REPORT OF THE INDEPENDENT AUDITORS PURSUANT TO SECTION 54
OF THE CENTRAL BANK OF KENYA ACT

We have audited the financial statements set out on pages 6 to 23 which have been prepared on the basis of the accounting policies set out on pages 10 to 12. We obtained all the information and explanations which to the best of our knowledge and belief were necessary for purposes of our audit and to provide reasonable basis for our opinion. The financial statements are in agreement with the books of account.

As stated on page 4, the directors are responsible for the preparation of financial statements which give a true and fair view of the Bank's state of affairs and of its operating results. Our responsibility is to express an independent opinion on the financial statements based on our audit and to report our opinion to you.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform our audit so as to obtain reasonable assurance that the financial statements are free from material misstatement. An audit includes an examination, on a test basis, of evidence supporting the amounts and disclosures in the financial statements. It also includes an assessment of the accounting policies used and significant estimates made by the directors in the preparation of the financial statements, as well as an evaluation of the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

The financial statements comply with the requirements of Central Bank of Kenya Act (CAP 491) and applicable International Accounting Standards, except in so far as the Bank has not considered it appropriate to do so having regard to its functions, as set out in Note 1(a).

In our opinion, proper books of account have been kept and the financial statements give a true and fair view of the state of the financial affairs of the Bank at 30 June 2001 and of the results of its operations and cash flows for the year then ended in accordance with International Accounting Standards and comply with requirements of the Central Bank of Kenya Act.

NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 30 JUNE 2001

1 SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below.

(a) Form of presentation of the financial statements

In exceptional circumstances, as part of its central banking functions, the Bank may act as the lender of last resort to financial institutions in difficulty in order to prevent a loss of confidence spreading through the financial system as a whole. In some cases, confidence can best be sustained if the Bank's support is disclosed only when the conditions giving rise to potential instability in the economy have improved. Although the financial effects of such operations will be included in the financial statements of the Bank, these statements may not explicitly identify such support. The adoption of this accounting policy has no material impact on the financial statements.

(b) Basis of preparation

The financial statements are prepared in accordance with International Accounting Standards (IAS). The financial statements are prepared under the historical cost convention.

(c) Revenue recognition

Income is recognised in the period in which it is earned. Income is not accrued if the recoverability of the asset is considered doubtful.

CENTRAL BANK OF KENYA
BANKI KUU YA KENYA
NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 30 JUNE 2001

(d) Property and equipment

Items of property and equipment are stated at purchase price less accumulated depreciation.

Depreciation is computed on the straight line basis over the estimated useful lives of the assets at the following rates:

Land and building (long leasehold)	10%
Motor vehicles, furniture and equipment	50%

(e) Transactions in foreign currencies

Transactions in foreign currencies during the year are converted into Kenya shillings at rates ruling at the transaction dates. Assets and liabilities at the balance sheet date which are expressed in foreign currencies are translated at the appropriate rates of exchange ruling at the year end. The resulting differences from translation and conversion are dealt with in the profit and loss account in the year in which they arise.

(f) Investments

Investments in foreign and local securities are valued at the lower of cost or market value. To determine the lower of cost or market value, investments are grouped into their respective currencies and only if the group total market value is lower than cost is a provision made against that group.

(g) Revaluation Account

The Revaluation Account represents accumulated net exchange differences prior to 31 March 1997 arising from translation of assets and liabilities denominated in foreign currencies. The balance in the account is received in form of dividend reduction by equal annual charges to the profit and loss account of at least KShs 1 billion subject to availability of surpluses after taking into account the recovery of the deferred receivable.

(h) Loan amount due from Government of Kenya

The government loan account relates to overdrawn accounts of the Kenya Government converted into a loan account with effect from 1 July 1997. Effective 1999 no interest is realised from this account.

(i) Deferred receivable

The deferred receivable account relates to the disposal proceeds of the Times Tower from the Government of Kenya. The balance is recoverable in the form of dividend reduction over a period of three years with effect from July 2000.

(j) Employee benefits

The Bank's employees are eligible for retirement benefits under a defined benefit plan provided through a separate fund.

The Bank's net obligation in respect to the plan is calculated by estimating the amount of future benefits that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the Projected Unit Credit Method.

CENTRAL BANK OF KENYA
BANKI KUU YA KENYA

**NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 30 JUNE 2001**

Where the calculation results in a benefit to the Bank, the recognised asset is limited to the net total of any unrecognised actuarial losses and past service costs and the present value of any future refunds from the plan or reduction in future contributions to the plan.

Actuarial gains and losses are charged to the profit and loss account over the remaining working lives of the employees participating in the scheme.

The Bank also makes contributions to a statutory pension scheme, the National Social Security Fund (NSSF). Contributions to the scheme are determined by local statutes and are shared between the employer and employee.

The Bank also provides free medical treatment to its entire staff and their children.

(k) Provision for loans and advances

Specific provisions for doubtful debts are made in respect of advances. The provisions are based on periodic evaluations of advances and take account of past loss experience, economic conditions and estimated value of any underlying collateral and are charged to the profit and loss account.

(l) Cash and cash equivalents

For purposes of presentation of cash flows in the financial statements, cash and cash equivalents consist of balances held in current accounts and term deposit and investments in foreign treasury bills and gold holdings.

(m) Taxation

No provision for tax is made as Section 7 of the Central Bank of Kenya Act exempts the Bank from any taxation imposed by law in respect of income or profits. This exemption includes stamp duty in respect of instruments executed by or on behalf of the Bank.

(n) Dividends

Dividends are recognised as a liability in the period in which they are declared. Proposed dividends are disclosed as a separate component of equity.

It has been assumed that the experience was in line with the assumptions made.

26. RISK MANAGEMENT

The investment committee comprising senior Bank management is responsible for the daily monitoring of the Bank's risk exposure. Comprehensive guidelines control the manner in which CBK conducts its foreign currency reserve management and dealing operations.

The objectives of the CBK reserve management policy are:

- i. Safety: Maintenance of capital purchasing power of foreign reserves.
- ii. Liquidity: Timely availability of adequate resources at a reasonable price for daily requirements.
- iii. Returns: Maximizing total return within a framework of acceptable levels of risk subject to liquidity and safety objectives.

Types of risks addressed by the policy

- i. Credit: Arising from default by depository banks where reserves are invested.
- ii. Market : Actual loss and opportunity costs, stemming from adverse market movements usually in interest and exchange rates. Opportunity cost arises in scenarios where funds are invested for a fixed term and interest rates subsequently rise.
- iii. Sovereign/Political: Disruptions stemming from political or economic upheavals in a country leading to default on external obligations.

CBK sets targets for controlling critical portfolio variables, namely:

Currency Mix

To manage the interest and exchange rate risks (market risk), it is imperative to hold a diversified portfolio that spreads over the major world currencies that offer stability, are widely traded and internationally accepted (see note 24).

Choice Of Depository Banks

In order to minimise credit and sovereign risk exposure, the bank places its foreign exchange balances with selected financial institutions with the highest credit rating assigned by internationally recognised rating agencies.

27. COMPARATIVES

Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

28. INCORPORATION

The Bank is incorporated under the Central Bank of Kenya Act (Cap.491).

29. CURRENCY

These accounts are presented in Kenya Shillings.

GAZETTE NOTICE No. 6676

IN CLASS 21—SCHEDULE III

THE TRADE MARKS ACT

(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within sixty (60) days from the date of this Gazette, lodge notice of opposition on form TM. No. 6 (in duplicate) together with a fee of KSh. 1,500 (local application) or US\$ 75 (foreign application).

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, Kenya Industrial Property Office, Weights and Measures Building, Kapiti Road, off Mombasa Road, Nairobi.
