**CENTRAL BANK OF KENYA**  
**ACCOUNTING POLICIES FOR THE YEAR ENDED 30TH JUNE, 2004.**

The principal accounting policies adopted in the preparation of these financial statements are set out below:

**(a) BASIS OF PREPARATION AND FORM OF PRESENTATION**

**(i) Basis of preparation**

The financial statements are prepared in accordance with and comply with International Financial Reporting Standards (IFRS). The financial statements are presented in millions of Kenya Shillings (KShs million) and are prepared under the historical cost convention except for measurement at fair value of certain investments.

The preparation of financial statements in conformity with International Accounting Standards (IAS) requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on the directors' best knowledge of current events and actions, actual results ultimately may differ from those estimates.

**(ii) Form of presentation**

In exceptional circumstances, as allowed by Section 36 of the Act, the Bank may act as the "lender of last resort" to financial institutions in difficulty in order to prevent a loss of confidence spreading through the financial system as a whole. In some cases, confidence can best be sustained if the Bank's support is disclosed only when the conditions giving rise to potential instability in the economy have improved. Although the financial effects of such operations are included in the financial statements of the Bank, these statements may not explicitly identify such support.

## (b) REVENUE RECOGNITION

Income is recognised in the period in which it is earned. Income is not accrued if its recoverability is considered doubtful. Interest income and expense are recognised in the profit and loss account for all interest bearing instruments on an accrual basis using the effective yield method based on the actual purchase price. Interest income includes coupons earned on fixed income investment and trading securities and accrued discount and premium on treasury bills and other discounted instruments. When loans and advances become impaired, they are written down to their recoverable amounts.

## (c) TRANSLATION OF FOREIGN CURRENCIES

Transactions in foreign currencies during the year are converted into Kenya Shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date which are expressed in foreign currencies are translated into Kenya Shillings at rates ruling at that date. The resulting differences from conversion and translation are dealt with in the profit and loss account in the year in which they arise.

## (d) EMPLOYEE BENEFITS

*Retirement benefits*

The Bank's employees are eligible for retirement benefits under a defined benefit plan provided through a separate fund scheme administered by Trustees and funded by the Bank. Deposit Protection Fund Board, a related party, reimburses the Bank the costs of contributions relating to staff seconded to it by the Bank.

The Bank's net obligation in respect to the plan is calculated by estimating the amount of future benefits that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the Projected Unit Credit Method.

Where the calculation results in a benefit to the Bank, the recognised asset is limited to the net total of any unrecognised actuarial losses and past service costs and the present value of any future refunds from the plan or reduction in future contributions to the plan. Actuarial gains and losses are charged to the profit and loss account over the remaining working lives of the employees participating in the scheme.

The Bank also makes contributions to a statutory pension scheme, the National Social Security Fund (NSSF). Contributions to the scheme are determined by local statute and are shared between the employer and employee.

*Other employee benefits*

The Bank provides free medical treatment to staff and their dependants.

The estimated monetary liability for employees' accrued leave entitlement at the balance sheet date is recognised as an expense accrual.

## (e) PROPERTY AND EQUIPMENT

Property and equipment are stated at purchase price less accumulated depreciation. Depreciation is computed on the straight line basis over the estimated useful lives of the assets at the following rates:

|   |     |
|---|-----|
| Building improvements                   | 10% |
| Motor vehicles, furniture and equipment | 50% |

## (f) FINANCIAL ASSETS AND LIABILITIES

The Bank presents financial assets and liabilities, and the associated income and expense streams, by distinguishing between foreign currency and local currency activities. Foreign currency activities mainly arise from the Bank's foreign reserves management function. Local currency activities mainly reflect the assets and liabilities associated with monetary policy implementation, issuance of currency in circulation and banking activities.

All financial assets and liabilities are recognised on a trade date basis. The purchases and sales of financial assets and liabilities are recognised from the date the Bank commits to purchase/ sell the financial instrument.

(i) *Investment securities*

Investment securities include debt securities which management intends to hold until maturity and are stated at cost adjusted for amortisation of premiums and discounts over the period to maturity. Premium and discounts earned on investment securities are reported as interest income.

(ii) *Currency in circulation*

Currency issued by the Bank represents a claim on the Bank in favour of the holder. The liability for currency in circulation is recorded at face value on the balance sheet.

(iii) *Repurchase and reverse-purchase transactions*

Securities issued by the Bank for monetary policy operations with an agreement to repurchase are disclosed in the balance sheet as liabilities and are stated at sales price. The difference between the sales price and the face value (repurchase price) represents interest expense and is accrued and amortised over the term of the contract.

## (g) LOANS AND PROVISIONS FOR LOAN IMPAIRMENT

Loans are stated at outstanding amount less provision for impairment.

As the lender of last resort, the Bank may grant loans or advances for fixed periods not exceeding six months to commercial banks that pledge Government securities specified by the Bank.

In its capacity as the fiscal agent and banker to the Government, the Bank may make direct advances to the Government for the purpose of offsetting fluctuations between receipts from the budgeted revenue and the payments of the Government. The total amount of advances to the Government outstanding shall not exceed five percent of the gross recurrent revenue of the Government as shown in the Appropriation Accounts for the latest year for which those financial statements have been audited by the Controller and Auditor-General.

The Bank also operates a staff loans scheme for its employees for the provision of facilities such as house and car loans.

The Bank determines the terms and conditions for granting of the above loans with reference to the prevailing market interest rates and may determine different rates for different classes of transactions and maturities.

Specific provisions for loan impairment are made in respect of advances. The provisions are based on periodic evaluations of advances and take account of past loss experience, economic conditions and the estimated value of any underlying collateral, and are charged to the profit and loss account.

When a loan is deemed uncollectable, it is written off against the related provision for impairment. Subsequent recoveries are credited to the income statement if previously written off.

(h) DIVIDENDS PAYABLE

Dividends are recognised as a liability in the period in which they are declared. Proposed dividends are disclosed as a separate component of equity until they are declared.

14 RETIREMENT BENEFIT ASSET

The Bank's employees are eligible for retirement benefits under a defined benefit plan provided through a separate fund. The defined benefit plan is funded by the Bank and the Deposit Protection Fund Board, a related party. The retirement benefit asset is wholly recognised in the financial statements of the Bank while the Deposit Protection Fund Board recognises contributions to the fund as if it were a defined contribution scheme.

The amounts recognised in the balance sheet are determined on the basis of an actuarial review carried out by Alexander Forbes Financial Services as at 30 June 2004.
