## GAZETTE NOTICE NO. 2686

THE INDUSTRIAL COURT  
CAUSE NO. 18 OF 1983

## Parties:

Transport and Allied Workers' Union  
and  
Kenya Airways

## Issue in dispute:

Effective date.

THE Transport and Allied Workers' Union shall hereinafter be referred to as the claimants and Kenya Airways shall herein after be referred to as the respondents.

2. The parties were heard in Nairobi on 16th June, 1983, and relied on their written and verbal submissions.

## AWARD

3. The Notification of Dispute Form "A" dated 10th February, 1983, duly signed by the parties was received by the court on 15th March together with the statutory certificate signed by the Labour Commissioner.

The parties' previous collective agreement which was based on an industrial court award was effective from 1st May, 1980, for a period of two years. The relevant clause in that agreement reads as follows:

"This agreement shall come into force on 1st May, 1980, and shall continue for a period of two years. During this period either party may terminate, amend or modify the agreement by giving the other two months' written notice and at the same time giving the proposed details of the intended change.

Both parties will then enter into negotiations on the proposed terms. Notwithstanding anything to the contrary contained in this clause, this agreement shall continue in force until another one is finally agreed upon between the company and the union."

The claimants gave two months' notice of their intention to amend the collective agreement on 8th January, 1982, and the respondents five days later expressed their willingness to negotiate. The negotiations, however, did not commence until 17th June, 1982. The apparent delay in the start of the negotiations was because the claimants' proposals were not forwarded to the respondents until 25th May, 1982. The negotiations commenced thereafter and the exercise lasted quite sometime because the respondents made it clear to the claimants that they would meet them only once a week.

The parties were able to conclude all the items in the collective agreement at their own level with the exception of the effective date. Ordinarily this would be a simple matter but in this dispute the labour costs per month in increased benefits on various items like basic pay, housing, transport, shift, leave, telephone and owner occupier and provident fund is in the region of KSh. 541,455 or thereabout per month.

The parties' respective positions after exhaustive negotiations, consultations and conciliation are:

*Claimants.—1st May, 1982.*

*Respondents.—1st September, 1982.*

The respondents have vigorously pleaded that as a result of the worldwide recession in the airline trade they had also suffered heavily. This recession compounded with the oil prices and the high interest rate which they had to pay did not leave any room for them to pay any arrears beyond 1st September, 1982. They stressed that the last three years have been the worst in the aviation history and thousands of workers all over the world in the airline history had been declared redundant but they had fortunately avoided redundancies in Kenya.

The respondents added that the government had bluntly told them not to expect any subsidy as the government wanted them to survive on their own.

The claimants submitted that they had made big sacrifices in order to achieve agreement on basic wages, house allowance and other items and their members should not be deprived of their benefits for even one month and they requested the court to award the effective date as 1st May, 1982, in respect of the new collective agreement.

On the evidence produced by the respondents the court is satisfied that the respondents are going through an extremely difficult period financially and that there is a real danger that if big arrears are awarded to the workers there might not be any money to pay them for the subsequent months. In such a situation the security of employment is naturally of paramount importance. The court is also satisfied that the respondents have embarked on serious steps to curtail their expenditure. The court, however, cannot overlook the offer the managing director made to the claimants' Kenya Airways branch at a meeting on 21st March, 1983, when in the minutes on the question of effective date the following is recorded:

"However, apart from the financial problems, the airline was expected to be re-equipped. This would involve acquisition of wide-body aircraft, provision of ground equipment, etc. All these will cost money. Equally the company has to pay its creditors, some of whom had not been paid for a long time. Because of these considerations the company was unable to meet union demands but as a sign of good gesture and strictly without prejudice, the managing director offered to recommend retroactive payment from 1st August, 1982. The cost of implementing the agreement would be over half a million shillings per month and it will be the company's responsibility to look for the extra money from increased productivity by the workers."

After a short discussion the union requested for more time to consult their members and to advise the chairman whether or not the revised offer was acceptable."

The court appreciates the sacrifice which the workers have made by accepting the benefits somewhat below their entitlement under the guidelines but at the same time the court would not like to make an award which would increase the financial burden of the respondents to a point where the payment of the wages to their employees may be jeopardized. Keeping all these points in view the court awards the effective date of the new collective agreement to be 1st August, 1982. The parties have already agreed that the duration is two years.

Given in Nairobi the 7th July, 1983.

## GAZETTE NOTICE No. 2687

THE TRADE MARKS ACT  
(Cap. 506)

NOTICE is given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within sixty (60) days from the date of this Gazette, lodge notice of opposition on form TM. No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Offices, Nairobi.

Applications for registration in part A of the register are shown with the official number unaccompanied by any letter. Applications for part B are distinguished by the letter B prefixed to the official number.
