THE INDUSTRIAL COURT

CAUSE NO 12 OF 1973

Parties —

Kenya Union of Commercial Food and Allied Workers
and
Distributive and Allied Trades Association

Issues in dispute —

- 1 Hours of work
- 2 Overtime
- 3 Sorting charges
- 4 Effective date
- 5 Duration of agreement

1 The Kenya Union of Commercial Food and Allied Workers shall hereinafter be referred to as the Claimants and the Distributive and Allied Trades Association shall hereinafter be referred to as the Respondents

2 The parties were heard in Nairobi on the 10th day of May, 1973, and relied on their written and verbal submissions. The Respondents also called one witness—Aggrey Amon

AWARD

3 The issues in dispute affect casual piece workers employed by the local warehousing companies in Mombasa and has arisen as a result of the Claimants' demands for the review of the existing payment rates and other conditions of employment.

The parties have been negotiating and entering into Collective Agreements affecting these workers since 1967 when an agreement was signed effective from 15th August, 1967, for a period of 18 months.

In 1969 the parties established revised payment rates and conditions of employment partly through direct negotiation and conciliation and partly through an award of the Industrial Court announced on 16th January, 1970, effective from 1st January, 1970, for a period of 18 months.

The Respondents prepared a formal agreement and forwarded it to the Claimants for signing which the Claimants refused to do. During the hearing the Claimants stated that they did not sign this agreement because the Respondents had tried to change the existing practices by altering the wording of certain clauses like the one on working hours. The Court is, however, satisfied that the Claimants did not intimate to the Respondents the reasons for not signing the agreement at any time prior to this dispute.

On 26th May, 1972, the Claimants forwarded their proposals to the Respondents for revising these rates and conditions of employment. A meeting of the District Committee was arranged and took place on 26th July, 1972. During this meeting the Respondents informed the Claimants that they could not make any offer unless they were permitted by the Price Control Board to increase their charges to customers.

The Claimants' reaction to this was to issue a strike notice on 26th July, 1972. The Respondents wrote to the Claimants on 5th August, 1972, explaining the position to the Claimants and on 9th August, 1972, the Permanent Secretary, Ministry of Labour, drew the Claimants' attention to the fact that they should exhaust the statutory machinery before considering strike action. The strike did not take place and a meeting of the District Committee was arranged to take place on 12th September, 1972.

A meeting did take place on 12th September, 1972, during which the Respondents confirmed that the Price Control Board had permitted them to increase their charges but they refused to divulge what increase they had been allowed. Negotiations commenced and were carried on through letters with the result that agreement was reached on most of the items and another meeting took place on 30th October when deadlock was recorded on the five issues before the Court.

On 30th October, 1972, the Claimants asked the Respondents in writing to implement with effect from 1st November, 1972, all the items on which agreement had been reached to avoid any backdating but the Respondents rejected this demand. On 10th November, 1972, the Respondents reported the existence of a trade dispute on five items which are before the Court in this dispute. A conciliator was appointed but the parties could not settle the dispute and eventually the parties signed the Notification of Dispute Form 'A' which was forwarded to the Industrial Court on 5th April, 1973, with the Labour Commissioner's Certificate.

Issues 1 and 2—Hours of Work and Overtime

In 1967 the question of working hours was referred to the Ministry of Labour and a conciliator was appointed. During conciliation the stint hours were reduced from 8 hours to 6 hours to bring the working day into line with the general working conditions in Mombasa Town. The six working hours were divided as follows —

Monday to Friday—0800 to 1200 and 1400 to 1600 hours

Saturday—0800 to 1300 hours

As a result of this conciliation the 1967 agreement contains the above arrangement under working hours and the clause on overtime reads as follows —

"Overtime worked in excess of the normal number of hours per day should be paid for at the rate of 80 cents per hour"

On the issue of hours of work the Respondents have made a demand that overtime should be paid only after a definite stint of six working hours whether or not it is six hours' continuous work or there is a break in between as they no longer can afford to be placed in a position when overtime rates may require to be paid after only one or two hours have been worked.

The Claimants strongly oppose this demand and have asked for the overtime rate to be increased to Sh 1/40 per hour.

The Respondents stated that the aforesaid arrangement arrived at during conciliation worked smoothly for some time as most of the labour gangs preferred to work during the lunch break finishing their completed stint by 1400 hours or earlier and then go home. In due course the shop stewards objected to this practice and asked for overtime to be paid for any work done during the lunch break and they ordered the gangs not to work during the lunch break. This resulted in most warehouses closing down from 1200 to 1400 hours unless there was such pressure of work that it was likely there would be more than a six-hour stint.

The Respondents enumerated the difficulties with which they were faced because of this. The important ones being —

(a) With increased cargoes and difficulties with the Railway many more cargoes had to be conveyed to the Port by lorry and the two hour shut down at midday disrupted the orderly flow of arrival of goods. This has caused labour problems as the warehousemen could see no reason to pay overtime after only working four hours from 8 to 12.

(b) The Respondents' members had been forced to avoid changeover of gangs and interruption of the work by continuing to employ the same gangs for night and day work as there was no economical advantage in doing otherwise. This also meant that fewer men were employed and there had not been the usual spread of earnings evenly over the whole casual labour pool.

In addition to the above difficulties the Respondents called a witness Mr Aggrey Amon the Cargo Superintendent with Cargo Handling Services who explained to the Court the new system which had been introduced first as an experiment and now on regular basis, for the efficient handling of exports and imports through the Port of Mombasa.

He said that the three-shift system at the Port had been reorganized with a view to achieving efficiency at the Port and to reduce the waiting time for the ships. The system is working on the basis of two hour slots for particular vessels and particular transporters. He said that the system was not being fully availed of by the shippers as they concentrated between 8 a.m. and 6 p.m. with the result that a lot of cargo is left behind by ships and the Port was therefore unable to operate fully during the three shifts which must be made use of 100 per cent in order to cope with the traffic going through the Port.

The witness further said that at present the shippers did not make use of the allotted time because of their present working hours they lost one hour in the morning and five hours in the evening from 6 p.m. to 11 p.m. as no cargo comes in during this time and all slots cannot be used.

Finally he said that the Port authorities would like to see the godowns and warehouses also working three shifts to match the Port shifts.

The Court has carefully considered the difficulties which have been put forward by the Respondents on these issues and has come to the conclusion that the question of maximum utilization of the Port working arrangements is tied to all the Port users and not only the Respondents' members who employ the casual workers. The Respondents witness quite clearly stated that the Port authorities would like the godowns to operate three shifts to match the working at the Port yet the Respondents, apart from saying that they had to pay overtime rates for work done after four hours or sometimes only two hours' work, did not elaborate their plans to meet the desire of the Port authorities to use its facilities to the maximum other than to say that they could not engage another gang after 4 p.m. as the workers objected.

In any case the Court feels that this change of hours which were established through conciliation should not be disturbed in isolation and is a matter of such great importance that it should be approached by all the Port users to utilize the Port facilities to the maximum.

Further the Respondents should have given proper notice of their intention to the Claimants to vary the working hours when the Claimants forwarded their demands to revise the existing rates and other terms, which they do not appear to have done. The Respondents' demand on working hours is accordingly rejected.

Regarding the Claimants' demand for an increase in the overtime rates the Court has come to the conclusion after taking all the factors into account that the present rate should not be disturbed and their demand for increasing the overtime rate to Sh 1/40 is rejected.

Issue No 3—Sorting Charges

The Claimants' demand is that the sorting charge of 10 cents per item should be paid in respect of all cargo and not only in respect of bagged cargo which was the practice at present.

They referred the Court to an Investigation Report by Mr H Oduor and Mr Mohamed of Ministry of Labour in 1965 which brought about an agreement between the workers and the employers to agree to a sorting charge of 10 cents per item sorted out. They submitted that the report quite definitely established that sorting charges were to be paid in respect of all cargo requiring to be sorted and not bagged cargo only. They said that a good number of Respondents' members paid sorting charges in accordance with their interpretation and there was no reason why a few should avoid paying so.

The Respondents stated that the Investigation Report referred to by the Claimants had no relevance to this item because the sorting charges were not paid until 1965 when the Uganda Marketing Board altered its unit of the sale from 425 bags to 250 bags and at the same time commenced to rail in full wagon loads of approximately 600 bags instead of the previous railing unit of 425 bags. This caused considerable unrest and the Ministry of Labour Inspectors checked on the work being carried out. As a result the Labour Department fixed a charge of 10 cents per bag for sorting at a time when full off-loading charge was 18 cents. This ruling was agreed and read as follows—

'Sorting'

When three or more lots of bagged coffee or agricultural produce are carried in one wagon, a sorting charge of 10 cents per bag will be paid. This is payable on bagged cargo only.

The Respondents emphasized that the operative word is 'bagged' therefore bagged cargo such as maize, wheat, oil seeds, etc., all of which are packed in bags are subject to the same off loading rates and as a concession by the Respondents were included in the new sorting charges agreement.

The Court notes that in the August 1967 agreement there is no mention of the payment of sorting charge although the Respondents started paying it sometime in 1965 or early 1966.

In 1969 this item was not before the Court although in the agreement which was forwarded by the Respondents to the Claimants after the negotiations, conciliation and Industrial Court award, this item was included and the wording is the same as quoted hereinabove. This agreement, however, was not signed by the Claimants.

After a careful consideration of all the submissions the Court must say that it is not impressed by the Claimants' arguments on this issue because it is highly unlikely that they would have remained quiet for all this time especially in 1969, if what they say is true. The Court finds that the Respondents version on this item is more probable and therefore rejects the Claimants' demand for the time being. In rejecting this demand the Court must state that if any of the Respondents' members are paying sorting charges on all cargo then they should continue paying so.

Issue Nos 4 and 5—Effective Date and Duration

Both the parties are agreed on the duration period to be 18 months with wide difference on effective date which the Claimants demand to be 1st November, 1972, and the Respondents suggesting that it should be dated from the first of the month in which the Court award is published.

The Claimants submitted that the Respondents had developed a habit of delaying agreements in order to gain further standstill than laid down in the duration period. They said that after the 1967 agreement the Respondents had gained a standstill period of 11½ months. Since then there was the one year standstill under the Tripartite Agreement and another five months' grace making a total period of 16½ months' standstill.

Finally they strongly submitted that since they had asked the Respondents in writing on 30th October, 1972, to implement the items on which agreement had been reached with effect from 1st November, 1972, there was absolutely no reason why the effective date should not be as proposed by them.

The Respondents stated that it was not practicable to back date the award as the employees are not directly employed by their members but are engaged in complete gangs and often inadequate records are kept of the actual names of the workers in each gang. Further the payment is made to the gang leader who is responsible for distributing the payment to the members of his own gang.

The Court appreciates the difficulties which have been put forward by the Respondents but finds that they are not insurmountable. The Court feels that it would be unfair to deprive the workers the benefit of the agreed increased rates with effect from 1st November, 1972, especially in view of the fact that the Respondents were asked on 30th October, 1972, to implement them. The Court therefore awards that the effective date should be 1st November, 1972.

GAZETTE NOTICE NO 1803

THE TRADE MARKS ACT (Cap 506)

NOTICE is hereby given that any person who has grounds of opposition to the registration of any of the trade marks advertised herein according to the classes may, within 60 days from the date of this Gazette, lodge notice of opposition on Form TM No 6 (in duplicate) together with a fee of Sh 50.

Notice is also hereby given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the Registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered. Where an applicant considers that a claim in respect of all the goods included in a class can be justified it will save unnecessary delay in examining applications if a claim is filed simultaneously with the application, accompanied in appropriate cases by supporting documents.

The period for lodging notice of opposition may be extended by the Registrar as he thinks fit and upon such terms as he may direct. Any request for such extension should be made to the Registrar so as to reach him before the expiry of the period allowed.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the applicant for registration so as to afford him any opportunity of withdrawing his application before the expense of preparing the notice of opposition is incurred. Failure to give such notice will be taken into account in considering any application by an opponent for an order for costs if the opposition is uncontested by the applicant.

Where it is stated in the advertisement of the applicant that the mark, upon its registration, is to be limited to certain colours, the colours are, as far as possible, indicated in the accompanying representations of the mark in the usual heraldic manner.

Representations of the marks advertised herein can be seen at the Trade Marks Registry, State Law Office, Nairobi.

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B are distinguished by the letter B prefixed to the official number.
