1. (a) The minimum price to be paid by a registered trader to an African producer of maize for fair average quality maize, including grade differential, without bag, shall be the price set out in the second column of the Schedule hereto, which is appropriate, having regard to the area in which the maize is grown, as set out in the first column of the said Schedule, provided that there shall be deducted from the price set out in the second column, such cess as may be levied by the African District Council concerned under the provisions of the African District Councils Ordinance, No. 12 of 1950.

(b) The price to be paid by the Controller to a registered trader for maize of not less than fair average quality, without bag, free on rail or delivered to a Maize Control store or a miller, shall be the price set out in the second column of the Schedule hereto which is appropriate in respect of maize grown in the area set out in the first column of the Schedule, less such cess as may be levied by the African District Council concerned, but increased by the appropriate sum set out in the third column of the Schedule and by the cost of transport calculated at the rate of 7½ cents per mile per 200 lb. net maize.

NOTES—

(i) The price paid by the Control for fair average quality maize (Grades III and IV) is Sh. 36/15 and for maize graded Grade II, Sh. 38/15. It is not possible at the time of purchase from the African producer to differentiate between the higher and lower grades. African producers will therefore be paid an average sum representing the proportion of Grade II maize delivered by African producers in the two main maize-growing regions of the Colony.

Sh. 1/50 will be paid per 200 lb. net maize in respect of maize from Nyanza Province and Nandi Districts, and Sh. 1/05 in respect of maize from other parts of the Colony where the proportion of Grade II maize delivered to the Control is less. The prices in Column 2 include these allowances.

(ii) Transport from market to railhead is calculated at the rate of 7½ cents per mile per 200 lb. net maize or such other amount as may be fixed by the local authority in consultation with the Maize Controller. In the case of Nyanza, any saving between the sum of the average transport allowance and the actual payment made by the Controller in respect of transport shall be retained by the Controller, and at the end of the Crop Year disposed of in accordance with the directions of the Provincial Commissioner, Nyanza. THE CROWN LANDS ORDINANCE

NAKURU—HIGH DENSITY TWO-STOREY HOUSING

TENDERS in terms of proposals for development are invited for the leasehold of portions of an area comprising approximately 6.21 acres in Section XLIII, Nakuru, for the purpose of constructing high density two-storey housing.

2. A plan of the area may be seen in the Lands Department, Nairobi, or at the office of the Town Clerk, Nakuru, or a copy may be obtained at the office of the Director of Surveys, P.O. Box 1766, Nairobi, on payment of Sh. 4, post free.

CONDITIONS OF SALE

(a) Tenders

1. Sealed envelopes marked "Tenders for Section XLIII, Nakuru" must be deposited with the Town Clerk, Nakuru, before noon on 1st November, 1955.

2. It has been decided that the density of building shall be at the *minimum* rate of 8,500 sq. ft. to a maximum rate of 12,000 sq. ft. habitable floor space per acre (exclusive of servants' quarters) in *two-storey terraced and semi-detached houses*.

3. The public is invited to tender for this land in terms of development proposals. Tenders should take the form of application to build a stated number of units of residential habitable floor space comprising a minimum of 2,000 sq. ft. to a maximum of 2,800 sq. ft. per unit, i.e. *one terrace of four houses or one pair of semi-detached houses comprising four dwellings*, and should as far as possible conform with the proposals shown on the plan of the area in question. Each tender should be accompanied by a statement indicating—

(a) the amount of capital it is proposed to spend on the project with a banker's letter in support;

(b) the amount of accommodation it is proposed to build, i.e. one unit or any larger amount not necessarily in complete additional units.

Note.—Type plans can be made available if desired, at normal cost, on application to the Town Clerk.

(c) the scale of accommodation per house, separate scales to be given for each type designed;

(d) the method by which the houses will be made available to the public, together with a statement of terms and conditions appropriate to the method of making available, e.g. rent, tenant purchase terms and conditions if proposed, outright purchase by tenants, etc.

4. Tenders should also include a description of the provision for car parking and servants' *sanitary accommodation* only, etc. All successful tenderers will be required to conform in all respects with the Council's By-laws for accommodation of this sort, together with the terms and conditions set out in the Schedule hereto.

In the siting of buildings and the provision of amenity areas, regard will be had to the requirements of the overall development of the area. Sketch plans should therefore be submitted.

6. Grants of land will be made proportionate to the amount of accommodation which it is proposed to erect on the basis of *approximately* one acre per 12,000 sq. ft. of accommodation. As the amount of land is limited it may be necessary to scale down tenderers' proposals. Particular regard will be had to economy in the use of land.

7. Successful tenderers will be required to pay within 14 days of notification that their tender or such modification of it as may be agreed, has been accepted, the full amount of stand premium and annual rent until 31st December, 1955.
