GENERAL NOTICE NO 166

DEPARTMENT OF AGRICULTURE

LOCUST REPORT TO 8229

KERIO PROVINCE

West Sak—Hopper swarms 40 acres at Kamunono being destroyed Infestation at Maerich 130 acres, hoppers now cleared up Rain is threatening

Elgeyo and Keno River—Still clear of hoppers

North and South Turkana—No operations report to hand

Njemps Buringo—A large number of hoppers in Karpeddo are dying due to heat and absence of food

Large swarms destroyed at Rokinis, several flying swarms were burnt at night

Nadol—Numerous hopper swarms destroyed

Nattan—Now free of hoppers

Legumulam—Hopper swarms under destruction

NORTHERN FRONTIER PROVINCE

Staff withdrawn One officer transferred to work in the Thukana District, of Meru Reserve where there are hoppers It is reported that of the whole Northern Frontier Province the hoppers in approximately 5,000 square miles were dealt with As the Province is over 100,000 square miles in extent work was concentrated in the area which offered the most reasonable facilities and opportunities for destruction At the most sanguine estimate not more than ten per cent of the hatchings in the Northern Frontier Province were destroyed

UKAMBA PROVINCE

Kitui—Half of the staff has been evacuated there are great hopes that the hopper infestation of the entire area will be overcome

Konzo Tsavo—Staff withdrawn A proportion of the swarms matured into flies The country was found to be extremely difficult in parts

Taita—The position is reported as entirely satisfactory Work is proceeding in Kilimani, Sorengeti, Mbolo and Mjunge No report to hand from the Athi River area There are no hoppers on the boundary south of Taveta

MASAI RESERVE

Staff withdrawn All hoppers found have been destroyed Eggs were not suspected in the Nyika District

COAST AREAS

Lamu—Hopper infestation not severe Destruction complete

Tana River—Hopper infestation severe, and where feasible destruction continued, but it is feared that a large proportion has matured

Malindi—Hoppers practically eradicated

Kilifi—Entirely clear of hoppers

A preliminary calculation places the hopper destruction in Kenya at approximately 25 per cent of the whole infestation

FLYING SWARMS

The northerly movement of swarms in the Northern Frontier has continued There are, however large swarms moving north from the region of Fort Hall through Nyeri District Damage is still being done to native crops in the Keruguya area

Swarms on the Sabaki River, the Coast and Digo District generally have done much damage so that a food shortage is expected

No reports of damage have as yet come from Elgeyo, and on account of the great destruction of hoppers in Kerio Province, unless flying swarms enter from elsewhere, the emission of swarms from that area will not be great

A flying swarm at great height travelled northwards on the 7th February over the Rift Valley in the region of Gilgil There is a large flying swarm in the Thomson's Falls area

Eye witnesses report the presence of a very large flock of white locust birds in the Nanyuki District, the massed flock on the ground having the appearance of a huge field of snow

There are reports of flying swarms in the Nairobi area, which are very close to coffee shambas Coffee in Ithanga, in addition to having been decimated has suffered on account of the breaking of the wood and locusts have eaten coffee berries Smoke fires were found to be most effective in moving locusts off bushes, and farmers are using old oil and crude oil to create dense and more permanent smudges The oil is poured on the fires from time to time It is suggested that flaming torches made of tow soaked in crude oil and enclosed in wire netting, if drawn about the headlands give a more effective smoke screen

Tanganyika reports considerable damage to native crops, and that the general tendency of swarms is to move in a southerly direction

No swarms are reported from the Trans Nzoia, Plateau, Lake and Nakuru areas

It is notified for general information that no staff is available for the purpose of assisting occupiers to drive locusts from plantations Communications regarding foodstuffs should be addressed to the Director of Agriculture
