SEGERA CONSERVANCY MANAGEMENT PLAN, 2025–2029

IN EXERCISE of the powers conferred by section 44 (3) of the Wildlife Conservation and Management Act, the Cabinet Secretary for Tourism and Wildlife publishes the Plan set out in the Schedule hereto:

SCHEDULE

Segera Conservancy Management Plan 2025–2029 (hereinafter referred to as “the Plan”) outlines the goals, objectives, and actions formulated by Segera Conservancy (hereinafter referred to as “the Conservancy”) to address wildlife conservation, tourism development,

community partnerships, livestock production, security and administrative issues within the Conservancy.

The Conservancy's purpose statement, zonation scheme, management programmes and plan implementation strategy are presented in the following sections.

1. Purpose Statement

The purpose of Segera Conservancy is:

To preserve the integrity of the 4Cs (Conservation, Community, Culture, and Commerce) making up Segera Conservancy, while promoting sustainability in the greater Laikipia landscape.

2. Land Uses and Zones

The plan sets out a zonation scheme to guide land use within the Conservancy. It supports effective management across various areas of the Conservancy. Primary land uses include wildlife conservation, livestock production, tourism, and infrastructure development. The zonation scheme categorizes land use activities into four management zones: Rangeland Rehabilitation Zone, High Use Zone, Medium Use Zone, and Low Use Zone.

3. Management Programmes

The Plan is structured around five (5) management programmes: Conservation and Ecological Management Programme, Tourism Development and Management Programme, Community Partnership and Livestock Programme, Security Programme, and Conservancy Administration Operations and Technical Programme. These programmes are summarised in the following sections.

3.1 Conservation and Ecological Management Programme

The Conservation and Ecological Programme aims to enhance the conservation of Segera's natural environment through improved ecological monitoring, applied research, and targeted management interventions. To achieve this purpose, three key management objectives have been developed, whose focus are: securing and enhancing the status of key large mammal species; maintaining key habitats and rangeland conditions in the Conservancy; and implementing the Ecological Monitoring Plan.

3.2 Tourism Development and Management Programme

The Tourism Development and Management Programme aims to ensure Segera's position as a premier tourism destination is maintained and enhanced. The programme seeks to achieve this by enhancing visitor experience and minimizing environmental impacts associated with tourism, and strengthening tourism management and administration systems.

3.3 Community Partnership and Livestock Programme

The Community Partnership and Livestock Programme endeavours to enhance community support for Segera's conservation efforts and promote participation in conservation-compatible land uses and grazing plans across the greater Segera landscape. This will be achieved through the implementation of management objectives focused on improving the livelihoods of neighbouring communities, mitigating human-wildlife conflict, and increasing the benefits that communities derive from Segera.

3.4 Security Programme

The primary goal of the Security Programme is to safeguard Segera Conservancy's natural resources, staff, visitors, and assets through the provision of efficient, effective, and adequate security services. The programme's key management objectives focus on strengthening natural resource protection operations, especially within the Rhino Conservation Area, enhancing the overall effectiveness of natural resource protection operations, strengthening security of people and property, and enhancing staff morale, motivation, and loyalty.

3.5 Conservancy Administration Operations and Technical Programme

The purpose of the Conservancy Administration Operations and Technical Programme is to ensure that conservancy operations and technical functions efficiently and effectively support the achievement of the Conservancy's purpose, as well as the successful delivery of the other Segera management programmes. The programme's objectives focus on strengthening institutional collaborations, promoting internal staff collaboration, and improving Segera's infrastructure.

4. Plan Implementation, Monitoring, and Evaluation

The Management Plan includes three-year Activity Plans that detail the specific management actions and activities corresponding to each objective. Monitoring will be undertaken in accordance with the Conservancy's Ecological Monitoring Plan and the milestones outlined in the Activity Plans. Additionally, a biennial Social Assessment of Protected Areas will be undertaken to evaluate both the positive and negative impacts of the Conservancy.

The Plan is deposited at the offices of the Director-General, Kenya Wildlife Service, along Langata Road, and the offices of the Directors, Segera Conservancy, whose addresses are provided below:

RUKANGA MAKUTANO WATER AND SANITATION COMPANY LIMITED

APPROVED TARIFF STRUCTURE FOR THE PERIOD 2026/2027 TO 2028/2029

The Water Services Regulatory Board (WASREB), under the powers granted by section 72 (1) (b) and (2) of the Water Act, 2016, has approved the regular tariff adjustment for the area served by Rukanga Makutano Water and Sanitation Company Limited (RUMAWASCO).

Rukanga Makutano Water and Sanitation Company Limited (RUMAWASCO) applied to the Water Services Regulatory Board (WASREB) for review of water services tariffs, for the period 2026/2027 to 2028/2029 as per section 72 (1) b of the Water Act 2016.

Public consultation on the RUMAWASCO application was carried out in accordance with the requirements of section 139 of the Water Act, 2016.

Having considered the application, the written and oral submissions by all stakeholders and the current data, WASREB has determined that an upward tariff review is justified for RUMAWASCO to improve service delivery, operate sustainably and protect consumer interests by meeting the tariff conditions attached to the tariff.

WASREB hereby gives a one-month notice from the date of this communication to all existing and potential customers of RUMAWASCO that the structure of approved tariffs for water services for the four financial years 2026/2027, 2027/2028 and 2028/2029 shall be as follows:

INVITATION TO PUBLIC COMMENTS

PURSUANT to section 59 of the Environmental Management and Co-ordination Act, Cap. 387, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Asab Trade Development Limited, proposes to construct a mixed-use development comprising of a shopping mall, a 5-star hotel, a 3-star hotel, eating places and 3175 residential units with 3 floors (5 bedroom units with DSQ), 3 floors (4 bedroom units with DSQ), and 2 floors (four bedroom units with DSQ), drainage infrastructure, internal road networks, parking spaces, overhead water tanks, community facilities and associated amenities on Parcel L. R. No. Junda Magogoni/ Block VIII/52 along Mshomoron Road, off Kengeleni Road, Manyani area in Kisauni Sub-county, Mombasa County.

The following are the anticipated impacts and proposed mitigation measures.

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
Soil disturbance	- Control earthworks and compact loose soils. - Install drainage structures properly - Landscaping on project completion - Control and manage excavation activities. - Control activities especially during rainy conditions. - Provide soil erosion control and conservation structures/means where necessary. - Ensure standard appropriate practices on the provided gardens.
Protection of the Indian Ocean	- All wastewater from the toilets should be discharged into the proposed sewer system effectively. - The drainage channel discharging storm water into the ocean should be provided with effective and adequate screens to filter off any solid waste and should be regularly removed and appropriately disposed.
Changes in land	Plant vegetation after project completion

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>	<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
use- extent	even if in pots. • Ensure compliance with existing planning policy. • The project shall be approved by the relevant government bodies before commencement.		• Maintenance of construction vehicles should be carried out in the contractor's yard (off the site). • Provide oil interceptors along the drains leading from car park and potentially oil risk areas.
Changes in hydrology/ impended drainage/deep excavations	• Proper Installation of drainage structures. • Install cascades to break the impact of water flowing in the drains • Ensure efficiency of drainage structures through proper design and maintenance. • Provide gratings to the drainage channels. • A geotechnical survey shall be conducted and the recommendations thereof followed. There shall be no blasting during excavation. • A methodology for excavation shall be generated as required by NCA prior to excavation.	Road safety	• Enforce speed limits for construction vehicles especially along roads leading to the site. • Provide bill boards at the site/entrance to notify motorists about the development.
Air pollution	• Enclose the site with dust-proof net during construction. • Water should be sprayed during the construction phase of excavated areas during dry conditions. • Control speed and operation of construction vehicles. • Prohibit idling of vehicles. • Ensure sound condition of construction machinery and equipment. • Engage sensitive construction workers.	Public health, occupational health and safety	• Train staff/workers on occupational health and safety. • Provide full protective gear and workmen's compensation cover in addition to the right tools and operational instructions and manuals during construction. • Adopt sound waste management system to ensure proper solid waste disposal and collection facilities. • Design of sewerage system should be as provided in the plans and should be constructed to approved size and design, standard and of approved materials. • Engage the services of qualified personnel and/or ensure training. • Ensure use of standard construction materials and to the specifications. • Ensure machinery and equipment servicing and maintenance as per schedules and legal requirements. • Post strategically the Factories and Other Places of Work Act Abstract and provide material safety data sheets • Post clear warning signs e.g. 'No unauthorized use of machines', ensure there are guards on moving parts etc. • Provide fully equipped First Aid kits and train staff on its use. • Ensure adherence with the legal requirements- Factories Act. • Ensure Mombasa County Government certifies and issues occupation certificates.
Noise pollution	• Erect suitable barriers to control noise. • Sensitize drivers of construction machinery on effects of noise. • Maintain plant equipment (if present). • Construction activities to be restricted to daytime. • Workers in the vicinity of or involved in high-level noise to wear safety and protective gear.		
Water quality and sewerage infrastructure	• The design of the entire sewerage system should consider the estimate discharges from individual sources and the cumulative discharge of the entire project even during peak volumes. • Provide for adequate drainage systems. • Ensure effluents are discharged responsibly to the sewerage system. • Monitor quality of wastewater to ensure compliance with the Environmental Management and Coordination (Water Quality) Regulations, 2024 and other relevant Laws. • Ensure the ocean is protected from any would be kind of pollution.	Vegetation	• Avoid unnecessary removal of vegetation. • Landscaping and planting vegetation in all disturbed areas.
		Record keeping	• Collection and analysis of relevant environmental data of the site.
Oil pollution	• Proper storage, handling and disposal of new oil and used oil wastes as per waste regulations. • Maintain plant and equipment to avoid leaks.	Fire safety and preparedness	• Install firefighting equipment as provided elsewhere in the report. • Conduct training on firefighting, evacuation and emergency response. • Sensitize the residents on fire risks i.e. conduct regular fire drills. • Adapt effective emergency response plan. • Maintain/service firefighting machinery regularly. • Provide emergency numbers at strategic

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	points.
Water quality	- The design of the entire sewerage system should consider the estimate discharges from individual sources and the cumulative discharge of the entire project even during peak volumes. - Provide for adequate drainage system. - Ensure effluents are discharged responsibly to the sewerage system. - Install an oil water interceptor to trap oils that may be present in wastewater. - Apply and obtain an Effluent Discharge License (EDL) for effluent released into the environment. - Monitor quality of wastewater to ensure compliance with the Environmental Management and Coordination (Water Quality) Regulations, 2024 and other relevant Laws.
Waste management	- During construction phase, designate an area for temporarily holding waste materials. - All wastes should be disposed of in accordance with the Environmental Management and Coordination (Waste Management) Regulations, 2006 and other relevant Laws. - Segregation of wastes at the source for ease of handling and disposal. - Contract a NEMA licensed waste transporter to transport solid waste from the proposed site during construction and occupation phases. - Provide bins for temporarily holding waste before collection by licensed transporters during occupation phase. - Ensure no waste, either solid or liquid finds its way to the ocean.
Traffic management	- Conduct a traffic Impact Assessment and generate a traffic management plan - The Traffic management plan should be followed throughout the project cycle.
Power sources	- Power supply requirements shall be calculated and shared with KPLC as is the requirement. A dedicated transformer for the entire project shall be a consideration. - Alternative power sources (solar) shall also be installed for lighting and heating.
Security and social impacts	- Provide security guards, CCTV cameras and other security apparatus during the entire project cycle. - Construction work timings shall only in line with the NEMA licensing conditions
Contribution to climate change	- Water management; Invest in water management strategies like rainwater harvesting, storage facilities, and efficient water use practices. These measures aim to mitigate water scarcity during dry periods and reduce flood risks during heavy rainfall events. - Infrastructure Design: Incorporate resilient features to withstand extreme weather like flooding, storms, and high

<i>Impacts</i>	<i>Proposed Mitigation Measures</i>
	temperatures.
	- Energy Efficiency: Implement technologies and practices to reduce greenhouse gas emissions and dependency on fossil fuels. - Biodiversity Conservation: Protect and enhance natural ecosystems to preserve biodiversity and ecosystem services, including reforestation, habitat restoration, and sustainable land management practices.
Emission of greenhouse gases	- Installation of a solar PV system and/or Implementation of energy efficiency mechanisms to supplement Kenya Power supply and reduce energy consumption thereby abating about GHG emissions. - Undertake annual energy audits to monitor progress and exploit opportunities for energy efficiency.

The full report of the proposed project is available for inspection during working hours at:

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

The following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be Clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE HUMAN RESOURCE POLICIES AND PROCEDURES MANUAL FOR THE PUBLIC SERVICE —

Kenya Gazette

A.30 (1) All communication for publication in the *Kenya Gazette* should reach the Government Printer not later than Friday of the week before publication is desired.

(2) A State Department will be required to meet the cost of advertising in the *Kenya Gazette*.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
