PRICING OF THE ISSUES

The pricing of the issues and the effective interest rate will be determined through tender. To guide the applicants, yield tables are attached to the application forms, but investors are free to quote prices within two (2) decimal points, using the following examples:

A two-year Treasury Bond Due in 1988 with a coupon of 12 per cent per annum, and a price of 98.33 will give a yield of 12.97 per cent per annum. For a price of 99.90 the yield will be 12.06 per cent per annum paid semi-annually which means the annual payment equivalent is 12.12 per cent per annum.

The five-year Treasury Bond Due in 1991, with a coupon of 13 per cent per annum at a price of 98.20 would give a yield of 13.51 per cent per annum, and for a price of 96.49 the yield will be 14 per cent per annum. (This 14 per cent translates into 14.49 per cent paid annually.)

No. 6 (in duplicate) together with a fee of KSh. 50.

Notice is also given that official objection will be taken under rule 21 (3) to all applications in which the specification claims all the goods included in any class unless the registrar is satisfied that the claim is justified by the use of the mark which the applicant has made, or intends to make if and when it is registered.
