THE WATER ACT
(Cap 372)

**REGULATIONS MADE IN ACCORDANCE WITH THE PROVISIONS OF
THE WATER ACT (CAP 372, SECTION 143)**

RUNDA WATER LIMITED

1 The Water (Undertakers) Rules 1962, published under the Water Act 1962 shall apply to the water undertaking operated by Ruanda Water Limited (hereinafter referred to as "the Company") in so far as they are not varied by or inconsistent with these regulations.

2 The provisions concerning the supply of water by the Company to the residents of Ruanda Estate contained in the respective titles of the plots of land comprising Ruanda Estate and the covenants therein made by the Company and the assignees or transferees of the plots in question shall continue to apply in so far as they are not varied by or inconsistent with these regulations.

3 The Company, upon application being received and duly accepted and on payment of Sh 200 plus the estimated cost of the connection being received in advance will provide and lay a connection pipe from the supply water main as far as the meter, and provide the necessary ferrule connection, piping and stopcock for this work. If the actual cost of the work is greater than the estimated cost the consumer will be required to pay the difference. If the actual cost is less than the estimated cost the Company will credit the difference to the account of the consumer. In every case the Company reserves the right of determining the diameter of service pipe and taps, and the size and location of the meter, and no alteration may be made without the previous consent in writing of the company.

The section of service pipe between main and meter, together with the meter itself, is the property of the Company and subject to Regulations 6d will be maintained by the Company free of charge.

4 The consumer will be required to bear the cost of all piping and fittings in connection with his supply from the meter and will be at liberty to employ any authorized plumber to do the work from the meter or the Company may undertake to do the work, exclusive of internal fitting, if requested to do so, the owner bearing the cost.

5 All connections and plumbing work shall be subject to inspection by a servant or agent of the Company and no water will be supplied until the connections and plumbing work have been approved by the Company and the costs of any work executed by the Company and for which the consumer is liable to pay have been paid.

6 Water will be supplied on condition that—

- (a) the charge for water shall be determined by meter and shall be made every month or every three months as the Company shall think fit. Where a consumer requests disconnection of the supply a charge will be made for part of the month;
- (b) the consumer will provide, if required to do so, a suitable site, and adequate protection, for the meter;
- (c) the Company's servants or agents shall have free and unrestricted access to the meter and to all pipes and fittings on the property owned or occupied by the consumer for purposes of inspection, maintenance and repair. In the event of the consumer's portion of the installation being found to be out of repair and not repaired after reasonable notice had been given, the Company reserves the right to cut off the water supply;
- (d) the consumer will pay to the Company on demand any amount incurred by the Company in repairing damage caused to any meter, piping or apparatus of the Company on his supply or situate on land owned or occupied by him (otherwise than damage caused by fair wear and tear) even though such damage may have been caused by persons over whom the consumer has no control.

7 The use of water supplied by the Company to any premises is limited to that required for the domestic use of persons habitually occupying the said premises and any other use for which the consent of the Company had been given in writing. Water may not be conveyed by any means whatever for use outside the premises for which the connection had been authorized and water may not be resold whether on or off the said premises.

8 The Company reserves the right to cut off water without notice in the event of unauthorized connections being made to the service pipe or the meter being interfered with or in case water is being used or supplied to others than persons habitually occupying the premises to which the connection is made.

The use of mechanical devices connected directly or indirectly to the estate mains supply for the purpose of augmenting the supply of water to a particular plot or plots other than by the pressure created by the Company's own water installations, is strictly forbidden and the Company reserves the right to cut off the water supply to a consumer contravening this regulation until the offending devices are removed.

9 There shall be payable to the Company by the occupiers of any premises to which the Company supplies water the following charges—

- (a) a charge for water consumed at the rate of shilling one and cents forty-two (Sh 1/42) per thousand (1,000) litres according to the reading of the meter, payable in arrear on demand subject to a minimum charge of Sh 81 per quarter in respect of every plot to which the water supply has been connected and not discontinued;
- (b) a rent of shillings two (Sh 2) in respect of the meter for every month or part of a month in arrear on demand;
- (c) a charge of shillings ten (Sh 10) for a special reading of a meter;
- (d) a charge of shillings twenty (Sh 20) for each occasion on which the supply is discontinued at the request of a consumer and the meter read;
- (e) a charge of shillings twenty (Sh 20) of the supply is reconnected at the request of a consumer;
- (f) a charge of shillings forty (Sh 40) for reconnecting the supply after it has been discontinued as a result of the consumer's failure to pay his water charges or as a result of some other offence under the Water Act or some breach of these Regulations;
- (g) a charge of shillings forty (Sh 40) when a meter is tested at the request of a consumer. This charge shall be refunded should the test show that the meter was recording in excess of five per cent (5%) more or less than the water actually passing through it. A special minimum charge may be imposed or a special agreement may be entered into where a consumer cannot be supplied from an existing main in order to ensure a minimum economic return from a new main may have to be installed.

One month's notice in writing will be given to consumers by the Company of any change in the aforesaid rates, and such changes as may from time to time be approved by the appropriate authority will be deemed to be incorporated in these Regulations.

10 All water charges must be paid on demand. If any account is more than fourteen (14) days overdue the supply of water may be discontinued and legal proceedings may be taken for the recovery of any charges due.

11 A deposit of shillings one hundred and fifty (Sh 150), or an appropriate multiples or fraction of this sum should the Company depart from the present policy of billing consumers quarterly, shall be required from every consumer prior to connection. The deposit shall be retained by the Company for the period during which the consumer is supplied with water as a security for the payment by him of charges relating to such supply.

12 Every application and agreement for a supply shall be in the form prescribed in the Schedule to these Regulations.

13 Application will as a rule be dealt with in the order of priority of date, but the Company reserves the right of executing the work in the manner best suited to its convenience.

14 A consumer requesting disconnection of his supply and a person requesting reconnection shall give in each case seven (7) days' notice in writing to the Company of his request.

15 The Company undertakes to supply the consumer occupying the premises described in the form of application with water up to 1,100 litre, per day in so far as the pressure at the main connection will permit, but the Company shall not be liable for any failure to supply water or for any defect in the quality of the water supplied however caused.

16 Subject to the consumer observing these Regulations in all respects, the Company undertakes that the supply of water to the consumer shall not be discontinued unless it is deemed to be necessary by the Company to do so for the improvement

in the general supply and then only after notifying the consumer that the Company intends to interfere with or stop the supply. Such notification shall stipulate the period and the reason for the interference or stoppage and may be made by handbill provided that no notice shall be required if it is necessary to interfere with or stop the supply so as to enable any emergency work to be carried out and no consumer affected by such action shall have any claim against the Company.

17 The provisions of regulations 15 and 16 shall not in any way cancel the general terms and conditions of supply.

18 The consumer will be responsible for the upkeep and repair of standpipes and of any water pipes or fittings on the consumer's side of the meter and should any damage be caused to third parties by reason of the consumer's neglect to keep such standpipes, water pipes and fittings in repair, the Company will not be liable for same. Repairs to such standpipes, water pipes and fittings may, at the request of the consumer, be executed by the Company but the cost of all repairs so executed must be paid in advance by the consumer. The Company is not liable for water wasted as the result of defects on the consumer's side of the meter.

19 Consumers are required to prevent waste of water and the Company reserves the right to discontinue the supply to any premises where there is waste from any taps, storage tanks, pipes or other fittings or otherwise howsoever or wherever water is improperly used.

20 Consumers are required to provide, at their own expense, a tank or tanks to store two thousand two hundred litres (2,200) of water for each connection from the Company's water supply.

21 No water connection will be supplied by the Company to a plot of less than one acre. Where existing plots are subdivided into sub plots of one acre or more application should be made to the Company for the provision of an appropriate water connection. Consent to such an application must be had in writing from the Company and will be given at the sole discretion of the Company's Board of Directors who will be guided in their decision by the availability of water for the purpose required and will not necessarily be bound by decisions made by the Board in regard to former applications.

22 The Company reserves the right, forthwith and without notice to terminate this agreement for any breach by the consumer of the regulations contained therein.

23 Every owner of land within the area supplied by the Company, shall hold one ordinary share of shillings five hundred (Sh 500) or and in the Company for every plot of land owned by him within the area of supply. Water will not be supplied to any plot in respect of which such shares are not purchased and allotted within forty (40) days of their being offered to the plot owner.

THE INDUSTRIAL COURT CAUSE NO 24 OF 1975

Parties —

Kenya Timber & Furniture Workers' Union
and
Narandas Pitamber Furniture

Issue in dispute —

Recognition

1 The Kenya Timber & Furniture Workers' Union shall hereinafter be referred to as Claimants and Narandas Pitamber Furniture shall hereinafter be referred to as the Respondents

2 The parties were heard in Nairobi on the 6th day of August, 1975, and relied on their written and verbal submissions

AWARD

3 The Notification of Dispute Form 'A' dated 14th December, 1974, was received by the Court on 29th April, 1975, along with the statutory certificate signed by the Labour Commissioner

The Claimants are seeking recognition by the Respondents in order to be able to represent their employees, who the Claimants allege are their members, for the purposes of terms and conditions of employment and other related matters

Rule 3 of the Claimants' constitution regarding membership reads as follows —

"Membership of the Union shall be open to all employees engaged in the furniture industries, timber selling, sawmilling, furniture workshop, timber workshop, wood cutting, charcoal burning, timber felling, logging, transportation of timber, plywood production, fibreboard, pulp, paper manufacturer, particle board, storing, processing, reconversion or packing of any timber or any other work associated with furniture or timber provided such employee is above the apparent age of sixteen"

The dispute dates back to January, 1973, when the Claimants forwarded their proposals or recognition agreement to the Respondents which the Respondents undertook to study. The Respondents, however, later on refused to recognize the Claimants and the Claimants alleged that they started victimizing their employees who had joined them by terminating their services. In fact the Claimants went as far as to say that whenever a Respondents' employee joined them he was promptly dismissed

The dispute was reported to the Minister for Labour and a conciliator was appointed but due to the Respondents' intransigent attitude nothing fruitful resulted and the matter is now before the court

The Respondents are resisting the Claimants' demand on the ground that their undertaking does not fall under the furniture industry and that they only employ casual labour as and when the need arises when they have any contract work on hand

The Claimants submitted that the respondents' main business is joinery work which means the assembling of doors and wooden windows and they also make office and domestic furniture

The Claimants pointed out that all persons other than managers employed in any undertaking or part of any undertaking which consists in the carrying on for gain of one or more of the following activities fall under unionisable staff represented by their union —

- (a) The manufacture, assembling, maintenance, repair or alteration of office and domestic furniture
- (b) The manufacture, assembling, maintenance, repair or alteration of handcarts, wooden boats, doors and wooden windows"

During the hearing the Respondents denied that they had victimized any of their employees as alleged by the Claimants and stated that they paid their employees in accordance with the Government regulations and every three months a labour inspector visited their workshop, inspected their books and certified that the payments were as required by law

The Respondents further clarified that they had no real objection to recognizing the Claimants but had wanted to know more from the Claimants as to what recognition would entail. They reiterated that they employed casual workers only and on completion of work these employees were at liberty to go to work elsewhere

In view of the statement made by the Respondents during the hearing that all their employees when interviewed by a labour officer in the presence of a representative of the Claimants had denied that they were claimants' members the Court is not satisfied that the Respondents' employees are members of the Claimants. Apart from this the Court finds that the Claimants have made a good case for them to be recognized by the Respondents. In fact there are no grounds or justification for the Respondents not to do so

In view of the aforesaid points and after careful consideration of all the submissions the Court awards that the Respondents should recognize the Claimants provided the Senior Labour Officer, Coast Province, is satisfied after interviewing the Respondents' employees and after perusing the union membership documents that these employees are indeed members of the Claimants

In the event of it being proved to the Senior Labour Officer's satisfaction that the Respondents' employees are indeed the Claimants members then the Court directs that a formal recognition agreement should be drawn up and signed by the parties with the assistance of the Ministry of Labour officials without any further delay

Given in Nairobi this 13th day of September, 1975

THE TRADE MARKS ACT

(Cap 506)

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form TM No 6 (in duplicate) together with a fee of Sh 50

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office Nairobi
