THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT
(No. 8 of 1999)

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED NYAMIRA G.K PRISON ESIANY AREA
NYAMIRA COUNTY

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Nyamira G.K Prison Esiany Area Nyamira County.

The Proponent (Ministry of Home Affairs) of the proposed Nyamira G.K Prison intends to construct a prison whose features will include Gate Lodge with a Sentry, Armory, Generator room, Office, Visitor's bay, Switch board, Radio room, Administration block, modern prison wards and associated facilities at Esiany area, Nyamira County.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Vegetation disturbance	• Ensure proper demarcation and delineation of the project area to be affected by construction work. • Specify locations for trailers and equipment, and areas of the site which should be kept free of traffic, equipment and storage. • Design and implement an appropriate landscaping programme to help in re-vegetation of part of the project area after construction. • Consider use of indigenous plant species in re-vegetation. • Plant trees at suitable locations so as to interrupt slight lines (screen planting), between the adjacent area and the development.
Increased storm water, runoff and soil erosion	• Ensure that construction vehicles are restricted to existing graded roads to avoid soil compaction within the project site. • Ensure that any compacted areas are ripped to reduce run-off. • Site excavation works be planned such that a section is completed and rehabilitated before another section begins. • Roof catchment be used to collect storm water and Construction of water storage tanks to collect water for use. • Ensure that construction materials left over at the end of construction will be used in other projects rather than being disposed of. • Use building materials that have minimal or no packaging to avoid the generation of excessive packaging waste. • Reuse packaging materials such as cartons, cement bags, empty metals and plastic containers to reduce waste at the site.
Dust emissions and exhaust emissions	• Ensure strict enforcement of on-site speed limit Regulations. • Avoid excavation works in extremely dry weathers. • Sprinkle water on graded access routes

	when necessary to reduce dust generation.
Noise and vibration	- Sensitize truck drivers to avoid unnecessary racing of vehicle engines at loading/offloading points and parking areas, and to switch off or keep vehicle engines at these points. - Sensitize construction vehicle drivers and machinery operators to switch off engines when not in use. - Ensure that construction machinery are kept in good condition to reduce noise generation. - Ensure that all generators and heavy duty equipment are insulated or placed in enclosures to minimize ambient noise levels. - Construction works will entirely be planned to be during day time when most of the neighbours will be at work. - Billboards will suitably be erected on the start of the project to psychologically prepare the people in the vicinity.
Increased energy consumption	- Ensure electrical equipment, appliances and lights are switched off when not in use. - Install energy saving fluorescent tubes at all lighting points instead of bulbs which consume higher electric energy. - Monitor energy use during construction and set targets for reduction of energy use.
Occupational health and safety	- Implement all necessary measures to ensure health and safety of workers and the general public during operation of the housing project. - Electrical fittings near all potential sources of ignition should be flame proof. - Develop a suitable system for the safe collection, recycling and disposal of chemical wastes, obsolete chemicals and empty chemical containers. - Keep a record of all hazardous chemicals used at the project, cross-referenced to the appropriate chemical safety data sheets.
Hydrology and water quality degradation	- Hazardous substance control and emergency response plan that will include preparations for quick and safe clean up of accidental spills. - Identify areas where re-fuelling and vehicle maintenance activities and storage of hazardous materials, if any, will be permitted. - Hazardous-materials handling procedures to reduce the potential for a spill during construction to be prescribed.
Incidents, accidents and dangerous occurrence	- Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms. - Enforcing adherence to safety procedures and preparing contingency plan for accident response in addition safety education and training shall be emphasized. - Provide measures to deal with emergencies and accidents including adequate first aid arrangements.

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED UPGRADING DUNE PETROL AND
COMPLIMENTARY BLOCK OF BUSINESS UNITS ON PLOT
L.R. BLOCK 109/1609 IN RUAI, OFF KANGUNDO ROAD,
NAIROBI.

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed upgrading dune petrol and complimentary block of business units on plot L.R. Block 109/1609 in Ruai, off Kangundo road, Nairobi.

The Proponent (Mr. Duncan J. N. Kandia) for the proposed upgrading dune petrol and complimentary block of business units in Ruai has proposed to upgrade the existing petrol station (known Dune) and construct a complimentary block of business units. The project consists of a new canopy to shelter two more underground tanks each having capacity of 20,000 cubic meters. A service bay, service pit and accessories shop for vehicle to be accommodated in the ground floor of the new block. The old tanks will continue holding kerosene, super and diesel fuels respectively.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Water supply	- Harvest rainwater for use during construction to supplement other supply sources during construction. - Conserve water during construction avoiding unnecessary use.
Traffic management	- Delivery vehicles to be given strict instructions on safe driving in the project area. - Developer to ensure signage & speed control in the area are observed by the delivery vehicles. - All delivery vehicles should follow a predetermined route. - No idling delivery vehicles at the site - Scheduled delivery of construction materials
Water quality	- Ensure minimum excavation to reduce soil erosion causing siltation of watercourses both artificial and natural. - Use liners where there is mixing of cement and other substances to reduce the amount of construction material in the runoff exiting the site. - Residents should be encouraged to adopt water conservation.
Air quality	Dust control through regular sprinkling

	- of the construction site and access road with water. - Maintenance of the machinery to ensure efficient combustion of fuel to reduce emissions.
Noise pollution	- Restrict construction activities to a set time of between 8 and 5 p.m. from Monday to Friday - Proper maintenance of machinery and where possible, fix silencers on noisy equipment.
Vegetation	- Ensure minimum clearance of vegetation. - Delivery vehicles to follow predetermined routes at all times. - Plant some trees, assorted flower bushes and grassing on completion of construction activities. - Maintain planted vegetation in healthy conditions.
Waste management	- Resource use conservation to minimize construction wastes. - Recyclable materials from the construction waste should be recycled. - Proper disposal for those that cannot be reused. - The residents should be encouraged through education to practice waste reduction at source. - Solid wastes temporary storage site should be kept in sanitary conditions - Contract a waste handler to ensure the proper disposal of generated waste or facilitate its recycling.
Health and safety	- Provide adequate sanitary facilities for the workers. - Provide personal protective equipment for the construction workers. - Regulate speed limits of vehicles entering and leaving the site by placing warning signs along the road. - There should be a warning sign on the main access road indicating delivery vehicles turning. - All workers at the site should receive basic first aid training and other emergency procedures and the operation of machinery. - Ensure good housekeeping and a clean working environment is maintained by all workers to prevent accidents. - Ensure observance of speed limits on the access roads and in the project site.
The full report of the proposed project is available for inspection during working hours at: (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi. (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi (c) Provincial Director of Environment, Nairobi Province. ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED NJEGA HYDRO-ELECTRIC PROJECT,
KIRINYAGA EAST DISTRICT

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed development of Njega hydro-electric project, kirinyaga east district.

The Proponent (UNI Power Limited) of the proposed development of Njega hydro-electric project, kirinyaga east district has proposed to carry out construction of diversion weir, intake structure, water conductor system, de-silting chamber, fore bay, powerhouse, penstock, tail race channel and switchyard.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Increased solid waste generation	- A waste management plan will be put in place by the contractor - There will be adequate provision of strategically placed waste bins at the facility to ensure there is no idle litter. - Use durable long lasting materials that shall not need to be replaced as often thereby reducing the amount of construction wastes generated over time.
Dust and gaseous emissions	- Watering should be done where appropriate during construction. - Control speed and operation of vehicle on site. - Use environmentally clean fuels for the vehicles coming onsite.
Surface Drainage System	- Drainage channels should be installed in all areas that generate or receive surface water such as car parking and driveways. - Drainage channels should be covered with gratings to prevent occurrence of accidents and entry dirt that would compromise flow of run-off. - The channels should be designed with regards to the peak volumes such as periods or seasons when there is high intensity of rainfall to avoid overflow. - The drainage channels should be self-cleaning which means it should have a suitable gradient. - Provide suitable storm water drainage channels to effectively discharge water to safe areas. - Maintain existing drainage channels to avoid blockages.
Increased	Switch off all electrical appliances when not in use

Energy Demand	- Put off all lights immediately when not in use /required or are not needed. - Use energy conserving electric lamps for general lighting.
Noise	- Workers should be provided with Personal Protective Equipment such as earmuffs when operating noisy operations. - There should not be unnecessary honking of the trucks at the site. - Vehicle drivers and machinery operators to switch off engines of vehicles or machineries not being used. - Noisy operations should be done during the day.
Leaks from installations	- Regularly tests to ensure integrity of the installations such as air separators, valves, couplings, dispensing hoses and storage tanks. - Drops or wetness to ensure no leakage must be checked regularly. - Inventory management / stock reconciliation shall be done daily to ensure no leakages and to monitor available stocks. - Installations shall be made of strong material such as steel to ensure no leaks.
Risk of fire	- Install and maintain firefighting equipment located at strategic points. - Sensitize the workers on fire risks and use firefighting equipment. - Sand buckets shall be easily accessible, full and ready to use. - Observe safety precautions during loading and offloading of trucks. - No blockages at the entrance and the exit. - Forecourt should be clean, no litter, oil or spillage. "No Smoking" rule shall be observed and all signs displayed, clean and easily legible to the customer - Engines shall not be running while the vehicle is at the loading bay. - No use of mobile phones at the forecourt. - All electrical components at the site shall be of appropriate quality to minimize risks associated with faulty electrical fittings. - All cables serving the pumps shall be well-insulated and in sealed conduits.
Emergency Response Plan	- Provision of security throughout the project implementation. - Provide emergency numbers at strategic points. - Ensure that all workers have access to communication facilities (phones etc) for quick emergency response. - Install emergency Stop Buttons. - Install firefighting equipment and train staff on how to use them. - Install vehicle collision protection bars at the loading bay. - Maintain a first aid kit.
Traffic Flow	- Ensure sufficient parking space. - Avoid unnecessary delays at the loading

Management	bay. One staff should be assigned the role of traffic management.
Loss of top soil cover	- Avoid unnecessary movement and disturbance of soil surface. - Resurface/pave open areas after the completion of the project. - Apply soil erosion control measures such as the leveling of project site to reduce surface runoff, velocity and increase infiltration of storm water into the soil.

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi

(c) Provincial Director of Environment, Central Province.

(d) District Environmental Officer, Kirinyaga District.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED WASTE OIL RECYCLING PLANT ON L.R.
NO. 4247 AT MBOLLOLO, TAUSA, ALONG MOMBASA –
NAIROBI HIGHWAY, VOI DIVISION, TAITA TAVETA COUNTY

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed waste oil recycling plant on L.R. no. 4247 at Mbololo, Tausa, along Mombasa – Nairobi Highway, Voi Division, Taita Taveta County.

The Proponent (COAST WASTE OIL TRANSPORTERS ASSOCIATION) has proposed to put up a fluid terminal Comprised of treatment, storage and reuse. When completed, the facility is expected to be independent in its operation of receiving, treating and storing of waste oil on L.R. No.4247, located at Mbololo, Tausa along Mombasa- Nairobi Highway, a few meters from Canaan Hotel along the Highway. The Environmental Impact Assessment Study has been carried on the above named location. The project plot area measures approximately 1.0 acres.

The following are the anticipated impacts and proposed mitigation measures:

Possible Impact	Mitigation measures
Air pollution, dust generation and noise pollution	- Spray water during construction work - Control of speed and movement of construction vehicles - Use of low- sulfur diesel-operated machinery - Use of ear protection aids by construction workers - No unnecessary hooting by project and occupants vehicles - Restriction of construction activities to

	day time
	• Use of equipment designed with noise control elements
Clearing of vegetation	• Maintaining tree strands at unaffected areas
	• Planting of ornamental trees
	• Planting of grassed lawns
Disturbance of soil	• Put soil traps around perimeter fence and on steep areas • Landscaping with tree and grass planting • Maintaining specified routes for construction vehicles • Control earthworks
Destruction of habitat	• Maintaining of standing trees in areas not affected • No off-road driving. • Control of earthworks
Generation of solid waste	• Re-use of soil, construction debris and other wastes • Proper containment and disposal of solid waste • Contracting a licenced waste collection disposal company
Increased demand for water and electricity	• Conservation (wise use) of water and electricity • Provision of adequate water storage facilities • Installation of rain water harvesting structure • Re-use of ware where possible mainly at construction phase
Occupational health and safety risks	• Use of suitable personal protective equipment • Site to be sprinkled with water to minimize dust • Use of stable ladders and other climbing/support structures • Sensitize workers on construction safety measures • Cleanliness and organization at construction site • Fencing or covering of risky areas such as deep pits (especially the part at the junction of console base on the way to kensalt and refinery) • Safety signage • Use of permit to work authorizer for risky jobs
Fire hazards and Accidents	• Engagement of skilled labourers • Acquire fire fighting facilities • Sensitize workers on fire safety • No storage of inflammables at site and no smoking • Keep well stocked first aid kit
Security	• Guarding of site by a reputable security firm • Constant site patrol • Adequate screening of visitors to site
Generation of waste water	• Proper connection of waste water and sewerage system to the existing municipal council system as per approved design • Provision of storm water drains • Proper decommissioning of waste water and sewerage systems
Public health and safety	• Proper handling and disposal of solid and liquid waste

- Operation of noisy machinery at daytime only
- Control of visitors to the site
- Ensure use of provided pit latrines by construction staff
- Installation of adequate waster supply

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

THE following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement*, etc.:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly.
- (4) *Act Supplement* contains Acts passed by the National Assembly.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Dates must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

"D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
