southern slopes of Mount Kinangop and then to Nyeri.

7. No permits are to be issued by Issuers of permits except for movement in the District in which they are stationed, and are never to be issued for movement in another District where another Issuer of Permits is stationed.

8. Permits to enter Native Reserves or closed Districts with cattle, or for the movement of cattle belonging to Natives can only be issued by Provincial and District Commissioners who shall first consult the nearest Veterinary Officer.

9. No "to and fro" permits are to be issued except for Transport oxen, and then no permit is to be issued for a longer period than one month at a time.

10. Internal Native Passes or permits to individuals to trade in closed Districts or Native Reserves are not to mention Live Stock of any description.

11. It is expected that Issuers of Permits before granting any permit will ascertain that the animals for which a permit is applied for, are healthy and in the case of cattle, that the number is correct.

12. In any case of doubt as to the interpretation of these rules, the nearest Veterinary Officer should be consulted.

13. No permits are necessary at the present time for the movement of any other animals than cattle and pigs. Sheep and goats may be moved without a permit within a District but must obtain a permit to move from one District to another.

14. Owners of stock travelling on permit must report at destination any deaths or any cattle disposed of en route.

15. In case of disease appearing among travelling stock the owner or person in charge must at once report it to the nearest authority; the animals are to be held up in Quarantine; and the matter immediately reported to Chief Veterinary Officer, Nairobi, and nearest Veterinary Officer.

16. Any cattle found travelling without an authorized permit of proper date and for the correct number of animals, are to be held up, and the matter reported to the nearest Police Authority who should at once communicate with the Veterinary Department.
